AGENDA

Board of Wildlife Resources 7870 Villa Park Drive Henrico, Virginia 23228

> March 16, 2023 9:00 am

Call to Order and Welcome -

- 1. Recognition of Employees and Others:
- 2. Approval of the January 19, 2023 Board Meeting Minutes

Final Action

- 3. Public Comments Non Agenda Items
- 4. Establishing the Ad Hoc Advisory Committee to Facilitate Collaborative Solutions for Hound-Hunter and Private Landowner Stakeholders
- 5. Committee Meeting Reports:

Wildlife and Boat Committee:

Migratory Game Bird Regulation Recommendations	<u>Final Action</u>
Wildlife Regulation Proposals	<u>Action</u>
Boat Regulation Proposals	<u>Action</u>

Finance, Audit & Compliance Committee:

- > APA Audit Report
- Capital Programs and Boating Access

Law Enforcement Committee:

Education, Planning, and Outreach Committee:

- > 2023 Restore the Wild Art Contest
- 6. Director's Report
- 7. Chairman's Report
- 8. Additional Business/Comments
- 9. Next Meeting Date: Thursday, May 25, 2023
- 10. Closed Session
- 11. Adjournment

Draft Board Minutes

Board of Wildlife Resources 7870 Villa Park Drive Henrico, VA 23228

> January 19, 2023 9:00 am

Present: Mr. G. K. Washington, <u>Chair</u>, Mr. Tom Sadler, <u>Vice Chair</u>; <u>Board Members</u>: Mr. Leon Boyd, Ms. Tammy Jo Franklin (virtual), Ms. Catherine Claiborne, Dr. Mamie Parker and Mr. Michael Formica; Mr. George Terwilliger; Mr. Jon Cooper; **Absent:** Mr. Brian Vincent and Mr. John Daniel, <u>Executive Director</u>: Mr. Ryan Brown; <u>Deputy Director</u>: Ms. Becky Gwynn; <u>Director's Working Group</u>: Dr. Gray Anderson, Mr. Mike Bednarski, Mr. Darin Moore, Ms. Paige Pearson, Mr. Bob Smet, Mr. George Braxton (virtual), Mr. Stock Watson, Mr. Paul Kugelman, Mr. Tom Guess

The Chair called the meeting to order at 9:00 am. The Chair welcomed everyone to the meeting. The Chair noted for the record that a quorum was present.

Ms. Kelci Block, Assistant Attorney General attended the Board meeting.

The Chair called on Mr. Jon Cooper to read the Mission Statement.

The Board Secretary had a Roll Call Vote for attendance: Present: Leon Boyd, Catherine Claiborne, G. K. Washington, Tom Sadler, Jon Cooper, George Terwilliger, Mamie Parker, Michael Formica, Tammy Franklin (virtual)

Absent: John Daniel and Brian Vincent

Recognitions of Employees and Others: The Chair called on Director Ryan Brown for Recognitions of Employees.

The Director called on Dr. Gray Anderson who introduced Mr. Mike Fies as the recipient of the Wildlife Biologist of the Year Award and Ms. Caity Homan as the recipient of the Lands/Access Specialist of the Year Award.

Dr. Gray Anderson introduced a new staff member, Dr. John Tracey, the new Veterinary for the Department.

Approval of the October 19, 2022 Board Meeting Minutes:

The minutes of the October 19, 2022 Board meeting minutes have been distributed and posted to the website for review. The Chair called for a motion to approve the minutes. Mr. Sadler made a motion to approve the October 19, 2022 Board meeting minutes. It was seconded by Dr. Parker. The board secretary called the roll. Ayes: Washington, Boyd, Franklin (virtual), Sadler, Parker, Terwilliger, Formica, Claiborne, Cooper

Public Comments – Non-Agenda Items:

The Chair called for Public Comments – Non-Agenda Items:

- ➤ Chris Neff spoke regarding Deer season in Lee County (in person)
- > Jeanne Trabulsi spoke regarding Solar panels (virtual)
- ➤ Phillip Ashberry spoke regarding hunting with hounds (in person)
- Amanda Savignano spoke regarding hunting with hounds (in person)
- > Chris Patton spoke regarding Virginia Property Rights Alliance (in person)
- Lonnie Peterson spoke regarding hunting with hounds (in person)
- ➤ Deborah Oliver spoke regarding hunting with hounds (in person)
- > Todd & Glenda Grubbs spoke regarding hunting with hounds (in person)
- ➤ John Keppeler spoke regarding hunting with hounds (in person)
- Nicholas Eisner spoke regarding hunting with hounds (in person)
- ➤ Michael Faust spoke regarding hunting with hounds (in person)
- > Scott Stachhelek spoke regarding hunting with hounds (in person)
- Mike Hayes spoke regarding hunting with hounds (in person)
- Ron Litwinski spoke regarding hunting with hounds (in person)
- > Dylan Madison spoke regarding hunting with hounds (in person)
- Michael Lindsey spoke regarding Hunting Dog Alliance (in person)
- > Jeffrey Sili spoke regarding hunting with hounds (in person)
- > James Hackett spoke regarding Sporting Dog Coalition of Virginia (in person)
- ➤ David Carpenter spoke regarding Hunting Dog Alliance (in person)
- Robert Bishop spoke regarding Hunting Dog Alliance (in person)
- ➤ Josh Tanner spoke regarding hunting with hounds (in person)
- > Todd Watson spoke regarding hunting with hounds (in person)
- > Gary Wright spoke regarding hunting with hounds (in person)
- ➤ Will Frank spoke regarding hunting with hounds (in person)
- ➤ Judge Charlton spoke regarding hunting with hounds (in person)
- > Chelsea Tover spoke regarding hunting with hounds (virtual)
- > Gary Kimberlin spoke regarding Property Rights Alliance (virtual)
- ➤ Philippa DeRamus spoke regarding Property Rights Alliance (virtual)
- > Suji Helmer spoke regarding foxhunters (virtual)
- ➤ Todd Miller spoke regarding Hunting Dog Alliance (virtual)
- > Copeland Casati spoke regarding Property Rights Alliance (virtual)
- > Evan Nuzzo spoke regarding Hunting Dog Alliance (virtual)
- ➤ Kaitlyn Abercrombie spoke regarding Hunting Dog Alliance (virtual)

The Chair thanked all the speakers for their comments.

The Chair called for break at 11:05 am

The Chair resumed the meeting at 11:35 am

The Chair called on Board member Mr. George Terwilliger for comments and a motion. Mr. Chair, I move that the Board authorize the Director, at his discretion, appoint an ad hoc advisory committee to consider the rights of landowners and hunters and advise the Board on possible changes to regulations that might address some of the current issues. It was seconded by several Board members.

The board secretary called the roll. Ayes: Claiborne, Washington, Cooper, Boyd, Franklin (virtual) Sadler, Parker, Terwilliger, Formica

Committee Reports:

Wildlife and Boat Committee:

The Chair called on Mr. Leon Boyd for a report of the January 18, 2023 Wildlife and Boat Committee Meeting.

Mr. Boyd gave an update of the Wildlife and Boat Committee Meeting on January 18, 2023.

After comments and questions, The Chair thanked Mr. Boyd for his update.

The Chair called on Dr. Gary Costanzo for his presentation on the Migratory Bird Regulations Proposals.

After comments and questions, The Chair thanked Dr. Costanzo for his presentation.

The Chair called for a motion. Mr. Boyd made a motion, Mr. Chair, I move that the Board approve the 2023-2024 Migratory Game Bird Season and Bag Limit recommendations as presented by staff, to be advertised for public comments. It was second by Mr. Sadler. The board secretary called the roll. Ayes: Claiborne, Washington, Cooper, Boyd, Franklin (virtual), Sadler, Parker, Terwilliger, Formica

The Chair called on Dr. Gray Anderson for a presentation on the Proposed Property Naming.

Dr. Anderson gave a presentation on the Proposed Property Naming.

The Chair asked the Board and public for any comments or questions.

After comments and questions, the Chair thanked Dr. Anderson for his presentation.

The Chair called for a motion. Mr. Boyd made a motion, Mr. Chair, I move that the Board of Wildlife Resources adopt the proposed property name and designation as presented. It was seconded by Mr. Sadler. The board secretary called the roll. Ayes: Washington, Boyd, Franklin (virtual), Sadler, Parker, Cooper, Terwilliger, Formica, Claiborne

The Chair called on Dr. Gray Anderson for an update on Wildlife Regulation cycle schedule and public scoping.

Dr. Anderson gave his update on the Wildlife Regulation cycle schedule and public scoping.

After comments and questions, the Chair thanked Dr. Anderson for his update.

Finance, Audit, and Compliance Committee Report:

The Chair called on Mr. Tom Sadler to give an update on the January 18, 2023 Finance, Audit, and Compliance Committee meeting.

Mr. Sadler gave an update on the January 18, 2023 Finance, Audit, and Compliance Committee meeting.

After comments and questions, The Chair thanked Mr. Sadler for his update.

The Chair called on Mr. Darin Moore for a presentation of the Mid-Year Budget to Actual Finance Report.

After comments and questions, the Chair thanked Mr. Moore for his presentation.

<u>Law Enforcement Committee</u>: The Chair called on Mr. Sadler to give an update on the January 18, 2023 Law Enforcement Committee meeting.

Mr. Sadler gave an update on the January 18, 2023 Law Enforcement Committee meeting.

The Chair asked if there were any comments or questions from the public or the Board.

The Chair thanked Mr. Sadler for his Committee update.

The Chair called on Major Milt Robinson for an Update.

Major Milt Robinson gave a CPO Recruitment Update. The academy of 28 recruits will begin on January 25, 2023.

Board member Mamie Parker left at 1:00 pm.

The Chair called for a Close Session at 1:00 pm and called on Catherine Claiborne to read the Close Session Motion. It was seconded by Mr. Sadler.

The board secretary called the roll: Ayes: Claiborne, Washington, Cooper, Boyd, Franklin (virtual) Sadler, Terwilliger, Formica

Closed Meeting Motion, January 19, 2023

Mr. Chairman,

I move that the Board go into a closed meeting:

First, pursuant to Section 2.2-3711.A.3 of the Code of Virginia, for discussion or consideration of the acquisition of real property for a public purpose, or of the disposition of publicly held real property, where discussion in an open meeting would adversely affect the bargaining position or negotiating strategy of the public body, specifically regarding real estate located in the City of Winchester.

And secondly, pursuant to Section 2.2-3711.A.1 of the Code of Virginia for discussion or consideration of employment, assignment, appointment, promotion, performance, demotion, salaries, disciplining, or resignation of specific public officers, appointees, or employees of the Department of Wildlife Resources, specifically regarding the performance of the Director.

This closed meeting will be attended only by members of the Board. However, pursuant to Section 2.2-3712(F), the Board requests the Department Director, the Deputy Director, and the Real Property Manager to also attend this meeting, as it believes their presence will reasonably aid the Board in its consideration of topics that are the subject of the meeting.

The Board reconvened from Closed Session at 2:45 pm.

The Chair called on Mr. Formica to read the Certification of Closed Meeting. It was seconded by Mr. Sadler.

The board secretary called the roll. Ayes: Claiborne, Washington, Cooper, Boyd, Sadler, Terwilliger, Formica

Certification of Closed Meeting

January 19, 2023

WHEREAS, the Board of Wildlife Resources conducted a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom Information Act; and

WHEREAS, Section 2.2-3712.D of the Code requires a certification by this Board that such closed meeting was conducted in conformity with Virginia law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Wildlife Resources hereby certifies that, to the best of each member's knowledge, only public business matters lawfully exempted from open meeting requirements by Virginia law were discussed in the closed meeting to which this certification resolution applies, and only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board.

The Chair called on Mr. Leon Boyd for a motion. Mr. Chair, I move that the Board of Wildlife Resources authorize the Director to dispose of 30+ acres known as Red Bud Run Wildlife Management area in Frederick County, VA to Shenandoah Valley Battlefield Foundation in accordance with House Bill 1278. It was seconded by Mr. Sadler.

Ayes: Claiborne, Washington, Cooper, Boyd, Sadler, Terwilliger, Formica

<u>Education, Planning, and Outreach Committee Report:</u> The Chair called on Mr. Bob Smet for an update on the January 18, 2023 Committee meeting.

Mr. Smet gave an update of the EPO Committee meeting on January 18, 2023.

After comments and questions, the Chair thanked Mr. Smet for his report

The Chair called on Mr. Smet for a report.

Mr. Smet gave a report on The Virginia Wildlife Grant Program for 2022 and what to expect in 2023.

After comments and questions, the Chair thanked Mr. Smet for his report.

The Chair called on Mr. Smet for an Update and Plan.

Mr. Smet gave an update and Paddlesports Plan.

After comments and questions, the Chair thanked Mr. Smet for his update and Plan.

<u>Director's Report:</u> The Chair called on Director Ryan Brown for a report.

➤ Gave an update on the legislation concerning DWR at the General Assembly

The Chair thanked the Director for his report.

<u>Chair's Report</u>: The Chair commented on what a nice event the Flippo-Gentry at was held in October, thanked staff for all the work that goes into putting together committees and Board meeting.

The Chair announced the next Board meeting date as Thursday, March 16, 2023 and adjourned the meetings at 3:10 pm.

Respectfully submitted,

Frances Boswell /s/

Notes:

- 1.) Many of the annual migratory bird surveys that were not conducted in 2020 and 2021 due to concerns about Coronavirus were reinitiated this past year. Population models were used to estimate bird numbers in those years when the surveys were not conducted, and those estimates were included in the development of appropriate harvest regulations.
- 2.) Possession Limits for Migratory Game Birds are 3 times the daily limit unless otherwise noted.
- 3.) Framework changes new this year are highlighted in **red text**.

Doves

Mourning Dove Background Information and Population Status

There are three dove management units (or flyways) across the country, including the Eastern (EMU), Central (CMU) and Western (WMU) Management Units. Virginia is in the EMU.

• Population trends in the EMU:

10-yr (2013-2022): gradually declining population trend. Long term (1966-2022): gradually declining population trend.

- <u>Dove Banding Project</u> Annual program since 2003 to leg-band over 500 doves annually in VA, and 33,000 nationwide. Data used to provide estimates of movements, survival and harvest rates, and is the main monitoring program used to develop annual hunting regulations.
- <u>Harvest Strategy</u>: Revised Harvest Strategy adopted in 2014 allows for a standard dove hunting season of 90 days with a bag limit of 15 birds/day when appropriate.
- Data from HIP (past 5-yr avg.): Hunters = 15,900 Harvest = 215,060

DOVE

FEDERAL FRAMEWORKS

OUTSIDE DATES: September 1, 2023 - January 31, 2024

Hunting dates may run consecutively or be split into no more than three (3) segments.

<u>SEASON LENGTH</u>: Not more than 90 days.

BAG LIMIT: 15 daily and 45 in possession. Daily bag

limit can be composed of mourning doves and white-winged doves, singly or in

combination

SHOOTING HOURS: Between ½ hour before sunrise and

sunset daily (State may select ½ day

shooting in any segment).

STAFF RECOMMENDATION

SEASON DATES: September 2 - October 22 (51 days)

November 18 - November 26 (9 days) December 22 - January 20 (30 days)

SHOOTING

HOURS: September 2 Noon until sunset

September 3 – October 22 ½ hr before sunrise to sunset.

November 18 – November 26 ½ hr before sunrise to sunset.

December 22 - January 20 ½ hr before sunrise to sunset.

½ hr before sunrise to sunset.

BAG LIMIT: 15 daily and 45 in possession. Composed of mourning doves and

white-winged doves, singly or in combination

Rails

Background Information and Population Status

- <u>Harvest</u> Comprised predominantly of clapper rails (85%), some sora (14%), and small number of Virginia rails taken. Clappers are mostly local VA birds, some are migrants from NY, NJ, and other coastal states.
- Nesting Clapper rails nest from May through June, with re-nesting in July/August. Late nesting rails have broods that do not reach flight stage until August or September. This occurs in years when 1st nests are flooded by spring storms/tides and re-nests contribute significantly to production. Therefore, we generally wait until the second week of September to open the hunting season. The key to setting the season is to bracket the greatest number of high tides possible.
- <u>Harvest Data</u> Avg. No. hunters = 290, Avg. Harvest = 3,300 (HIP, past 5-yr avg.)

Past Seasons

RAILS (Clapper, King, Sora, Virginia) & Gallinules (Common, Purple)

FEDERAL FRAMEWORKS

OUTSIDE DATES: September 1, 2023 - January 31, 2024

<u>SEASON LENGTH:</u> 70 days, straight or 2 segments.

<u>DAILY BAG LIMIT:</u> Clapper/King - 15, in aggregate.

Sora/Virginia - 25, in aggregate. Gallinules - 15, in aggregate.

SHOOTING HOURS: 1/2 hour before sunrise until sunset daily

STAFF RECOMMENDATION

SEASON DATES: September 11 - November 5 (56 days)

November 13 - November 26 (14 days)

<u>DAILY BAG LIMIT:</u> Clapper/King: 15 - in aggregate, only 1 can be a King Rail.

Sora/Virginia: 25 - in aggregate. Gallinules: 15 - in aggregate.

SHOOTING HOURS: 1/2 hour before sunrise until sunset

NOTES: - This recommendation provides 30 days of 3-ft or greater lunar tides.

- Non-Toxic shot is required for Rail, Snipe and Gallinule hunting in Virginia.

Woodcock

Background Information and Population Status

- Harvest Strategy includes 3 regulatory options (Liberal, Moderate and Restrictive). Annual regulation based on the 3-year mean of the call count survey. For 2023-24, Harvest Strategy calls for Moderate Regulations (45 days/3 birds).
- Singing-ground survey (SGS) in Eastern Management Region from most recent survey:
 - 1 year trend (2021-2022): stable
 - 10 year trend (2013-2022): 1.07% decline per year.
 - Long-term (1966-2022): 0.84% decline per year.
- The 2021 recruitment index for the U.S. portion of the Eastern Region (1.38 jv/ad female) was 14% below the 2021 index and 15% below the long-term index.
- Research suggests that habitat loss is the major factor of the long-term population decline.
- Virginia is participating in a Flyway-wide study of woodcock movements and habitat use for the past several years. GPS transmitters are tracking woodcock migration routes and chronology, and this data is being used to better inform woodcock management strategies and hunting seasons.
- Federal regulations prohibit zones for woodcock hunting, however, we are permitted to split the season into two segments. In Virginia, this allows us to provide both early and late opportunities for hunters across the state.

Recent Seasons (bag limit has been 3 birds)

STAFF RECOMMENDATION

SEASON DATES: September 25 – November 26 (63 days)

December 19 - January 31 (44 days)

BAG LIMIT: 8 daily, 24 in possession

SHOOTING HOURS: ½ hour before sunrise until sunset

SEPTEMBER TEAL SEASON FACT SHEET - 2023

- Special teal seasons were initiated in late 1960's to provide harvest opportunities on blue-winged and green-winged teal. When the blue-winged teal breeding population (BPOP) is above 3.3 million, a 9-day season can be offered. If the BPOP exceeds 4.7 million, a 16-day season can be offered.
- Blue-winged teal are one of the earliest migrants. Many pass through Virginia from late August through October, prior to the opening of the late duck season.
- Green-winged teal are also early migrants and arrive in September and October. However, some Green-wings remain through the winter depending on weather conditions.
- Virginia has held a special September teal season since 1999 (see dates listed below). The season was initially held only in the area east of I-95 because there are greater numbers of teal and teal hunters in the coastal plain. Even in the coastal plain, teal are not widespread, and the harvest has been relatively small. The season was expanded in 2011 to provide some teal hunting opportunity in the area west of I-95.

BAG LIMIT: 6 daily, 18 in possession (Blue-winged and

Green-winged teal only).

SHOOTING HOURS: 1/2 hour before sunrise to sunset

FACT SHEET - Waterfowl Hunters and Harvests - 2023

- Liberal duck seasons (60 days, 6 bird bag limit) and resident goose seasons have resulted in high waterfowl harvests in Virginia during the past ten years. Harvest has averaged ~132,400 ducks and ~47,400 Canada geese from 2016-2020, compared to 114,770 ducks and 25,000 geese during the 1990's. The long season length and liberal bags offer greater opportunity and a greater cumulative harvest over the course of the season.
- Waterfowl hunter numbers in Virginia have been generally stable since the late 1990's. Since 1999, the Harvest Information Program (HIP) has been used to estimate hunter effort and harvest. The average number of duck and goose hunters over the past 3 years, as measured by HIP, was 16,700 and 13,800 respectively.
- Conditions during the 2021-2022 season were mild and warm resulting in poor waterfowl hunting conditions and a delayed migration. This resulted in a duck harvest that was lower than the previous 5-year average. Estimated Canada goose harvest was also lower than previous years mainly due to the reduction in the AP Canada goose bag limit.
- The total estimated duck harvest during the 2021-2022 season in Virginia (111,100) was 14% lower than the previous year (128,800) and 16% lower than the previous 5-year average (132,400).
- During the 2021-2022 season, mallards were the most commonly harvested duck in Virginia, followed by wood ducks, scoters, buffleheads and gadwall. The mallard harvest in Virginia in 2021-2022 (23,221) decreased 31% from 2020-2021 (33,200) and was 37% lower than the past 5-year average (36,500).
- The Canada goose harvest in Virginia in 2021-2022 (20,770) was 32% lower than the 2020-2021 season (30,350) and 56% lower than the previous 5-year average (47,400).

FACT SHEET - The Status of Ducks - 2023

- Waterfowl harvest in the Atlantic flyway is managed by the stocks of four different species of eastern waterfowl populations (wood ducks, American green-winged teal, ring-necked ducks and goldeneyes). The 2022 estimated breeding population size for wood ducks was 1.00 million (SE = 0.12 million), 0.32 million (SE = 0.07 million) for American green-winged teal, 0.64 million (SE = 0.11 million) for ring-necked ducks and 0.71 million (SE = 0.21 million) for goldeneyes.
- The total 2022 mid-continent mallard breeding population is predicted to be 7.16 million (SE = 0.23 million). This is 9% below the long-term (1955-2019) average of 7.9 million (+ 0.04 million).

Virginia: Habitat conditions in Virginia during the spring of 2022 were average.

• The 2022 breeding pair estimate for mallards (21,630) increased 66% from the previous year (14,210). Estimated black duck pairs (319) increased slightly from last year (152). The number of Wood duck pairs (9,675) decreased 7% from the previous year (10,424). The breeding pair estimate for Canada geese (40,966) decreased 23% from the 2021 estimate (53,025).

Return to the 4-Mallard Bag Limit in the Atlantic Flyway

The mallard has been one of the most abundant duck species in eastern North America. However, mallard numbers in the Northeastern U.S. declined about 40% from the late 1990's through around 2019. About 60% of the mallards harvested in Atlantic Flyway states, and around 80% of those harvested in Virginia, are derived from the Northeastern U.S. Mallard numbers in Eastern Canada were stable or slightly increasing during this same time period, but overall, the breeding mallard population in eastern North America had declined. This decline prompted waterfowl managers to enact harvest restriction on mallards in the Atlantic Flyway in 2019. The bag limit was reduced from 4 to 2 mallards daily, with a limit of 1 hen mallard. Those restrictions were in place for the past 4 hunting seasons.

Since 2019, Eastern Mallard numbers have increase 15%. In addition, a new Eastern Mallard Harvest Strategy and Population Model was developed based on recent population dynamics. The Strategy has been put in place for 2023-2024 hunting season regulation process, and allows for a return to a 4-mallard bag limit (2 hens). Projections from the new harvest strategy indicate that under current conditions, Atlantic Flyway regulations should allow for a liberal mallard bag limit (4 mallards total, only 2 hens) around 80% of the time.

YOUTH and VETERANS WATERFOWL DAYS

Guidelines for the Youth Days and Veterans Days include:

- 1. States may select 2 days per duck-hunting zone, designated as "Youth Waterfowl Hunting Days," in addition to their regular duck seasons. States may also select 2 days per duck-hunting zone designated as "Veterans Waterfowl Hunting Days" in addition to their regular duck seasons. The Youth and Veterans days could be combined and held on the same day or could be held separately.
- 2. Youth Days must be held outside of any regular duck season on a weekend, holidays, or other non-school days when youth hunters would have the maximum opportunity to participate.
- 3. Youth and Veterans Days could be held up to 14 days before or after any regular duck season frameworks or within any split of a regular duck season.
- 4. The daily bag limit is the same as that allowed in the regular season and includes ducks, mergansers, coots, moorhens, gallinules, 1 Canada geese (except in Canada Goose Zones where the bag limit is higher), and 1 tundra swan (if the hunter possesses a tundra swan permit). Flyway species restrictions remain in effect.
- 5. Youth hunters must be 15 years of age or younger. Youth 12 years of age and older will need a valid Virginia state hunting license. A licensed adult at least 18 years of age or older must accompany youth hunters into the field. This adult may not duck hunt, but may participate in other open seasons.
- 6. Those allowed to participate in the special **Veterans Days** include Veterans (as defined in section 101 of title 38, United States Code) and members of the Armed Forces on active duty, including members of the National Guard and Reserves on active duty (other than for training).

DUCKS

FEDERAL FRAMEWORK

Outside Dates: September 23, 2023 - January 31, 2024

Season Length: 60 hunting days; plus 2 Youth/Veterans Waterfowl Hunt Days.

Bag Limits: Daily Bag limit of 6 ducks, with the following restrictions:

Can include no more than 4 mallards (only 2 hens), 3 wood ducks, 2 black ducks, 2 canvasback, scaup: 1/day for 40 days and 2/day for 20 days, 2 redheads, 1 pintail, 1 mottled duck, 1 fulvous whistling duck, 4 total sea ducks (no more than 3 scoters,

3 eider (only1 hen), 3 long-tailed ducks). Closed season on harlequin duck.

Possession limit is three times the daily bag limit.

Split Season Options: 3-way split season, no zones

Shooting Hours: 1/2-hour before sunrise until sunset daily

STAFF RECOMMENDATIONS

Season Length: 60 hunting days; plus 2 Youth/Veterans Waterfowl Hunting Day

Season Dates: October 6 - 9 (Black Duck closed)

November 15– November 26 December 19 – January 31

October 21, February 3 – Youth/Veterans Waterfowl Days

Bag Limit: Daily Bag limit of 6 ducks, with the following restrictions: can include no

more than 4 mallards (only 2 hens), 3 wood ducks, 2 black ducks (except closed Oct. 6–9), 2 redheads, 2 canvasback, 1 pintail, 1 mottled duck, 1

fulvous whistling duck.

Scaup: 1/day from October 6-9, November 15-26, December 19 - January

11, and 2/day from January 12-31.

<u>Sea Ducks:</u> 4 total sea ducks to include no more than 3 scoters, 3 eiders (only 1 hen), 3 long-tailed ducks. Closed season on harlequin ducks.

The possession limit is three times the daily bag limit.

Shooting Hours: 1/2-hour before sunrise until sunset daily

MERGANSER AND COOT

MERGANSER

FEDERAL FRAMEWORK

Option A

<u>Season Length:</u> 60 hunting days.

Outside Date: September 23, 2023 - January 31, 2024.

Bag Limit: 5 birds daily.

15 in possession.

Option B

To be included into the general duck bag. If included in the general duck bag, the restriction on 2 hooded mergansers would apply.

STAFF RECOMMENDATIONS

Option A

Season Dates: To coincide with general duck season

Bag Limit: 5 birds daily, 15 in possession.

AMERICAN COOT

FEDERAL FRAMEWORK

Season Length: 60 hunting days

Outside Date: September 23, 2023 - January 31, 2024

Bag Limit: 15 birds daily (45 in possession)

STAFF RECOMMENDATIONS

Season Dates: To coincide with general duck season.

Bag Limit: 15 daily (45 in possession)

FACT SHEET - The Status of Resident Canada Geese - 2023

- The resident Canada goose population increased significantly in Virginia during the 1980's and 1990's, and peaked at 260,000 geese in the late 1990's. This population caused significant conflicts with human and wildlife populations, and management actions were taken to reduce their numbers. The current population estimate is 170,540 (+/- 44,340) in Virginia and over 1 million in the Atlantic Flyway.
- Special resident goose hunting seasons were initiated in 1993 to help manage this population and to provide recreational opportunities for hunters. These seasons occur prior to the arrival of most migrant geese (~Sept. 25 in Virginia), or in areas where there are fewer migrant geese. The Federal Framework allows Virginia to conduct a statewide September Resident Goose season from September 1-25.
- There are fewer migrant geese in the western portion of Virginia, and special "Goose Hunting Zones" have been established that allow more liberal seasons in areas with a greater percentage of resident geese.
- Special resident goose hunting seasons have been very popular, and have increased hunter participation and resident goose harvests. These seasons have been very effective in managing resident goose populations and helping to meet our statewide population objectives.
- In areas where hunting is not feasible, other options including special Depredation Orders for Airports, Agricultural areas, and Nest and Egg removal have been implemented to help manage resident goose conflicts.

Year	Population Estimate *	September Harvest
2022	170,540 +/-26%	n/a
2021	177,056 +/-29%	6,300
2020	163,198 +/- 24%	13,000
2019	125,966 +/-20%	6,300
2018	132,633 +/- 24%	5,600
2017	142,167 +/- 21%	5,500
2016	158,200 +/- 19%	900
2015	150,651 +/- 22%	6,100
2014	130,503 +/- 26%	7,500
2013	144,910 +/- 26%	10,700
2012	158,267 +/- 28%	9,700
2011	165,022 +/- 28%	14,700

^{*3-}year running average

SEPTEMBER CANADA GOOSE

FEDERAL FRAMEWORKS

OUTSIDE DATES: September 1 – September 25, 2023

BAG LIMIT: 15 daily, 45 in possession

SHOOTING HOURS: ½ hour before sunrise to sunset (except as

provided for in special hunting options *)

* SPECIAL HUNTING OPTIONS: Allows the use of electronic calls, unplugged shotguns and extended shooting hours (1/2 hr after sunset) when **no other** waterfowl seasons are open.

STAFF RECOMMENDATION

SEASON DATES: September 1 – September 25 (25 days)

BAG LIMIT: 10 daily, 30 in possession

HUNT AREA: Statewide

SHOOTING

HOURS: East of I-95

September 1 - 16: $\frac{1}{2}$ hr before sunrise to $\frac{1}{2}$ hr after sunset.

September 17 – 25: ½ hr before sunrise **to** sunset.

West of I-95

September 1– 20: ½ hr before sunrise to ½ hr after sunset.

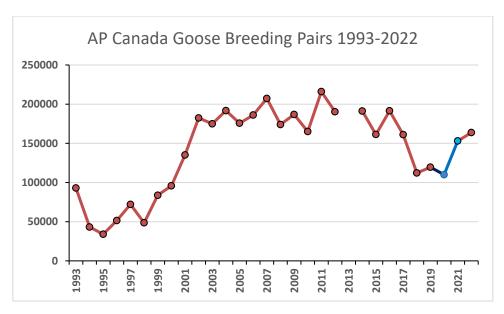

September 21 - 25: ½ hr before sunrise to sunset.

<u>NOTE</u>: Staff is not recommending the options of using electronic calls or unplugged shotguns for hunting geese in the September season.

FACT SHEET- History and Status of Migrant Canada Geese - 2022

- Migrant Canada geese from the Atlantic Population (AP) declined significantly from 1985-1995. The hunting season was closed in 1995 to allow the population to recover. Goose numbers rebounded quickly and a limited season (6 days with a 1-bird bag) was held in both 1999 and 2000. As the population increased, the season was extended to 30 days in 2001, then 45 days in 2002, and 50 days from 2012-2018.
- However, a series of poor reproductive years led to a gradual decline in this population from 2016-2019. The harvest regulations were restricted in 2019 to a 30-day season with a 1-goose/day bag limit. These restrictions were in effect from the 2019-20 through the 2022-23 seasons.
- Productivity has improved over the past several years and the estimated breeding population has increased. Although no breeding population survey (BPOP) was conducted in either 2020 or 2021 due to Coronavirus concerns, population models were used to estimate the breeding population size. The BPOP survey was reinitiated this summer and the population estimate was 163,7000 (see figure below). Based on this survey and the population model estimates, a liberal harvest regulation including a 45-day season with a 2-goose daily limit will be allowed for the 2023-2024 hunting season.

Figure 1. Atlantic Population Canada Goose Breeding Pair survey estimates 1993-2022. Blue dots/lines are population model estimates for surveys that were not conducted in 2020 and 2021.

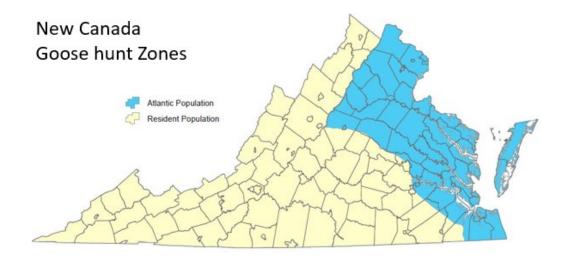

Change in Migrant Goose Hunt Zones

- There has been a change in how the Atlantic Flyway, the Mississippi Flyway and the U.S. Fish and Wildlife Service are defining and managing the different "Migrant" Canada goose populations in the Eastern United States. The Southern James Bay Population (SJBP) is no longer recognized as a separate population, and the eastern portion of this population is now considered part of the Atlantic Population (AP). The Atlantic Population along with the North Atlantic Population (NAP) are now the only recognized subpopulations of "migrant" Canada geese in the Atlantic Flyway. Nearly all the migrant geese that winter in Virginia are from the Atlantic Population, with only ~1% from the NAP.
- Due to this change, we have had to eliminate the SJBP Hunting Zone in Virginia. Some of this former zone (predominantly the northern portion) has been placed in the AP Zone, while the remainder of the area, where fewer migrant geese are located, has been included in the Resident Population Zone (RP).
- The hunting regulations for those areas that are now part of a different zone have changed significantly, so hunters need to make sure they are aware of the new zone boundaries. The description and map of these new Canada geese hunt zones is shown below.

THE SOUTHERN JAMES BAY POPULATION ZONE HAS BEEN ELIMINATED

Atlantic Population (AP) Hunt Zone – The area to the east of the following line: the "Blue Ridge" (Loudoun County-Clarke County border) at the West Virginia-Virginia Border, south to Interstate 64 (the Blue Ridge line follows county borders along the western edge of Loudoun-Fauquier-Rappahannock-Madison-Greene-Albemarle and into Nelson Counties), then east along Interstate Rt. 64 to Interstate 95 in Richmond, then south along I-95 to Route 460 in Petersburg, then southeast along Route 460 to Route 32 in the City of Suffolk, then south to the North Carolina border.

Resident Population (RP) Hunt Zone – The portion of the state west of the above AP Zone boundary.

CANADA GOOSE

FEDERAL FRAMEWORKS

ATLANTIC POPULATION ZONE (AP):

Season Length: 45 hunting days

Outside Dates:

Bag Limit:

November 15 – February 5

2 birds daily (6 in possession)

RESIDENT POPULATION ZONE (RP):

Outside Dates: November 15 – March 10

Season Length: 80 hunting days

Bag Limit: 5 birds daily (15 in possession)

NOTE – All seasons also include White-fronted geese along with Canada geese in the aggregate.

STAFF RECOMMENDATIONS

ATLANTIC POPULATION ZONE: (AP)

Season Dates: November 22 – November 26 (5 days)
December 23 – January 31 (40 days)

Bag Limit: 2 geese per day (6 in possession)

Shooting Hours: 1/2-hour before sunrise until sunset daily

RESIDENT POPULATION ZONE: (RP)

Season Dates: November 15 – November 26

December 19 - February 24

Bag Limit: 5 geese daily (15 in possession)

Shooting Hours: 1/2-hour before sunrise until sunset daily

NOTE – All seasons also include White-fronted geese along with Canada geese in the aggregate.

FACT SHEET - Status of Light Geese (Greater and Lesser Snow Geese, and Ross's Geese) - 2023

- The majority (95%) of the "Light" geese found in the Atlantic Flyway are Greater Snow Geese, while less than 5% are Lesser Snow Geese, with even smaller numbers of Ross's Geese.
- The principal nesting areas for greater snow geese are on Bylot, Axel Heiberg, Ellesmere, and Baffin Islands, and on Greenland. They winter along the Atlantic Coast from New Jersey to North Carolina.
- The Greater Snow Goose population is monitored on spring staging areas along the St. Lawrence Valley in Quebec. The 2022 population estimate was 753,000 geese.
- Banding crews at the major snow goose breeding colony on Bylot Island reported that spring condition and nest initiation were very late this year. In addition, nest predation by foxes was high due to low number of lemmings. Therefore, production is expected to be very poor this season and will likely result in a reduced fall flight.
- Over the last 30 years, snow goose populations increased nearly ten-fold. A shift from feeding almost exclusively in marshes to feeding more on agricultural grains has allowed them to expand their range and habitat use. This shift has also allowed them to return to their breeding habitats in better physical condition, which has led to increased productivity.
- This population has generally stabilized over the past 5 year, however concerns about habitat degradation on their breeding, migration and wintering areas still remain. Snow geese can cause damage to these habitats by pulling up plant roots and denuding marshes of vegetation. Snow geese can also cause conflicts with agricultural interest by pulling up green grains including wheat and barley.
- Current hunting regulations for snow geese are as liberal as Federal Frameworks will allow and include a 107-day season that runs from October to January, and a bag limit that was increased from 15 to 25 in 2010. Liberal seasons have helped increase the harvest, however, the population is still quite large.
- In addition to the regular hunting season, a Conservation Order (CO) was established in 2009 that authorizes additional snow goose hunting after the end of the regular season frameworks. The CO allows the use of alternative management strategies (unplugged shotguns, electronic calls, shooting to ½ hour after sunset, no daily bag limit) to further increase the harvest of snow geese. The snow goose harvest in Virginia has averaged around 300 birds during the regular season and 600 birds during the Conservation Order over the past 5 years.

LIGHT GOOSE SEASONS

REGULAR LIGHT GOOSE SEASON

FEDERAL FRAMEWORK

Season Length: 107 hunting days

October 1, 2023 - March 10, 2024

Split Season Option: 3-way split season

Bag Limit: 25 birds daily (no possession limit)

STAFF RECOMMENDATIONS

Season Dates: October 17 – January 31 (107 days)

Bag Limit: 25 birds daily (no possession limit)

LIGHT GOOSE CONSERVATION ORDER

FEDERAL FRAMEWORK

Outside Dates: When no other waterfowl seasons are open

Bag Limit: No daily or possession limit

Special Hunting Methods: Electronic calls, unplugged shotguns and extended

shooting hours to one-half hour after sunset only in areas and at times when other waterfowl seasons

are closed.

Special Requirements: States participating in the Conservation

Order are required to monitor hunter participation, effort, and success.

STAFF RECOMMENDATION

Conservation Order Zone: The same as the new AP Canada Goose Zone identified in blue on the map below - The area to the east of the following line: the "Blue Ridge" (Loudoun County-Clarke County border) at the West Virginia-Virginia Border, south to Interstate 64 (the Blue Ridge line follows county borders along the western edge of Loudoun-Fauquier-Rappahannock-Madison-Greene-Albemarle and into Nelson Counties), then east along Interstate Rt. 64 to Interstate 95 in Richmond, then south along I-95 to Route 460 in Petersburg, then southeast along Route 460 to Route 32 in the City of Suffolk, then south to the North Carolina border.

Season Dates: February 1, 2023 – April 5, 2024

Bag Limit: No daily or possession limit

Special Hunting Methods: Electronic calls, unplugged shotguns and extended

shooting hours to one-half hour after sunset.

Special Requirements: Hunters participating in the Conservation Order

must register with DWR, keep a record of their harvest

and participation, and return a harvest report form within two weeks following the close of the season.

FACT SHEET - Status of Atlantic Brant and Tundra Swan - 2023

- **BRANT.** The main breeding areas for Atlantic Brant are in the Eastern Canadian Arctic on Baffin, Southampton, and Ellesmere Islands. Most brant winter along the Atlantic Coast from MA to NC.
- The 2022 mid-winter survey count for brant was 109,000, considerably lower than the previous 5-year average (150,000). The Atlantic brant productivity estimated was 7.4%. this was down 34% from the 2021 estimate.
- The annual brant hunting regulation in now based on the Atlantic Brant Integrated Population Model (IPM) that was adopted by the Atlantic Flyway in 2021 and provides an index to the brant population. The model prediction for this year is 107,000 birds. As per the Brant Harvest Strategy, this estimate calls for a 2023-2024 harvest regulation of 30 days with a 1-bird daily limit. This is a restriction from the past several years when the harvest regulation was 50 days with a 2-bird daily limit.
- <u>TUNDRA SWANS</u>. The Eastern Population of tundra swans nest in arctic tundra areas from Alaska, east to Hudson Bay and Baffin Island. These birds winter in coastal areas from Maryland to North Carolina.
- Estimated productivity of eastern population tundra swans in 2021 was 9% immature birds. This estimate is higher than the 2020 estimate (8%) but 30% lower than the long-term average (12.9%).
- There were 95,000 eastern population tundra swans counted in the Atlantic Flyway on the 2022 Mid-Winter Survey. This count was 9% higher than last year, but still below the past 10-year average (2012-2021: 105,435)
- Nine states in the U.S. hunt tundra swans including Alaska, Utah, Montana and Nevada in the Pacific Flyway, North Dakota and South Dakota in the Central Flyway, and Delaware, Virginia and North Carolina in the Atlantic Flyway.
- There are no changes in the total number of hunting permits allowed for EP tundra swans this year (9,600 across the U.S., with 5,600 of those in the Atlantic Flyway) as the population estimate is still within the 70,000 to 110,000 range. In the Atlantic Flyway, the allocation of hunt permits is split between the 3 states in approximate proportion to the number of swans in each state. The 5,600 permits available in the Atlantic Flyway for the 2023-2024 season will be distributed as follows: NC-4,721, VA-532, and DE-347.
- The tundra swan hunting season in Virginia is authorized and conducted as specified in the Atlantic Flyway Tundra Swan Management Plan and Hunt Plan, with limits and guidelines as specified under an MOU with the U.S. Fish and Wildlife Service.

ATLANTIC BRANT

FEDERAL FRAMEWORK

Season Length: 30 hunting days

Outside Dates: September 23, 2023 - January 31, 2024

Split Season Option: 2-way split season

Bag Limit: 1 bird daily (3 in possession)

STAFF RECOMMENDATIONS

Season Dates: December 23 – December 31 (9 days)

January 11 – January 31 (21 days)

Bag Limit: 1 bird daily (3 in possession)

TUNDRA SWAN

FEDERAL FRAMEWORK

Season Length: 90 hunting days

October 1, 2023 - January 31, 2024

Virginia may issue up to <u>532 permits</u> and must obtain harvest and hunter participation data. Each permittee is authorized to take one (1)

tundra swan per season.

Bag Limit: One per permittee per season

STAFF RECOMMENDATIONS

Season Dates: November 15 - January 31

Bag Limit: One per permittee per season

Hunt Area: All counties and portions of counties east of U.S. Route I- 95 and south

of the Prince William/Stafford county line in Chopawamsic Creek at

Quantico Marine Corps Base.

NOTE: VDWR will issue no more than <u>532</u> swan-hunting permits to holders of a valid Virginia hunting license. Only hunters with a valid 2023-2024 tundra swan-hunting permit issued by VDWR shall be authorized to hunt tundra swans. Each permittee will be authorized to take one tundra swan during the season. Swan hunting permits are non-transferable and are valid for use only by the person to whom issued. Permits must be in the immediate possession of the permittee while swan hunting. Immediately at the time and place of kill, successful hunters must permanently record the month and day of kill on their permit and attach it to their swan. The VDWR is required to obtain hunter participation and harvest information to offer this Tundra Swan hunting season. **Hunters are** required to complete the tundra swan hunt questionnaire (survey) and submit their results to the **Department by February 15, 2024.** Those who fail to submit their results are ineligible for future drawings.

FALCONRY

FEDERAL FRAMEWORK

Season Length: No more than 107 on any species (Gun and Falconry combined)

Outside Dates: September 1 - March 10

Bag Limit: 3 daily (9 in possession)

Hawking Hours: ½ hour before sunrise until sunset.

STAFF RECOMMENDATIONS

Dove: September 2 – October 22

November 18 – November 26 December 22 – January 31

Rail, Gallinule, Moorhen: September 11 – December 26

Woodcock: October 17 – January 31

Snipe: September 25 – November 26

December 19 – January 31

Canada Goose: September 1 - September 25

November 15 – November 26 December 19 - February 24

September Teal: September 17 - September 30

Ducks, Mergansers, Coot: October 6 - 9

November 15 – February 9

Brant and Snow Goose: October 17 – January 31

NOTE: Recommended dates based on adoption of preceding gun season proposals; if amended, staff requests permission to calculate permissible dates for each species within the allowable federal framework.

VIRGINIA DEPARTMENT OF WILDLIFE RESOURCES

PRELIMINARY REGULATION RECOMMENDATIONS

Deer & Elk Regulations

4VAC15-90-10

Game: Deer: Open season; generally.

Summary:

The recommendation is to (i) add an early (September) antlerless-only firearms deer season on private lands in Carroll, Floyd, Montgomery, and Pulaski counties, (ii) add early and late (January through March) antlerless-only firearms deer seasons on private lands in Bedford and York counties, (iii) extend the general firearms deer season on private lands in Roanoke County from two to four weeks, (iv) simplify the provision for early and late antlerless-only firearms seasons in disease focus zones, and (v) provide for a 7-week general firearms deer season in cities and towns statewide.

Recommended language of amendment:

4VAC15-90-10. Open season; generally.

A. It shall be lawful to hunt deer in the following localities, including the cities and towns therein, during the following seasons, all dates inclusive.

Locality	Season		
Accomack County	Saturday prior to the third Monday in November through the first Saturday in January		
Albemarle County	Saturday prior to the third Monday in November through the first Saturday in January		
Alleghany County	Saturday prior to the third Monday in November and for 14 consecutive days following		
Amelia County	Saturday prior to the third Monday in November through the first Saturday in January		
Amherst County (west of Business U.S. 29 from the James River to its intersection with U.S. 29 just south of the Town of Amherst continuing north on U.S. 29 to the Tye River, except on national forest lands)	Saturday prior to the third Monday in November and for 28 consecutive days following		
Amherst County (national forest lands)	Saturday prior to the third Monday in November and for 14 consecutive days following		

Saturday prior to the third Monday in November through the first Saturday in Amherst County (east of Business U.S. 29, as defined above) January Saturday prior to the third Monday in November through the first Saturday in **Appomattox County** January Saturday prior to the third Monday in November through the first Saturday in **Arlington County** January First Saturday in September through the Friday prior to the first Saturday in October and the Sunday following the first Saturday in January through the last Arlington County (antlerless deer only) Sunday in March Saturday prior to the third Monday in November and for 14 consecutive days following Augusta County Saturday prior to the third Monday in November and for 14 consecutive days following Bath County Saturday prior to the third Monday in November and for 28 consecutive days Bedford County (except on national forest lands) following Saturday prior to the third Monday in November and for 14 consecutive days Bedford County (national forest lands) following First Saturday in September through the Friday prior to the first Saturday in October and the Sunday following the first Saturday in January through the last Bedford County (private lands and antlerless deer only) Sunday in March Saturday prior to the third Monday in November and for 14 consecutive days **Bland County** following Saturday prior to the third Monday in November and for 14 consecutive days following **Botetourt County** Saturday prior to the third Monday in November through the first Saturday in **Brunswick County** January

Saturday prior to the third Monday in November and for 14 consecutive days **Buchanan County** following Saturday prior to the third Monday in November through the first Saturday in **Buckingham County** January Saturday prior to the third Monday in November through the first Saturday in Campbell County January Saturday prior to the third Monday in November through the first Saturday in Caroline County January Saturday prior to the third Monday in November and for 28 consecutive days Carroll County (private lands) following Saturday prior to the third Monday in November and for 14 consecutive days following Carroll County (public lands) First Saturday in September through the Friday prior to the first Saturday in October and the Sunday following the first Saturday in January through the last Carroll County (private lands and antlerless deer Sunday in March only) First Saturday in September through the Friday prior to the first Saturday in October and the Sunday following the first Saturday in January through the last Carroll County (disease focus zones defined by the Sunday in March department, antlerless deer only) Saturday prior to the third Monday in November through the first Saturday in Charles City County January Saturday prior to the third Monday in November through the first Saturday in Charlotte County January Chesapeake (City of) October 1 through November 30 Saturday prior to the third Monday in November through the first Saturday in Chesterfield County January Saturday prior to the third Monday in November through the first Saturday in Clarke County January

First Saturday in September through the Friday prior to the first Saturday in October and the Sunday following the first Saturday in January through the last Sunday in March Clarke County (antlerless deer only) Saturday prior to the third Monday in November and for 14 consecutive days following Craig County Saturday prior to the third Monday in Culpeper County (except Chester F. Phelps November through the first Saturday in Wildlife Management Area) January Saturday prior to the third Monday in November and for 14 consecutive days Culpeper County (Chester F. Phelps Wildlife Management Area) following First Saturday in September through the Friday prior to the first Saturday in October and the Sunday following the first Saturday in January through the last Culpeper County (private lands and antlerless deer Sunday in March only) First Saturday in September through the Friday prior to the first Saturday in October and the Sunday following the first Saturday in January through the last Culpeper County (disease focus zones defined by Sunday in March the department, antlerless deer only) Saturday prior to the third Monday in November through the first Saturday in **Cumberland County** January Saturday prior to the third Monday in November and for 14 consecutive days following **Dickenson County** Saturday prior to the third Monday in November through the first Saturday in Dinwiddie County January Saturday prior to the third Monday in November through the first Saturday in January **Essex County** Saturday prior to the third Monday in November through the first Saturday in Fairfax County January

Friday prior to the first Saturday in October and the Sunday following the first Saturday in January through the last Sunday in March Fairfax County (antlerless deer only) Saturday prior to the third Monday in November through the first Saturday in Fauquier County (except Chester F. Phelps Wildlife Management Area) January Saturday prior to the third Monday in November and for 14 consecutive days Fauquier County (Chester F. Phelps Wildlife Management Area) following First Saturday in September through the Friday prior to the first Saturday in October and the Sunday following the first Saturday in January through the last Fauquier County (private lands and antlerless deer Sunday in March only) First Saturday in September through the Friday prior to the first Saturday in October and the Sunday following the Fauquier County (disease focus zones defined by first Saturday in January through the last the department, antlerless deer only) Sunday in March Saturday prior to the third Monday in November and for 28 consecutive days following Floyd County First Saturday in September through the Friday prior to the first Saturday in October and the Sunday following the first Saturday in January through the last Sunday in March Floyd County (antlerless deer only) First Saturday in September through the Friday prior to the first Saturday in October and the Sunday following the first Saturday in January through the last Floyd County (disease focus zones defined by the department, antlerless deer only) Sunday in March Saturday prior to the third Monday in November through the first Saturday in Fluvanna County January Saturday prior to the third Monday in November and for 28 consecutive days Franklin County following

York County (antlerless deer only)

Sunday in March

B. Except as provided in subsection A of this section, east of the Blue Ridge Mountains deer may be hunted from the Saturday prior to the third Monday in November through the first Saturday in January, both dates inclusive, within the incorporated limits of any city or town that allows deer hunting.

C. Except as provided in subsection A of this section, west of the Blue Ridge Mountains deer may be hunted from the Saturday prior to the third Monday in November and for 14 consecutive days following within the incorporated limits of any city or town that allows deer hunting.

C. In addition to provisions of subsection A of this section, antlerless deer may be taken from the first Saturday in September through the Friday prior to the first Saturday in October and the Sunday following the first Saturday in January through the last Sunday in March, both dates inclusive, within any disease focus zone designated by the department.

Rationale:

York County

(i) During the past hunting season, additional detections of Chronic Wasting Disease (CWD) were made in Floyd and Montgomery counties and CWD was detected for the first time in Pulaski County. With the continued spread of CWD within Disease Management Area (DMA) 3, additional antlerless harvest pressure is needed to reduce the deer population density and attempt to lower the risk for disease transmission among deer. The addition of the early antlerless-only firearms season will make seasons consistent with those in DMAs 1 and 2. In addition, the private land deer population indices in these four counties exceed population objectives in the Department's deer management plan.

- (ii) The private land deer population indices in Bedford and York counties have exceeded population objectives in the Department's deer management plan for a number of years, despite full-season, either-sex deer hunting seasons and earn a buck requirement. Both counties continue to experience human population growth and suburban/exurban development and a high number of associated human-deer conflicts, such as vehicle collisions and residential conflicts. The addition of early and late antlerless-only seasons is the next step to address deer populations in these counties.
- (iii) The private land deer population index in Roanoke County slightly exceeds the population objective in the Department's deer management plan, despite having full-season, either-sex deer hunting seasons and the earn a buck requirement for over a decade. The county continues to experience human population growth and suburban/exurban development and a high number of associated human-deer conflicts, such as vehicle collisions and residential conflicts. Providing two additional weeks of general firearms deer hunting is the next step to address deer populations in this county before considering early and/or late antlerless seasons. Unlike Roanoke County, Bedford County has had the four-week firearm season since 2019 and its population index remains much further above target than does Roanoke's.
- (iv) By adding a new subsection at the end of this regulation, this recommendation will maintain the authorization for the Department to create disease focus zones (DFZs), as needed, in current and future DMAs without having to reference them individually by county in regulation. DFZs, first provided for in this regulation in 2021, are defined in the DWR CWD Management Plan as a local expansion of antlerless hunting opportunities in a focused area around an outlier CWD detection, which is located more than 5 miles from the nearest detection. DFZs are defined using clear geographic boundaries and communicated before the hunting season through the annual hunting and trapping booklet and on the Department's website. The goals of expanded antlerless hunting opportunities in a DFZ are to slow disease transmission in the immediate vicinity of a detection and to increase testing opportunities for deer harvested in close proximity to an outlier CWD detection.
- (v) This recommendation will provide additional flexibility to cities and towns managing deer by creating a uniform general firearms season framework. This firearms season would overlap existing archery, firearms, and muzzleloader seasons that are currently available to cities and towns. This recommendation does not require that cities or towns allow firearms deer hunting; however, it does provide for that option if it would be advantageous for deer management efforts.

4VAC15-90-80

Game: Deer: Muzzleloading gun hunting.

Summary:

The recommendation is to provide for (i) full-season, either-sex deer hunting on private lands during both the early and late muzzleloading seasons in Smyth County; (ii) one additional day of either-sex deer hunting during the early muzzleloading season on private lands in Lee, Russell, Tazewell, and Wise counties; (iii) full-season, either-sex deer hunting on private lands during the late muzzleloading season in Craig, Giles, and Scott counties; and (iv) either-sex deer hunting during the last six days of the late muzzleloading season on private lands in Dickenson County.

Recommended language of amendment:

4VAC15-90-80. Muzzleloading gun hunting.

A. It shall be lawful to hunt deer during the early special muzzleloading season with muzzleloading guns from the Saturday prior to the first Monday in November through the Friday prior to the third Monday in November, both dates inclusive, in all cities, towns, and counties where deer hunting with a rifle or muzzleloading gun is permitted, except in the Cities of Chesapeake, Suffolk (east of the Dismal Swamp Line), and Virginia Beach.

- B. It shall be lawful to hunt deer during the late special muzzleloading season with muzzleloading guns starting 21 consecutive days immediately prior to and on the first Saturday in January:
 - 1. In all cities, towns, and counties west of the Blue Ridge Mountains (except Clarke County and on non-national forest lands in Frederick County);
 - 2. East of the Blue Ridge Mountains in the Counties (including the cities and towns within) of Amherst (west of Business U.S. 29 from the James River to its intersection with U.S. 29 just south of the Town of Amherst continuing north on U.S. 29 to the Tye River), Bedford, Franklin, Henry, Nelson (west of Route 151), and Patrick;
 - 3. On national forest lands in Frederick County; and
 - 4. In the Cities of Chesapeake, Suffolk (east of the Dismal Swamp Line), and Virginia Beach.
- C. Deer of either sex may be taken during the entire early special muzzleloading season east of the Blue Ridge Mountains unless otherwise noted in this subsection:
 - 1. Deer of either sex may be taken on the second Saturday only of the early special muzzleloading season on state forest lands, state park lands (except Occoneechee State Park), department-owned lands (except on Merrimac Farm Wildlife Management Area), and Philpott Reservoir.
 - 2. Antlered bucks only—no either-sex deer hunting days during the early special muzzleloading season on national forest lands in Amherst, Bedford, and Nelson Counties.

- D. Deer of either sex may be taken on the second Saturday only during the early special muzzleloading season west of the Blue Ridge Mountains unless otherwise noted in this subsection.
 - 1. Deer of either sex may be taken during the entire early special muzzleloading season in Clarke and Floyd Counties and on private lands in Augusta, Botetourt, Carroll, Frederick, Grayson, Montgomery, Page, Pulaski, Roanoke, Rockingham (east of Routes 613 and 731), Scott, Smyth, Shenandoah, Warren, and Wythe Counties.
 - 2. Antlered bucks only—no either-sex deer hunting days during the early special muzzleloading season in Buchanan County; on federal and department-managed lands in Dickenson County; Lee, Russell, Tazewell, and Wise Counties and on department-owned lands in Russell County; on national forest lands in Alleghany, Bland, Craig, Frederick, Giles, Grayson, Lee, Montgomery, Page, Pulaski, Rockingham, Scott, Shenandoah, and Warren, and Wise Counties; and on national forest and department-owned lands in Augusta, Bath, Botetourt, Carroll, Highland (except Highland Wildlife Management Area), Roanoke, Rockbridge, Smyth, Tazewell, Washington, and Wythe Counties and on Channels State Forest, Grayson Highlands State Park, Hungry Mother State Park, and on private lands west of Routes 613 and 731 in Rockingham County.
- E. Deer of either sex may be taken during the last six days of the late special muzzleloading season unless otherwise listed in this subsection:
 - 1. Deer of either sex may be taken full season during the entire late special muzzleloading season in the Counties (including the cities and towns within) of Amherst (west of Business U.S. 29 from the James River to its intersection with U.S. 29 just south of the Town of Amherst continuing north on U.S. 29 to the Tye River, except on national forest lands), Bedford (except on national forest lands), Floyd, Franklin, Henry, Nelson (west of Route 151, except on national forest lands), and Patrick and on private lands in Augusta, Botetourt, Carroll, Craig, Giles, Grayson, Montgomery, Page, Pulaski, Roanoke, Rockingham (east of Routes 613 and 731), Scott, Smyth, Shenandoah, Warren, and Wythe Counties.
 - 2. Deer of either sex may be taken the last day only during the late special muzzleloading season in Alleghany, Bath, Dickenson, Highland, Lee, Russell, Tazewell, and Wise Counties and on national forest lands in Amherst, Bedford, Bland, Craig, Frederick, Giles, Grayson, Montgomery, Nelson, Page, Pulaski, Rockingham, Scott, Shenandoah, and Warren Counties, and on national forest and department-owned lands in Augusta, Botetourt, Carroll, Roanoke, Rockbridge, Smyth, Washington, and Wythe Counties and on private lands west of Routes 613 and 731 in Rockingham County, Channels State Forest, Grayson Highlands State Park, and Hungry Mother State Park.
 - 3. Antlered bucks only—no either-sex deer hunting days during the late special muzzleloading season in Buchanan County.
- F. Deer of either sex may be taken full season during the special muzzleloading seasons within the incorporated limits of any city or town in the Commonwealth that allows deer hunting except in the Cities of Chesapeake, Suffolk, and Virginia Beach.

- G. It shall be unlawful to hunt deer with dogs during any special season for hunting with muzzleloading guns, except that tracking dogs as described in § 29.1-516.1 of the Code of Virginia may be used.
- H. Muzzleloading guns, for the purpose of this section, include:
 - 1. Single shot muzzleloading rifles.40 caliber or larger, firing a single projectile or sabot (with a.35 caliber or larger projectile) where the projectile is loaded from the muzzle;
 - 2. Muzzleloading shotguns (one or more barrels) not larger than 10 gauge where the projectiles are loaded from the muzzle;
 - 3. Muzzleloading pistols (one or more barrels).45 caliber or larger, firing a single projectile or sabot (with a.35 caliber or larger projectile) per barrel where the propellant and projectile are loaded from the muzzle;
 - 4. Muzzleloading revolvers.45 caliber or larger, firing a single projectile or sabot (with a.35 caliber or larger projectile) per cylinder where the propellant and projectile are loaded from the forward end of the cylinder.
- I. It shall be unlawful to have in immediate possession any firearm other than a muzzleloading gun while hunting with a muzzleloading gun in a special muzzleloading season.

Rationale:

- (i) The private land deer population in Smyth County is currently above the desired deer population management objective in the Department's deer management plan. Providing additional either-sex deer hunting days during both the early and late muzzleloader seasons should assist in bringing the deer population back down to its desired level.
- (ii) Although private land deer populations in Lee, Russell, Tazewell, and Wise are currently meeting objectives in the Department's deer management plan, they can support an incremental increase in antlerless harvest, which will also provide additional recreational opportunity. In addition, the Lee County Farm Bureau has requested additional eithersex hunting opportunities to address damage concerns. Because the deer population trend in Lee County is stable to slightly decreasing, it is deemed more appropriate to add either-sex days during a muzzleloader season than during the general firearms season.
- (iii) The private land deer populations in Craig, Giles, and Scott counties are currently above the desired deer population management objective in the Department's deer management plan. The addition of these additional either-sex deer hunting days during the late muzzleloader season should assist in bringing the deer population back down to its desired level. Moreover, adding antlerless deer harvest opportunities in Craig and Giles counties is a proactive step with regards to chronic wasting disease in adjacent counties.
- (iv) Although the private land deer population in Dickenson County is currently meeting the objective in the Department's deer management plan, continued increases in the population trend and complaints regarding deer damage necessitate an incremental increase in antlerless harvest, which will also provide additional recreational opportunity.

4VAC15-90-89

Game: Deer: Earn a buck.

Summary:

The recommendation is to (i) add private lands in Augusta, Botetourt, and Page counties to the earn a buck regulation and (ii) establish a single requirement for all counties in earn a buck regarding the number of antlerless deer (one) that must have been taken before a hunter can take their second antlered deer of the season.

Recommended language of amendment:

4VAC15-90-89. Earn a buck.

A. For the purposes of this section, the term "license year" means the period between July 1 and June 30 of the following year.

B. Within a license year and within in each individual county listed in this subsection, a hunter must have taken at least one antlerless deer on private lands in that county before taking a second antlered deer on private lands in that county. In those counties listed in this subsection east of the Blue Ridge Mountains, a hunter must have taken at least two antlerless deer on private lands in that county before taking a third antlered deer on private lands in that county.

The counties subject to the provisions of this subsection are Accomack, Albemarle, Amherst (west of Route 29), <u>Augusta</u>, Bedford, <u>Botetourt</u>, Carroll, Clarke, Culpeper, Fauquier, Floyd, Franklin, Frederick, Grayson, Greene, Hanover, Henrico, <u>James City</u>, Madison, Montgomery, Orange, <u>Page</u>, Prince George, Pulaski, Rappahannock, Roanoke, Rockingham (east of Routes 613 and 731), Shenandoah, Stafford, Warren, <u>and</u>-Wythe, <u>and York</u>.

C. Within a license year and within in each individual county listed in this subsection, a hunter must have taken at least two antlerless deer on private lands in that county before taking a second antlered deer on private lands in that county. A hunter also must have taken at least three antlerless deer on private lands in that county before taking a third antlered deer on private lands in that county.

The counties subject to the provisions of this subsection are James City and York.

D.C. Within a license year and within each individual county listed in this subsection, a hunter must have taken at least two one antlerless deer in that county before taking a second antlered deer in that county. A hunter must also have taken at least three two antlerless deer in that county before taking a third antlered deer in that county.

The counties subject to the provisions of this subsection are Arlington, Fairfax, Loudoun, and Prince William (except on Department of Defense lands).

E.D. Within a license year and within any city or town, except the cities of Chesapeake, Suffolk, and Virginia Beach, a hunter must have taken at least one antlerless deer in that city or town

before taking a second antlered deer in that city or town. In those cities and towns east of the Blue Ridge Mountains, a hunter must have taken at least two antlerless deer in that city or town before taking a third antlered deer in that city or town.

F.E. The Earn A Buck Program does not apply to the Cities of Chesapeake, Suffolk, and Virginia Beach.

Rationale:

- (i) Private land deer population indices for Augusta, Botetourt, and Page counties have exceeded population objectives in the Department's deer management plan despite having full-season, either-sex firearms regulations already in place. Adding the earn a buck requirement is the next step to increase the harvest of antlerless deer. In addition, establishing earn a buck in Page County will make it consistent with all the other counties in Disease Management Area 2 (DMA2).
- (ii) The earn a buck requirement has resulted in increased antlerless harvest and reductions in deer populations in most areas where it has been in effect. However, there has been little to no measurable difference in deer harvest or population impacts in counties having the requirement that two antlerless deer (i.e., Arlington, Fairfax, James City, Loudoun, Prince William, and York) vs. one antlerless deer (i.e., 27 other counties) must have been taken before a hunter can take their second antlered deer of the season. This recommendation would simplify and standardize this provision of the earn a buck regulation, requiring hunters in any locality with earn a buck to harvest only one antlerless deer prior to harvesting a second antlered deer.

4VAC15-90-90

Game: Deer: Bag limit, bonus deer permits and special antlerless provision for youth hunters.

Summary:

The recommendation is to remove the antler point restriction from Augusta County.

Recommended language of amendment:

4VAC15-90-90. Bag limit, bonus deer permits and special antlerless provision for youth hunters.

A. The bag limit for deer east of the Blue Ridge Mountains (except on national forest lands in Amherst, Bedford, and Nelson Counties) is two per day, six per license year, three of which must be antlerless unless otherwise noted in this subsection.

- 1. The daily bag limit for deer is unlimited in the Counties, including the cities and towns within, of Arlington, Fairfax, Loudoun, and Prince William and in all the cities and towns that allow deer hunting (except in the Cities of Chesapeake, Suffolk, and Virginia Beach).
- 2. Only one deer per day may be taken on national forest, department-owned, and department-managed lands.
- 3. Only one elk per day may be taken.
- B. The bag limit for deer west of the Blue Ridge Mountains and on national forest lands in Amherst, Bedford, and Nelson Counties is two per day, five per license year, three of which must be antlerless unless otherwise noted in this subsection.
 - 1. The daily bag limit for deer is unlimited in all the cities and towns that allow deer hunting.
 - 2. Only one deer per day may be taken on national forest, department-owned, and department-managed lands.
 - 3. If a deer hunter kills two antlered bucks in a license year in Alleghany, Augusta, Bath, Highland, or Rockbridge County, at least one of the antlered bucks must have at least four antler points, one inch or longer, on one side of the antlers. This subdivision shall not apply to any county designated by the department within 25 miles of a confirmed detection of Chronic Wasting Disease.
 - 4. Only one elk per day may be taken.
- C. Except as noted in subsection E of this section, antlerless deer may be taken only during designated either-sex deer hunting days during the special archery seasons, special muzzleloading seasons, and the general firearms season.

D. Bonus deer permits shall be valid on private land in counties and cities where deer hunting is permitted (except Buchanan, Dickenson, and Wise Counties) during the special archery seasons, special muzzleloading seasons, and the general firearms season. Bonus deer permits shall be valid on public lands, including state parks, state forests, national wildlife refuges, military areas, etc., as authorized by the managing agency. Unless otherwise posted or authorized in writing for wildlife management areas by the department, or for national forest lands by the U.S. Forest Service, the use of bonus permits is prohibited on department-owned and national forest lands. Bonus deer permits shall be valid for antlerless deer only. Deer taken on bonus permits shall count against the daily bag limit but are in addition to the seasonal bag limit.

E. Deer hunters 15 years of age and younger, including those exempt from purchasing a hunting license and holders of an apprentice hunting license, when in compliance with all applicable laws and license requirements, may take one antlerless deer per license year on days other than designated either-sex deer hunting days during the special muzzleloading seasons or the general firearms season in all counties.

Rationale:

Chronic Wasting Disease (CWD) was detected in Madison County within 25 miles of Augusta County during fall 2022. As noted in subsection B.3 of this regulation, the antler point restriction "shall not apply to any county designated by the department within 25 miles of a confirmed detection of Chronic Wasting Disease." This 25-mile provision was adopted by the Board in 2019 to proactively reduce disease risks within a reasonable distance from known CWD positives. Data from across the eastern US clearly shows that CWD infection rates are the highest in older male age classes. Because antler point restrictions are designed to protect young antlered bucks and make the buck age structure older, maintaining antler point restrictions can amplify CWD transmission risks and be counter productive to controlling the spread of CWD across the landscape.

4VAC15-90-91

Game: Deer: General firearms season either-sex deer hunting days.

Summary:

The recommendation is to change the general firearms either-sex deer hunting days for the counties/areas shown in the table below:

City/County/WMA	Change	Current	Recommended
Bland	Increase	2	3
Chesapeake	Increase	15	Full season
Chesterfield	Increase	15	Full season
Gloucester	Increase	8	15
King George	Increase	15	31
Lancaster	Increase	15	31
Northumberland	Increase	15	31
Nottoway	Increase	8	15
Richmond	Increase	15	31
Suffolk (east of the Dismal Swamp line)	Increase	15	Full season
Virginia Beach	Increase	15	Full season
Westmoreland	Increase	15	31
Public Land			
Bland (National forests)	Increase	2	3
Craig (National forests and Department-owned lands)	Increase	2	3
Giles (National forests)	Increase	2	3
Nelson (Tye River WMA)	New	NA	7
Sussex (Big Woods and Flippo-Gentry WMAs, Big Woods State Forest)	Increase	8	Full season
Wythe (National forests and Department-owned lands)	Increase	2	3

Recommended language of amendment:

4VAC15-90-91. General firearms season either-sex deer hunting days.

A. During the general firearms deer season, deer of either sex may be taken within:

Accomack County: full season.

Albemarle County: full season.

Alleghany County: the second Saturday and the last day.

-National forest lands: the last day.

Amelia County: the second and third Saturdays and the last 13 days.

-Amelia WMA: the second and third Saturdays and the last six days.

Amherst County (east of Business U.S. 29 from the James River to its intersection with U.S. 29 just south of the Town of Amherst continuing north on U.S. 29 to the Tye River): the second and third Saturdays and the last 29 days.

Amherst County (west of Business U.S. 29 from the James River to its intersection with U.S. 29 just south of the Town of Amherst continuing north on U.S. 29 to the Tye River): full season.

-National forest lands: the last day.

Appomattox County: the second and third Saturdays and the last six days.

-Appomattox-Buckingham State Forest: the second and third Saturdays.

-Featherfin WMA: the second and third Saturdays and the last 29 days.

Arlington County: full season.

Augusta County: full season.

-National forest and department-owned lands: the last day.

Bath County: the second Saturday and the last day.

-National forest and department-owned lands: the last day.

Bedford County: full season.

-National forest lands: the last day.

Bland County: the second Saturday and the last <u>two</u> days.

-National forest lands: the second Saturday and the last two days.

Botetourt County: full season.

-National forest and department-owned lands: the last day.

Brunswick County: the second and third Saturdays and the last six days.

Buchanan County: antlered bucks only—no either-sex days. Only deer with antlers above the hairline may be taken.

Buckingham County: the second and third Saturdays and the last six days.

-Horsepen Lake WMA: the second and third Saturdays and the last six days.

-Appomattox-Buckingham State Forest: the second and third Saturdays.

-Featherfin WMA: the second and third Saturdays and the last 29 days.

Campbell County (east of Norfolk Southern Railroad): the second and third Saturdays and the last 29 days.

Campbell County (west of Norfolk Southern Railroad): full season.

Caroline County: the second and third Saturdays and the last six days.

-Mattaponi WMA: the second and third Saturdays and the last six days.

Carroll County: full season.

-National forest and department-owned lands: the second Saturday and the last day.

Charles City County: full season.

-Chickahominy WMA: antlered bucks only—no either-sex days. Only deer with antlers above the hairline may be taken.

Charlotte County: the second and third Saturdays and the last six days.

Chesapeake (City of): the second and third Saturdays and the last 13 days full season.

-Cavalier WMA: the second and third Saturdays and the last 13 days.

Chesterfield County: the second and third Saturdays and the last 13 days full season.

Clarke County: full season.

Craig County: full season.

-National forest and department-owned lands: the second Saturday and the last two days.

Culpeper County: full season.

-Chester F. Phelps WMA: the second Saturday.

Cumberland County: the second and third Saturdays and the last 13 days.

-Cumberland State Forest: the second and third Saturdays.

Dickenson County: antlered bucks only—no either-sex days. Only deer with antlers above the hairline may be taken.

Dinwiddie County: the second and third Saturdays and the last six days.

Essex County: the second and third Saturdays and the last six days.

Fairfax County: full season.

Fauquier County: full season.

-G. Richard Thompson WMA: the second and third Saturdays and the last 13 days.

-Chester F. Phelps WMA: the second Saturday.

Floyd County: full season.

Fluvanna County: second and third Saturdays and the last 29 days.

-Hardware River WMA: the second and third Saturdays and the last 13 days.

Franklin County: full season.

-Philpott Reservoir: the second Saturday and the last six days.

-Turkeycock Mountain WMA: the second Saturday and the last six days.

Frederick County: full season.

-National forest lands: the last day.

Giles County: full season.

-National forest lands: the second Saturday and the last two days.

Gloucester County: the second and third Saturdays and the last six13 days.

Goochland County: full season.

Grayson County: full season.

-National forest lands and Grayson Highlands State Park: the last day.

Greene County: full season.

Greensville County: the second and third Saturdays and the last six days.

Halifax County: the second and third Saturdays and the last 13 days.

Hanover County: full season.

Henrico County: full season.

Henry County: the second and third Saturdays and the last 13 days.

-Fairystone Farms WMA, Fairystone State Park, and Philpott Reservoir: the second Saturday and the last six days.

-Turkeycock Mountain WMA: the second Saturday and the last six days.

Highland County: the second Saturday and the last day.

-National forest lands: the last day.

-Department-owned lands: the second Saturday and the last day.

Isle of Wight County: full season.

-Ragged Island WMA: antlered bucks only—no either-sex days. Only deer with antlers above the hairline may be taken.

James City County: full season.

King and Queen County: the second and third Saturdays and the last 13 days.

King George County: the second and third Saturdays and the last 1329 days.

King William County: the second and third Saturdays and the last 13 days.

Lancaster County: the second and third Saturdays and the last <u>1329</u> days.

Lee County: the second Saturday and the last two days.

-National forest lands: antlered bucks only—no either-sex days. Only deer with antlers above the hairline may be taken.

Loudoun County: full season.

Louisa County: the second and third Saturdays and the last 29 days.

Lunenburg County: the second and third Saturdays and the last six days.

Madison County: full season.

-Rapidan WMA: the second and third Saturdays and the last 13 days.

Mathews County: the second and third Saturdays and the last six days.

Mecklenburg County: the second and third Saturdays and the last six days.

-Dick Cross WMA: the second and third Saturdays and the last six days.

Middlesex County: the second and third Saturdays and the last six days.

Montgomery County: full season.

-National forest lands: the second Saturday and the last day.

Nelson County (east of Route 151): the second and third Saturdays and the last 29 days.

-James River WMA and Tye River WMA: the second Saturday and the last six days.

Nelson County (west of Route 151): full season.

-National forest lands: the last day.

New Kent County: full season.

Northampton County: full season.

Northumberland County: the second and third Saturdays and the last <u>1329</u> days.

Nottoway County: the second and third Saturdays and the last six13 days.

Orange County: full season.

Page County: full season.

-National forest lands: the last day.

Patrick County: the second and third Saturdays and the last 13 days.

-Fairystone Farms WMA, Fairystone State Park, and Philpott Reservoir: the second Saturday and the last six days.

Pittsylvania County (east of Norfolk Southern Railroad): the second and third Saturdays and the last 29 days.

-White Oak Mountain WMA: the second Saturday and the last three days.

Pittsylvania County (west of Norfolk Southern Railroad): full season.

Powhatan County: full season.

-Powhatan WMA: the second and third Saturdays and the last 13 days.

Prince Edward County: the second and third Saturdays and the last six days.

-Briery Creek WMA: the second and third Saturdays and the last six days.

-Featherfin WMA: the second and third Saturdays and the last 29 days.

-Prince Edward State Forest: the second and third Saturdays.

Prince George County: full season.

Prince William County: full season.

Pulaski County: full season.

-National forest lands: the second Saturday and the last day.

Rappahannock County: full season.

Richmond County: the second and third Saturdays and the last 1329 days.

Roanoke County: full season.

-National forest and department-owned lands: the last day.

Rockbridge County: the second Saturday and the last two days.

-National forest and department-owned lands: the last day.

Rockingham County: full season.

-National forest lands: the last day.

-Private lands west of Routes 613 and 731: the second Saturday and the last day.

Russell County: the second Saturday and the last two days.

-Department-owned lands and the Channels State Forest: the last day.

Scott County: the second Saturday and the last six days.

-National forest lands: antlered bucks only—no either-sex days. Only deer with antlers above the hairline may be taken.

Shenandoah County: full season.

-National forest lands: the last day.

Smyth County: full season.

-National forest lands, department-owned lands, and Hungry Mother State Park: the last day.

Southampton County: full season.

Spotsylvania County: full season.

-Oakley Forest WMA: the second and third Saturdays and the last 13 days.

Stafford County: full season.

Suffolk (east of the Dismal Swamp Line): the second and third Saturdays and the last 13 days.

Suffolk (west of the Dismal Swamp Line): full season.

Surry County: full season.

-Carlisle and Stewart Tracts of the Hog Island WMA: antlered bucks only—no either-sex days. Only deer with antlers above the hairline may be taken.

Sussex County: full season.

-Big Woods WMA (including the Parkers Branch Tract), Flippo-Gentry WMA, and Big Woods State Forest: the second and third Saturdays and the last six days full season.

Tazewell County: the second Saturday and the last two days.

-National forest and department-owned lands: the last day.

Virginia Beach (City of): the second and third Saturdays and the last 13 days full season.

Warren County: full season.

-National forest lands: the last day.

Washington County: the second Saturday and the last six days.

-National forest lands, department-owned lands, and the Channels State Forest: the last day.

Westmoreland County: the second and third Saturdays and the last 1329 days.

Wise County: antlered bucks only—no either-sex days. Only deer with antlers above the hairline may be taken.

Wythe County: full season.

-National forest and department-owned lands: the second Saturday and the last two days.

York County: full season.

B. Except as provided in the subsection A of this section, deer of either sex may be taken full season during the general firearms deer season within the incorporated limits of any city or town, state park, national wildlife refuge, or military installation that allows deer hunting or within any common interest community participating in the special urban archery season according to provisions of 4VAC15-90-70.

Rationale:

Private lands

<u>Bland.</u> The private land deer population index is currently above the desired deer population objective in the Department's deer management plan. Providing an additional either-sex deer hunting day should assist in bringing the deer population back down to the desired level.

<u>Chesapeake, Suffolk (east of the Dismal Swamp line), and Virginia Beach.</u> The recommended increase in firearms either-sex deer hunting days in these cities is a proactive change to address continued human population growth, urban/suburban development, and agricultural damage from deer. The private land deer population indices for these cities are currently within the deer population objective brackets; however, local staffs believe that additional either-sex deer hunting opportunities can and should be provided at this time.

<u>Chesterfield</u>. Chesterfield County has exhibited one of the fastest rates of human population growth and suburban development of any county in Virginia and consistently has one of the highest levels of human-deer conflicts reported through the Department's Wildlife Conflict Helpline. The county's private land deer population index has increased significantly over the last five years and has exceeded the deer population objective. Staff recommends increasing either-sex deer hunting days to prevent further growth in the deer population.

Gloucester. The recommended increase in firearms either-sex deer hunting days in Gloucester County is a proactive change to address continued human population growth, urban/suburban development, and agricultural damage from deer. The private land deer population index for this

county is currently within the deer population objective bracket; however, local staffs believe that additional either-sex deer hunting opportunities can and should be provided at this time.

King George, Lancaster, Northumberland, Richmond, Westmoreland. The recommended increase in firearms either-sex deer hunting days in these counties is a proactive change to address continued human population growth, urban/suburban development, and agricultural damage from deer while providing for geographic consistency in deer hunting regulations on the Northern Neck. The private land deer population indices for these counties are currently within or borderline above (Lancaster) - the deer population objective brackets; however, local staffs believe that additional either-sex deer hunting opportunities can and should be provided at this time.

<u>Nottoway</u>. The private land deer population index exceeds the desired deer population management objective in the Department's deer management plan. Providing additional eithersex deer hunting days should assist in bringing the deer population back down to the desired level.

Public lands

<u>Bland, Craig, Giles, Wythe.</u> The addition of an either-sex firearms deer hunting day on National Forest and department-owned lands in these counties can assist with meeting deer population objectives on adjacent private lands while increasing recreational opportunities for public land hunters.

<u>Nelson</u>. Staff recommends providing the same either-sex firearms deer hunting days on the new Tye River WMA as has been provided on the James River WMA.

<u>Sussex</u>. Local staffs recommend increasing either-sex firearms deer hunting days on Big Woods WMA, Flippo-Gentry WMA (formerly Parkers Branch Tract of Big Woods WMA), and Big Woods State Forest to distribute hunting pressure and reduce the potential for hunter conflicts. The more conservative either-sex day format in recent years appeared to concentrate deer hunting pressure and harvest rather than reducing it.

4VAC15-90-530

Game: Deer: Special elk hunting license, random drawing license program.

Summary:

The recommendation is to omit the specific dates for deadlines associated with the elk lottery.

Recommended language of amendment:

4 VAC 15-90-530. Special elk hunting license, random drawing license program.

A. The dates for the annual application period to enter the random drawing for a special elk hunting license shall be February 1 to March 30, both dates inclusive, unless extended by the director published by the department annually and shall be no less than 30 days in duration. Individuals selected for special elk hunting licenses via the random drawing will shall be notified by May 30 no less than 60 days prior to the start of the elk hunt, and special elk hunting licenses must be purchased from the department within 30 days of notification.

- B. To enter the random drawing for a special elk hunting license, applicants shall
 - 1. Complete the application for a special elk hunting license as provided by the department.
 - 2. Pay a nonrefundable application fee.
 - 3. Apply only once for each random drawing.
- C. Nonresidents shall not comprise more than 10%, or one drawn applicant, whichever is greater, of all drawn applicants in any application pool for the random drawing license program.
- D. Applicants who physically reside within the Elk Management Zone shall comprise no less than 10%, or a minimum of one, whichever is greater, of all drawn applicants in any application pool for the random drawing license program.
- E. A special elk hunting license awarded through the Random Drawing License Program shall not be transferable.
- F. An applicant drawn for a special elk hunting license may be rejected if it is determined that the applicant has been convicted of two or more wildlife violations within three years prior to the last date of the application period. In determining an applicant's eligibility, the director shall take into account the nature and severity of the violations.
- G. The department will award unclaimed special elk hunting licenses to alternates who are drawn during the initial application and draw period in the order that the alternates are drawn.

Rationale:

Deadlines were omitted to allow the department more flexibility in refining the overall elk hunting lottery timeline. It is customary for such operational details to be decided on and carried

out by the Department, rather than being defined in the authorizing regulation itself. Adequate time is needed for the department to incorporate the results of annual elk population surveys (typically conducted in late winter and overlapping the currently specified lottery dates) into the annual elk license allocation process. Further, the department is currently contracting with Virginia Tech researchers to test elk population survey techniques and methods. Final research results should be reported in 2024, and flexibility in setting the elk lottery dates for 2024 would allow the department to implement an elk lottery timeline that aligns with the research findings. Aligning the Department's elk hunt lottery timeline with the Virginia Tech research results and data collected from annual elk population surveys will ensure that the number of allotted elk licenses are maximized each year. The Department will publicize the deadlines associated with the lottery on an annual basis as far in advance as possible. Minimum durations for the application period and notification process are included to provide assurance that adequate time will be provided for hunters to apply for the lottery and, if selected, prepare for the hunt.

4VAC15-90-540

Game: Deer: Special elk hunting license, Landowner License Program.

Summary:

The recommendation is to (i) remove the specific program deadlines; (ii) omit the 50 contiguous acre requirement, (iii) specify that applications will be evaluated based on criteria listed in the program guidance document; and (iv) replace the provision for requesting an either-sex special elk hunting license with a provision for landowners entering a landowner lottery for a special elk hunting license.

Recommended language of amendment:

4VAC15-90-540. Special elk hunting license, Landowner License Program.

A. Upon receipt of a valid Landowner License Program application from a landowner within the Elk Management Zone, the director or the director's designee shall verify the application materials and have sole discretion in enrolling the property in the Landowner License Program. Applications must be received or postmarked by July 1 each year to be eligible for the Landowner License Program during that calendar year. The application deadline shall be published by the department annually no less than 30 days prior to the deadline.

- B. A valid Landowner License Program application shall include:
 - 1. Landowner's name, home address, telephone number, and address of the property to be enrolled in the program.
 - 2. A recorded survey or other legal documentation certifying the acreage and ownership of that the property to be enrolled is greater than or equal to 50 contiguous acres.
 - 3. Original signature of the landowner.
 - 4. Only a single application per license year, per landowner.
- C. Landowners enrolled in the Landowner License Program maintain the right to limit access to certain areas of the property for safety or privacy reasons, provided a minimum of 50 acres are open to elk hunting. Areas of limited access must be outlined in the initial application. Enrollment in the Landowner License Program does not preclude or limit in any way the landowner from allowing other hunting or other hunters on the property.
- D. The department shall determine and make available to the public a program guidance document outlining how landowners enrolled in the Landowner License Program shall accrue points toward a special elk hunting license, the number of points necessary to be awarded such license, a list of criteria by which applications and associated properties will be evaluated for enrollment in the program, and other program requirements. The program guidance document will be published annually no less than 30 days prior to June 1 the application deadline.
- E. Landowners who accrue the necessary number of points, as defined in the program guidance document, on an enrolled property may enter a landowner lottery for a special elk hunting

<u>license</u>. request one either-sex special elk hunting license from the department. A request for a special elk hunting license must be submitted prior to July 1 in the year the license is to be used. Once a request for a special elk hunting license is <u>awarded through the lottery</u>, <u>made</u>, <u>the</u> landowners loses all accrued points. There is no time limit over which a landowner is required to accrue license points. Landowners shall not combine points from separate enrolled properties.

- F. Landowners enrolled in the Landowner License Program shall not subdivide contiguous properties under the same ownership into multiple, smaller parcels for the purposes of this program.
- G. License points cannot be sold or traded. License points are nontransferable if the property changes ownership, except that if the property is inherited from parents, grandparents, or children, resident or nonresident, license points may be transferred. The department may request documentation to certify the relationship between seller and purchaser as well as a copy of bill of sale.
- H. Landowners receiving a special elk hunting license shall comply with all of the requirements established in this section as well as 4VAC15-90-510, 4VAC15-90-520, and § 29.1-305.01 of the Code of Virginia. Landowners who fail to comply with this chapter may forfeit any accrued license points and may not be eligible to accrue new license points.
- I. A special elk hunting license awarded to the landowner shall only be used on the property enrolled with the department in the Landowner License Program.
- J. A landowner may transfer the special elk hunting license to any person eligible to hunt in Virginia. The special elk hunting license may not be sold. Transfer of the special elk hunting license must be reported to the department no less than one month prior to the opening day of the elk hunting season during the year in which the special elk hunting license is requested awarded. To report a transfer to the department, the landowner shall provide the department with the hunter's:
 - 1. Name:
 - 2. Department customer identification number;
 - 3. Address; and
 - 4. Telephone number.
- K. A landowner shall not charge a fee for hunters to hunt elk on properties enrolled in the Landowner License Program except as described in the program guidance document.
- L. A special elk hunting license transferee may be rejected if it is determined that the transferee has been convicted of two or more wildlife violations, within three years prior to the last date of the application period. In determining the transferee's eligibility, the director shall take into account the nature and severity of the violations.

Rationale:

(i) Deadlines were omitted to allow the Department more flexibility in refining the overall elk hunt lottery timeline. It is customary for such operational details to be decided on and carried out by the Department, rather than being defined in the authorizing regulation itself. After administering the inaugural elk hunt in 2022, it is apparent that the dates initially listed in this regulation may not align well with the annual timeline for assessing elk population levels that would allow the Department to maximize the number of special elk hunting licenses issued each year and to properly plan, communicate, and implement the various elements of the elk hunt.

- (ii) The 50-contiguous acre minimum is recommended to be omitted because multiple landowners had ideal elk hunting properties for this past year's inaugural elk hunt that were less than 50 contiguous acres. Fifty acres appears to be arbitrary from a biological standpoint, and regional staffs would like to rely more on property-level features rather than a set acre minimum. This will benefit both landowners and public elk hunters. The landowners with parcels less than 50 acres from this past year's hunt were all directly adjacent to larger parcels that were enrolled in this program for 2022. Therefore, the smaller parcels would have contributed to a larger collective acreage available to hunters and enhanced public access to the adjoining larger parcels.
- (iii) A specification that states Landowner License applications and associated properties will be evaluated based on a list of criteria outlined in the program guidance document was added for transparency in how landowners will be enrolled or not enrolled in the program. Examples of such criteria would include presence of elk or elk sign, availability of access points for hunters, and location of property relative to other lands available for elk hunting.
- (iv) The provision for landowners requesting an either-sex special elk hunting license was replaced with a provision for landowners to enter a landowner lottery for a special elk hunting license for two reasons. First, instituting a lottery rather than processing "requests" will be a more equitable and transparent method of awarding special elk hunting licenses when the number of landowners interested in a license exceeds the number of available licenses. Second, "either-sex" was omitted to be more in line with the type of elk hunting licenses available at the time landowners are entering the lottery. For example, if antlered elk licenses are the only elk licenses being issued by the Department, then those will be the only option for elk licenses available through the landowner lottery.

Bear & Wild Turkey Regulations

4VAC15-50-11

Game: Bear: Open Season; Generally.

Summary:

The recommendation is to add two weeks of general firearms season in 35 counties in southern and eastern Virginia and remove the 3-day early firearms season from 26 counties in northern and western Virginia.

Recommended language of amendment:

4VAC15-50-11. Open Season; Generally.

A. It shall be lawful to hunt bears in the following localities, including the cities and towns therein, during the following seasons:

Location	Season
Accomack County	Closed
Albemarle County	Monday following the last Saturday in September and for two days following; and t The fourth Monday in November through the first Saturday in January, both dates inclusive.
Alleghany County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.
Amelia County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Amherst County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.
Appomattox County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Arlington County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.
Augusta County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.
Bath County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.
Bedford County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.
Bland County	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.
Botetourt County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.

Brunswick County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Buchanan County	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.
Buckingham County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Campbell County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Caroline County	Fourth Monday in November through the first Saturday in January, both dates inclusive.
Carroll County	Monday nearest December 2 through the first Saturday in January, both dates inclusive.
Charles City County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Charlotte County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Chesapeake (City of)	October 1 through the first Saturday in January, both dates inclusive.
Chesterfield County	Fourth Monday in November through the first Saturday in January, both dates inclusive.
Clarke County	Monday following the last Saturday in September and for two days following; and t The fourth Monday in November through the first Saturday in January, both dates inclusive.
Craig County	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.
Culpeper County	Monday following the last Saturday in September and for two days following; and t The fourth Monday in November through the first Saturday in January, both dates inclusive.
Cumberland County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.

Dickenson County	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.
Dinwiddie County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Essex County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Fairfax County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.
Fauquier County	Monday following the last Saturday in September and for two days following; and t The fourth Monday in November through the first Saturday in January, both dates inclusive.
Floyd County	Monday nearest December 2 through the first Saturday in January, both dates inclusive.
Fluvanna County	Fourth Monday in November through the first Saturday in January, both dates inclusive.
Franklin County	Monday nearest December 2 through the first Saturday in January, both dates inclusive.
Frederick County	Monday following the last Saturday in September and for two days following; and t The fourth Monday in November through the first Saturday in January, both dates inclusive.
Giles County	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.
Gloucester County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Goochland County	Fourth Monday in November through the first Saturday in January, both dates inclusive.
Grayson County	Monday nearest December 2 through the first Saturday in January, both dates inclusive.

	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November
Greene County	through the first Saturday in January, both dates inclusive.
Greensville County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Halifax County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Hanover County	Fourth Monday in November through the first Saturday in January, both dates inclusive.
Henrico County	Fourth Monday in November through the first Saturday in January, both dates inclusive.
Henry County	Monday nearest December 2 through the first Saturday in January, both dates inclusive.
Highland County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.
Isle of Wight County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
James City County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
King and Queen County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
King George County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
King William County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Lancaster County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Lee County	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.

Loudoun County	Monday following the last Saturday in September and for two days following; and t The fourth Monday in November through the first Saturday in January, both dates inclusive.	
Louisa County	Fourth Monday in November through the first Saturday in January, both dates inclusive.	
Lunenburg County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.	
Madison County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.	
Mathews County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.	
Mecklenburg County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.	
Middlesex County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.	
Montgomery County (southeast of I-81)	Monday nearest December 2 through the first Saturday in January, both dates inclusive.	
Montgomery County (northwest of I-81)	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.	
Nelson County	Monday following the last Saturday in September and for two days following; and t The fourth Monday in November through the first Saturday in January, both dates inclusive.	
New Kent County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.	
Northampton County	Closed	
Northumberland County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.	
Nottoway County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.	
Orange County	Fourth Monday in November through the first Saturday in January, both dates inclusive.	

Page County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.	
Patrick County	Monday nearest December 2 through the first Saturday in January, both dates inclusive.	
Pittsylvania County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.	
Powhatan County	Fourth Monday in November through the first Saturday in January, both dates inclusive.	
Prince Edward County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.	
Prince George County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.	
Prince William County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.	
Pulaski County (southeast of I-81)	Monday nearest December 2 through the first Saturday in January, both dates inclusive.	
Pulaski County (northwest of I-81)	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.	
Rappahannock County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.	
Richmond County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.	
Roanoke County	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.	
Rockbridge County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.	

Rockingham County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.
Russell County	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.
Scott County	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.
Shenandoah County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.
Smyth County (southeast of I-81)	Monday nearest December 2 through the first Saturday in January, both dates inclusive.
Smyth County (northwest of I-81)	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.
Southampton County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Spotsylvania County	Fourth Monday in November through the first Saturday in January, both dates inclusive.
Stafford County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.
Suffolk (City of)	October 1 through the first Saturday in January, both dates inclusive.
Surry County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Sussex County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Tazewell County	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.

Virginia Beach (City of)	October 1 through the first Saturday in January, both dates inclusive.
Warren County	Monday following the last Saturday in September and for two days following; and t-The fourth Monday in November through the first Saturday in January, both dates inclusive.
Washington County (southeast of I-81)	Monday nearest December 2 through the first Saturday in January, both dates inclusive.
Washington County (northwest of I-81)	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.
Westmoreland County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.
Wise County	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.
Wythe County (southeast of I-81)	Monday nearest December 2 through the first Saturday in January, both dates inclusive.
Wythe County (northwest of I-81)	Monday following the last Saturday in September and for two days following; and the fourth Monday in November through the first Saturday in January, both dates inclusive.
York County	Monday nearest December 2 and for 19 days following. through the first Saturday in January, both dates inclusive.

B. Notwithstanding provisions of subsection A of this section, bears may be hunted from the first Saturday in October through the first Saturday in January, both dates inclusive, within the incorporated limits of any town or city that allows bear hunting.

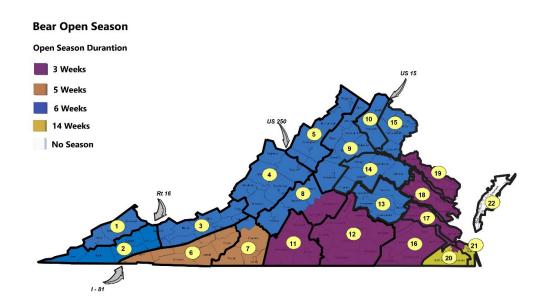

Rationale:

This recommendation is designed to address both recent and longer-term black bear population trends to achieve objectives in the Black Bear Management Plan, which is under revision. Besides certain counties in southwestern Virginia, where the draft population objective is to slightly reduce bear populations, draft objectives for the rest of Virginia are to stabilize the bear population at 2020 levels. Increasing black bear populations in several southern and eastern management zones supports stepwise approaches to increase bear harvest in order to stabilize bear populations. In contrast, recent and ongoing bear population declines observed in several

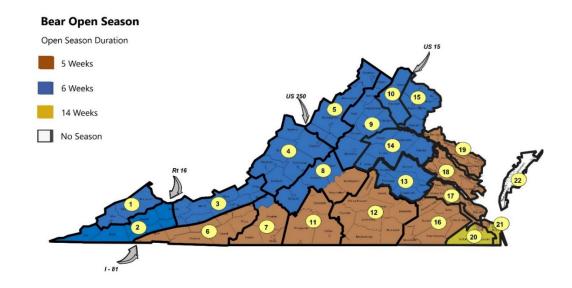

western and northern management zones necessitate reductions in harvest. Specific changes are recommended in both the general firearms seasons (November and December) and early 3-day firearms seasons (September).

General firearms bear season

This recommendation would change the general firearms bear seasons from those depicted on this map:

To the general firearms bear seasons depicted on the following map:

Two additional weeks of general bear firearms season are recommended for Zones 11, 12, 16, 17, 18, 19, and part of Zone 8 (Appomattox and Buckingham counties; see map above) to increase harvests and begin stabilizing bear populations. Bear populations across much of this area have demonstrated the greatest growth rate in the state over the last decade. Adding hunting opportunity at the end of the general firearms seasons will provide additional recreational opportunities for all types of hunters using different weapons and hunting methods.

3-day early bear firearms season

This recommendation would change the 3-day early firearms bear seasons from those depicted on this map:

3 Day Early Firearms Season Open Counties Closed Counties

To the 3-day early firearms bear seasons depicted on the following map:

This recommendation would remove the 3-day early firearms bear season in Zones 4, 5, 8, 9, 10, and 15. This 3-day season was established in 2017 to reduce bear populations in western and northern zones according to interim bear population objectives (2017-2021). The intent has been to remove this early season once objectives were accomplished, as they have been over much of this area.

Harvest data and other information (conflict reports, constituent observations) suggest that bear populations in Zones 5, 9, and 10 have declined significantly in recent years. Previous objectives to reduce the bear population in these three zones have clearly been met and current populations are below the new draft objectives, which are to stabilize bear population at 2020 levels in these areas. In Zone 15, bear harvests during the 3-day season have been inconsequential, so it is recommended that the season be removed in this zone for geographic consistency in regulations.

The magnitude of population declines in Zones 5, 9, and 10 could be partially related to sarcoptic mange, a skin disease in bears. There is currently no evidence, in Virginia or elsewhere, that the disease limits bear populations over the long term; however, other states have observed cyclic outbreaks of mange that can impact bear populations locally for several years. The Department takes the problem of mange and its potential implications on black bears seriously as it continues to gather reports, conduct investigations, and collaborate with other states to determine long-term solutions and potential impacts on bear populations.

The recommendation to remove the 3-day early firearms bear season in Zones 4 and 8 is made for two primary reasons. First, recent trends in harvest and other information (conflict reports, constituent observations) suggest that we have tentatively met previous objectives to reduce bear populations over much of this area. In addition, sarcoptic mange may already be playing some role as an additive bear mortality factor in certain parts of these zones. As mange continues to spread southward and eastward in Virginia, removing the 3-day early season in Zones 4 and 8 is a proactive measure to address potential population impacts over the next several years. With both factors in mind, the recommendation will ease harvest pressure to ensure the bear population does not decline inordinately below the draft objectives, which are to stabilize bear population at 2020 levels in these areas.

Game: Turkey: Open season; certain counties and areas; four-week season.

Summary:

This recommendation is to remove Charles City County from the list of counties which have a four week fall turkey season and add it to the regulation for a six week fall turkey season (4VAC15-240-32).

Recommended language of amendment:

4VAC15-240-31. Open season; certain counties and areas; four-week season.

It shall be lawful to hunt turkeys 14 days immediately before the Saturday prior to the first Monday in November, on Thanksgiving Day and the day before, and on the Monday closest to December 2 and for 12 days following in the Counties of Accomack, Amelia, Charles City, Dinwiddie, Gloucester, Greensville, Isle of Wight, James City, Mathews, Middlesex, New Kent, Northampton, Powhatan, Prince George, Southampton, Surry, Sussex, and York (except on Camp Peary) and the City of Suffolk.

Rationale:

Current population trends and density estimates for Charles City County indicate a very high turkey density with a stable population trend. Staff believe the population can sustain an increased fall harvest opportunity based on the current population metrics. The remaining counties in this four week fall season grouping do not currently indicate population trends that would allow for additional fall harvest opportunities.

Game: Turkey: Open season; certain counties and areas; six-week season.

Summary:

This recommendation is to add Charles City to the counties with a six week fall turkey season.

Recommended language of amendment:

4VAC15-240-32. Open season; certain counties and areas; six-week season.

It shall be lawful to hunt turkeys 14 days immediately before the Saturday prior to the first Monday in November; on Thanksgiving Day and the day before; on the Monday nearest December 2 and for 12 days following, both dates inclusive; and on the second Saturday in January and for 14 days following in the Counties of Amherst, Appomattox, Brunswick, Buchanan, Buckingham, Campbell, Charles City, Charlotte, Chesterfield, Cumberland, Floyd, Fluvanna, Frederick, Goochland, Halifax, Hanover, Henrico, Henry, Louisa, Lunenburg, Mecklenburg, Nottoway, Orange, Patrick, Pittsylvania, Prince Edward, Shenandoah, Spotsylvania, Tazewell, and Warren.

Rationale:

Current population trends and density estimates for Charles City County indicate a very high turkey density with a stable population trend. Staff believe the population can sustain an increased fall harvest opportunity based on the current population metrics.

Game: Turkey: Open season; spring season for bearded turkeys.

Summary:

This recommendation is to allow the standard daily and season bag limit to apply to the youth and apprentice spring turkey hunting weekend.

Recommended language of amendment:

4VAC15-240-40. Open season; spring season for bearded turkeys.

A. Except as otherwise provided in this section, it shall be lawful to hunt bearded turkeys from the second Saturday in April and for 35 days following, both dates inclusive, from 1/2 hour before sunrise to 12:00 noon prevailing time during the first 16 days and from 1/2 hour before sunrise to sunset during the last 20 days of the spring season.

B. Turkey hunters 15 years of age and younger and holders of an apprentice hunting license may hunt on the first Saturday in April and the following calendar day from 1/2 hour before sunrise to sunset, when in compliance with applicable license requirements and when accompanied and directly supervised by an adult who has a valid Virginia hunting license on his person or an adult who is exempt from purchasing a hunting license. Adult hunters accompanying youth hunters or apprentice license holders on these days may assist with calling but they shall not carry or discharge weapons. Youth and apprentice turkey hunters are limited on this weekend to one turkey per hunter.

C. Upon receipt of an application from an officer or other designated official representative of any nonprofit organization that has support for sportsmen with impaired mobility as one of its mission statements, the director may issue a permit to an officer or representative of the organization that allows sportsmen with impaired mobility to hunt bearded wild turkeys from 1/2 hour before sunrise to sunset from the 10th through 16th days of the spring season. Such authorization shall be valid only when hunting during an authorized event. All participants shall be in compliance with all requirements of law and regulation that apply during the spring season, and bearded turkeys killed during these events shall count toward daily and annual bag limits.

- D. Bearded turkeys may be hunted by calling.
- E. It shall be unlawful to use dogs or organized drives for the purpose of hunting.
- F. It shall be unlawful to use or have in possession any shot larger than number 2 fine shot when hunting turkeys with a shotgun.

Rationale:

The youth and apprentice turkey hunting seasons were instituted to increase participation by new hunters without the competition from more experienced hunters. In 2014, the turkey season was expanded to include Sundays creating a youth and apprentice hunter weekend. However, the

youth and apprentice season bag limits were maintained at 1 bird per hunter for the weekend as the effects of adding Sunday hunting were not known at the time, and there were concerns of over-harvesting turkeys early in the season. Subsequent monitoring indicates that additional harvest during the weekend season would not likely cause excessive harvests but would provide additional recreational benefit to new hunters. This recommendation would allow a youth or apprentice hunter to harvest birds in accordance with the daily and season bag limits set by the Board in 4VAC15-240-70.

Game: Turkey: Youth and Apprentice fall turkey hunting weekend.

Summary:

This recommendation is to allow the standard daily and season bag limit to apply to the youth and apprentice fall turkey hunting weekend.

Recommended language of amendment:

4VAC15-240-51. Youth and Apprentice fall turkey hunting weekend.

In counties, cities, and areas with a fall turkey season, hunters 15 years of age and younger and holders of an apprentice hunting license may hunt turkey on the second Saturday in October and the following calendar day when in compliance with applicable license requirements and when accompanied and directly supervised by an adult who has a valid Virginia hunting license on his person or is exempt from purchasing a hunting license. Adult hunters accompanying youth hunters or apprentice license holders on these days may assist with calling turkey but they shall not carry or discharge weapons. Youth and apprentice turkey hunters are limited on this weekend to one turkey per hunter.

Rationale:

The youth and apprentice turkey hunting seasons were instituted to increase participation by new hunters without the stress of competition from experienced hunters. In 2014, the season was expanded to include Sundays creating a youth and apprentice hunting weekend. However, the youth and apprentice season bag limits were maintained at one bird per hunter per weekend as the effects of adding Sunday hunting were not known at the time and there were concerns of over-harvesting turkeys early in the season. Subsequent monitoring indicates that additional harvest during the weekend would not likely cause excessive harvests but would provide additional recreational benefit to new hunters. This recommendation would allow a youth or apprentice hunter to harvest birds in accordance with the daily and season bag limits set by the Board in 4VAC15-240-70.

General Regulations

Admittance, parking, or other use fee at certain department-owned and department-managed facilities.

Summary:

This recommendation aligns the regulation with the Code of Virginia (§ 29.1-113) after the Code was amended to remove mandatory fees at department boating access sites. The intent is to not charge a fee at department-owned or department-managed boat ramps.

Recommended language of amendment:

4VAC15-20-66. Admittance, parking, or other use fee at certain department-owned and department-managed facilities.

A. Pursuant to the authority of the board under § 29.1-103 (14) of the Code of Virginia and in accordance with § 29.1-113 of the Code of Virginia, a daily fee of \$3.00 or an annual fee equal to the price of an annual basic state resident fishing or hunting license is established for admittance, parking, or other use at department-owned or department-managed lands-boat launch sites, and public fishing lakes. Such fee shall not apply to (i) any person holding a valid hunting, trapping, or fishing license, or a current certificate of boat registration issued by the department; (ii) persons 16 years of age or younger; or (iii) any person who is a passenger in but not the owner or operator of a paddlecraft or registered vessel, the use of department-owned boat ramps.

- B. Any person violating this section may be assessed a civil penalty of \$50 in lieu of any criminal penalty.
- C. The director may waive fees for any person, group, or organization whenever such action is deemed to be in the department's interest. Any or all facilities may be closed by the director without notice due to an emergency or natural disaster. Full refunds or credits may be issued whenever the closure prevents any use of the facility during the term of the permit. Partial refunds of fees may be made in the interest of providing better customer service.
- D. The director may allow deviations from established fees in the form of discounts or special promotions for the purpose of stimulating visitation and use of departmental facilities.

Rationale:

The intent of this change is to align our regulations with the Code of Virginia (§ 29.1-113). The Code was amended in 2022 and this proposed regulation amendment removes the access fee requirements from department-owned or department-managed boat ramps.

Definitions and Miscellaneous: In General; Endangered and threatened species; adoption of federal list; additional species enumerated.

Summary:

The recommendation is to (i) update the date reference to the federal list of endangered and threatened wildlife species and (ii) update the Virginia List of Endangered and Threatened Species to remove the state threatened sickle darter and state threatened Atlantic pigtoe to reflect their status in Virginia more accurately and improve regulatory certainty.

Recommended language of amendment:

4VAC15-20-130. Endangered and threatened species; adoption of federal list; additional species enumerated.

A. The board hereby adopts the Federal Endangered and Threatened Species List, Endangered Species Act of December 28, 1973 (16 USC §§ 1531-1543), as amended as of April 30, 2021 December 28, 2022, and declares all species listed thereon to be endangered or threatened species in the Commonwealth. Pursuant to subdivision 12 of § 29.1-103 of the Code of Virginia, the director of the department is hereby delegated authority to propose adoption of modifications and amendments to the Federal Endangered and Threatened Species List in accordance with the procedures of §§ 29.1-501 and 29.1-502 of the Code of Virginia.

B. In addition to the provisions of subsection A of this section, the following species are declared endangered or threatened in this Commonwealth, and are afforded the protection provided by Article 6 (§ 29.1-563 et seq.) of Chapter 5 of Title 29.1 of the Code of Virginia:

1. Fish:

Endangered

Dace, Clinch	Chrosomus sp. cf. saylori
Dace, Tennessee	Phoxinus tennesseensis
Darter, sharphead	Etheostoma acuticeps
Darter, variegate	Etheostoma variatum
Sunfish, blackbanded	Enneacanthus chaetodon

Threatened:

Darter, Carolina	Etheostoma collis
Darter, golden	Etheostoma denoncourti
Darter, greenfin	Etheostoma chlorobranchium
Darter, sickle	Pereina willliamsi

Darter, western sand	Ammocrypta clara
Madtom, orangefin	Noturus gilberti
Paddlefish	Polyodon spathula
Shiner, emerald	Notropis atherinoides
Shiner, steelcolor	Cyprinella whipplei
Shiner, whitemouth	Notropis alborus

2. Amphibians:

Endangered:

	Salamander, eastern tiger	Ambystoma tigrinum	
	Threatened:		
Salamander, Mabee's Ambystoma mabeei			

3. Reptiles:

Endangered:

Rattlesnake, canebrake (Coastal Plain population of	
timber rattlesnake)	Crotalus horridus
Turtle, bog	Glyptemys muhlenbergii
Turtle, eastern chicken	Deirochelys reticularia reticularia

Threatened:

Lizard, eastern glass	Ophisaurus ventralis
Turtle, wood	Glyptemys insculpta

4. Birds:

Endangered:

Plover, Wilson's	Charadrius wilsonia	
Rail, black	Laterallus jamaicensis	
Woodpecker, red-cockaded	Dryobates borealis	
Wren, Bewick's	Thryomanes bewickii bewickii	

Threatened:

Falcon, peregrine	Falco peregrinus
Shrike, loggerhead	Lanius ludovicianus
Sparrow, Bachman's	Aimophila aestivalis
Sparrow, Henslow's	Ammodramus henslowii

61

Tern, gull-billed	Sterna nilotica
-------------------	-----------------

5. Mammals:

Endangered:

Bat, Rafinesque's eastern big- eared	Corynorhinus rafinesquii macrotis
Bat, little brown	Myotis lucifugus
Bat, tri-colored	Perimyotis subflavus
Hare, snowshoe	Lepus americanus
Shrew, American water	Sorex palustris
Vole, rock	Microtus chrotorrhinus

6. Mollusks:

Endangered:

Coil, rubble	Helicodiscus lirellus
Coil, shaggy	Helicodiscus diadema
Deertoe	Truncilla truncata
Elephantear	Elliptio crassidens
Elimia, spider	Elimia arachnoidea
Floater, brook	Alasmidonta varicosa
Ghostsnail, thankless	Holsingeria unthanksensis
Heelsplitter, Tennessee	Lasmigona holstonia
Lilliput, purple	Toxolasma lividus
Mussel, slippershell	Alasmidonta viridis
Pigtoe, Ohio	Pleurobema cordatum
Pigtoe, pyramid	Pleurobema rubrum
Springsnail, Appalachian	Fontigens bottimeri
Springsnail (no common name)	Fontigens morrisoni
Supercoil, spirit	Paravitrea hera

Threatened:

Floater, green	Lasmigona subviridis
Papershell, fragile	Leptodea fragilis
Pigtoe, Atlantic	Fusconaia masoni
Pimpleback	Quadrula pustulosa pustulosa

Pistolgrip	Tritogonia verrucosa	
Riversnail, spiny	Iofluvialis	
Sandshell, black	Ligumia recta	
Supercoil, brown	Paravitrea septadens	

7. Arthropods:

Threatened:

Amphipod, Madison Cave	Stygobromus stegerorum	
Pseudotremia, Ellett Valley	Pseudotremia cavernarum	
Xystodesmid, Laurel Creek	Sigmoria whiteheadi	

- C. It shall be unlawful to take, transport, process, sell, or offer for sale within the Commonwealth any threatened or endangered species of fish or wildlife except as authorized by law.
- D. The incidental take of certain species may occur in certain circumstances and with the implementation of certain conservation practices as described in this subsection:

Use of exclusion devices that allow individual animals to escape. Manual collection of individual animals incapable of sustaining themselves; transport to a willing and
a willing and appropriately permitted wildlife rehabilitator.

Rationale:

Adoption of the updated and modified federal list of endangered and threatened wildlife species: Maintaining the currency of the Board's adoption of the federal list is essential to clarifying the state and federal status of each affected species, ensuring compliance with our Cooperative Agreements with the U.S. Fish and Wildlife Service and the National Marine Fisheries Service regarding interagency management of these species and maintaining regulatory certainty about the status of the species in Virginia.

Removal of the sickle darter and Atlantic pigtoe as threatened species: On December 16, 2021, the U.S. Fish and Wildlife Service officially added the Atlantic pigtoe, a freshwater mussel species found in Virginia's Atlantic slope drainage, as a threatened species to the federal list of endangered and threatened species. On December 7, 2022, the U.S. Fish and Wildlife Service officially added the sickle darter, a freshwater fish species found in Virginia's Upper Tennessee River drainage, as a threatened species to the federal list of endangered and threatened species.

The intent of 4 VAC 15-20-130 is for the Board to designate as state endangered or threatened those species that do not already appear on the federal list. Since these species are now on the federal list, staff's recommendation is to remove them from the state list.

Game: In General: Visiting traps, generally; visiting completely submerged, body-gripping traps; use of remote trap check systems.

Summary:

The recommendation updates remote trap check system requirements to incorporate the use of certain types of camera-based systems.

Recommended language of amendment:

4VAC15-40-195. Visiting traps, generally; visiting completely submerged, body-gripping traps; use of remote trap check systems.

- A. Except as provided in subsections B and C of this section, it shall be unlawful to fail to visit all traps once each day and remove all animals caught.
- B. Body-gripping traps that are completely submerged by water must be visited at least once every 72 hours.
- C. Remote trap checking systems may be used in lieu of a physical trap visit when such systems (i) have a control unit or remote camera that reports trap status to a centralized application database at least once every 24 hours; (ii) have notifications alarms that report provide notifications of trap closures or activity at the trap site and system health issues within one hour of detection via email or and text-based messaging systems; and (iii) have on-demand control unit testing capabilities for determining trap status, signal strength, and battery condition via remote system check-in. If the control unit reports a trap closure or the camera sends a photo with an animal in a trap, the user is required to physically visit the trap within 24 hours of the time the trap was reported closed, or the photo was received. If the control unit or camera fails to report its current status within a 24-hour check-in period or reports a system health issue, the user is required to physically check the trap within 24 hours of the last time an open trap signal was received communication with the device.

Rationale:

In 2015, a provision was added to allow certain types of remote trap check systems to be used in lieu of a physical trap check. Since that time, there have been considerable technological advances in these systems, particularly among camera-based trap monitoring systems. These camera-based systems do not fit cleanly into the current language describing allowable systems, despite being more versatile and widely available. Electronic trap check and camera systems conforming to standards recommended in this regulation ensure that trap status is reliably determined and allows for quicker detection and removal of animals in traps.

Game: In General: Sale of small game animals and parts.

Summary:

This recommendation allows the sale of non-meat turkey parts in accordance with regulation.

Recommended language of amendment:

4VAC15-40-276. Sale of wild turkey and small game animals and parts.

It shall be lawful for any person to purchase or sell skins, pelts, skulls, bones, teeth, claws, feet, spurs, tails, hair, feathers, taxidermy mounts, and other nonmeat parts of legally taken and possessed rabbits, squirrels, bobwhite quail, ruffed grouse, and pheasants, and wild turkey.

Rationale:

This recommendation would allow individuals to offer for sale wild turkey taxidermy mounts, feathers, feet, spurs, etc. and align the sale of wild turkey parts with those of small game animals and cervids (4VAC15-90-280). Currently, turkey parts are only allowed to be sold under § 29.1-521 for the purpose of creating "turkey callers," which has led to ambiguity as there is no clear definition within code.

Game: In General: Unauthorized feeding of cervids.

Summary:

The recommendation is to prohibit feeding of cervids in cities and towns within designated counties that are within 25 miles of a confirmed detection of Chronic Wasting Disease.

Recommended language of amendment:

4VAC15-40-285. Unauthorized feeding of cervids.

A. It shall be unlawful for any person to place or distribute food, salt, minerals, or similar substances to feed or attract cervids (i) at any time in the Counties (including the cities and towns within) of Buchanan, Dickenson, Wise, and in any county (including the cities and towns within) designated by the department within 25 miles of a confirmed detection of Chronic Wasting Disease; (ii) during any deer or elk season within any county, city, or town that allows deer or elk hunting; and (iii) from September 1 through the first Saturday in January, both dates inclusive, elsewhere in the Commonwealth.

B. Any food, salt, minerals, or similar substances placed or distributed to feed or attract cervids prior to September 1 must be completely removed by September 1, and any area where food, salt, minerals, or similar substances were placed or distributed to feed or attract cervids shall be considered to be baited for 10 days following the complete removal of the items listed in this subsection.

C. Upon written notification by department personnel, no person shall continue to place or distribute any food, salt, mineral, or similar substances for any purpose if the placement of these materials results in the attraction of or feeding of cervids. After such notification, such person shall be in violation of this section if the placing, distribution, or presence of such food, salt, minerals, or similar substances continues.

D. No part of this regulation shall be construed to restrict bona fide agronomic plantings (including wildlife food plots), bona fide distribution of food to livestock, or wildlife management activities conducted or authorized by the department.

Rationale:

It was an oversight to exclude cities and towns in the year-round prohibition on feeding cervids within proximity to Chronic Wasting Disease detections. Feeding deer in cities and towns represent similar risks as feeding deer within the counties that surround them. CWD is an infectious disease of cervids that spreads readily through animal-to-animal contact and environmental contamination by the disease agent. Because CWD transmission can be enhanced when deer are concentrated at artificial feeding sites, it is critical to prevent the placement of food, minerals, or salt in an expansive area surrounding an area known to be infected with the disease.

4VAC15-40-290 (New)

Game: General: Validating tags and reporting bear, deer, elk, turkey, or bobcat.

Summary:

The recommendation is to combine regulations for validating tags and reporting the harvests of bears, deer, elk, turkeys, and bobcats, replacing and repealing 4 VAC 15-50-81, 4 VAC 15-50-91, 4 VAC 15-70-70, 4 VAC 15-90-231, 4 VAC 15-90-241, 4 VAC 15-240-81, 4 VAC 15-240-91. This new regulation will also add a requirement to report gray fox harvest and incorporate the prohibition on providing false information when reporting game harvests, replacing and repealing 4 VAC 15-40-300.

Recommended language of amendment:

4VAC15-40-290. Validating tags and reporting bear, deer, elk, turkey, or bobcat.

A. If a hunter holds a license or permit to kill a bear, deer, elk, or turkey:

- 1. The hunter killing a bear, deer, elk, or turkey shall, before removing the carcass from the place of kill, validate an appropriate tag on their special license for hunting bear, special license for hunting deer and turkey, special elk hunting license, bonus deer permit, or special permit by completely removing the designated notch area from the paper tag or by electronically notching a tag and reporting the bear, deer, elk, or turkey using the department's mobile harvest reporting application. Place of kill shall be defined as the location where the animal or bird is first reduced to possession. It shall be unlawful for any person to validate (notch) a paper tag prior to the killing of a bear, deer, elk, or turkey. A paper tag that is mistakenly validated (notched) prior to the killing of a bear, deer, elk, or turkey must be immediately voided by the licensee or permittee by writing in ink the word "VOID" on the line provided on the license or special permit tag. All electronically notched tags are permanent and cannot be voided.
- 2. Upon killing a bear, deer, elk, or turkey and validating (notching) a paper license tag, bonus deer permit or special permit, as provided in subsection A of this section, the hunter shall, upon vehicle transport of the carcass or at the conclusion of legal hunting hours, whichever occurs first, and without unnecessary delay, report the kill through the department's electronic harvest reporting system. At such time, the person making the report will be given a confirmation number. The successful hunter shall then immediately record the confirmation number in ink on the line provided on the paper tag that was validated (notched) in the field.

3. After the harvest of a bear, deer, elk, or turkey is reported, no written documentation is required as long as the hunter who killed the animal or bird is in possession of the carcass. If the reported carcass is left unattended or transferred to the possession of another individual, written documentation that includes the successful hunter's full name, the date the animal or bird was killed, and the confirmation number must be created and kept in possession with the carcass until the carcass is processed. If the carcass is left unattended, this written documentation must be securely attached to the carcass.

B. If a hunter is exempt from license requirements or holds a license authorization number as prescribed by the Code of Virginia (§ 29.1-301, 29.1-327, 29.1-339) and has killed a bear, deer, elk, or turkey:

1. The hunter shall, upon vehicle transport of the carcass or at the conclusion of legal hunting hours, whichever occurs first, and without unnecessary delay, report the kill through the department's automated harvest reporting system. At such time, the person making the report will be given a confirmation number. The hunter shall immediately create written documentation including the hunter's full name, the date the animal or bird was killed, and the confirmation number. This written documentation must be kept in possession with the carcass until the carcass is processed. If the carcass is transferred to the possession of another individual, the written documentation must be transferred with the carcass to the individual and kept in possession with the carcass until the carcass is processed. If the carcass is left unattended, this written documentation must be securely attached to the carcass.

C. Any hunter or trapper who kills a bobcat shall report the kill within 24 hours through the department's automated harvest reporting system. At such time, the person reporting the kill will be furnished with a confirmation number. The hunter or trapper shall immediately record this confirmation number in a location where it can later be retrieved to prove compliance with checking requirements or to request a department seal. Any bobcat received by a taxidermist for mounting or tanning shall have written documentation securely attached to the carcass that includes the full name of the hunter or trapper, date of kill, and the harvest confirmation number.

D. Any hunter or trapper who kills a gray fox shall report the kill within 24 hours through the department's automated harvest reporting system. At such time, the person reporting the kill will be furnished with a confirmation number. The hunter or trapper shall immediately record this confirmation number in a location where it can later be retrieved to prove compliance with checking requirements. Any gray fox received by a taxidermist for mounting or tanning shall have written documentation securely attached to the carcass that includes the full name of the hunter or trapper, date of kill, and the harvest confirmation number.

E. It shall be unlawful for any person to destroy the identity of the sex of any bear, deer, elk, or turkey killed until the harvest is reported as required by this section. Successful hunters may dismember the carcass to pack it out from the place of kill as long as they do not destroy the identity of the sex and all the parts of the carcass are present when the animal or bird is reported.

F. Processed carcass parts of a bear, deer, elk, or turkey killed legally in Virginia may be transported. However, upon request of any authorized law-enforcement officer, sufficient verbal or written information necessary to properly establish legal possession must be furnished immediately.

G. Upon killing a bear, deer, elk, or turkey within an area designated by the department for disease management and on days designated by the department, the hunter shall present the carcass at or submit carcass parts or samples as directed by the department to a location designated by the department for the purposes of disease surveillance or biological monitoring.

H. A premolar tooth must be removed by the hunter after reporting the harvest of a bear through the department's automated harvest reporting system. The premolar shall be placed in an envelope furnished by the department and labeled with the hunter's full name, check confirmation number, date of kill, and the sex of the harvested bear. This envelope with premolar and accompanying information must be mailed or delivered to the department no later than 14 days after the close of the bear harvest season.

I. Any bear, deer, elk, or turkey found in the possession of any person that has not been reported as required by this section shall be forfeited to the Commonwealth to be disposed of as provided by law.

J. It shall be unlawful to provide false statements or record false information when tagging or reporting the harvest of any wild animal or bird to the department, any agent of the department, or any taxidermist.

4VAC15-40-300. Falsifying harvest information prohibited.

It shall be unlawful to provide false statements or record false information when tagging, checking, or reporting the harvest of any wild animal to the department, any agent of the department, or any taxidermist.

4VAC15-50-81. Validating tags and reporting bear and tooth submission by licensee or permittee.

A. Any person killing a bear shall, before removing the carcass from the place of kill, validate an appropriate tag on their special license for hunting bear or special permit by completely removing the designated notch area from the tag or by electronically notching a tag and reporting the bear using the department's mobile harvest reporting application. Place of kill shall be defined as the location where the animal is first reduced to possession. It shall be unlawful for

any person to validate (notch) a bear tag from any special license for hunting bear or special permit prior to the killing of a bear. A bear tag that is mistakenly validated (notched) prior to the killing of a bear must be immediately voided by the licensee or permittee by writing, in ink, the word "VOID" on the line provided on the license tag. All electronically notched tags are permanent and cannot be voided.

B. Upon killing a bear and validating (notching) a license tag or special permit, as provided in subsection A of this section, the licensee shall, upon vehicle transport of the carcass or at the conclusion of legal hunting hours, whichever occurs first, and without unnecessary delay, report the kill through the department's automated harvest reporting system. At such time, the person reporting the carcass will be given a confirmation number from the automated reporting system. The successful hunter shall then immediately record the confirmation number, in ink, on the line provided on the tag that was validated (notched) in the field. If checked at an authorized bear check station, the black bear check card must be kept in possession with the carcass until the carcass is processed. After the kill is reported, no written documentation is required as long as the hunter who killed the animal is in possession of the carcass. If the reported carcass is left unattended or transferred to the possession of another individual, written documentation including the successful hunter's full name, the date the animal was killed, and the confirmation number must be created and kept in possession with the carcass until the carcass is processed. If the carcass is left unattended, this written documentation must be securely attached to the carcass. Processed carcass parts of a bear killed legally in Virginia may be transported; however, upon request of any authorized law-enforcement officer, sufficient verbal or written information necessary to properly establish legal possession must be furnished immediately.

C. A premolar tooth must be removed by the hunter immediately after reporting the kill through the department's automated harvest reporting system. The premolar shall be placed in an envelope furnished by the department and labeled with the hunter's full name, check confirmation number, date of kill, and the sex of the harvested bear. This envelope with premolar and accompanying information must be mailed or delivered to the department no later than 14 days after the close of the bear harvest season.

D. It shall be unlawful for any person to destroy the identity of the sex of any bear killed unless and until the license tag or special permit is validated (notched) and reported as required by this section. Successful bear hunters are allowed to dismember the carcass to pack it out from the place of kill, after an appropriate license tag has been validated (notched) as required in subsection A of this section, as long as they do not destroy the identity of the sex, and all the parts of the carcass are present when the bear is reported through the automated harvest reporting system. Any bear found in the possession of any person without a validated (notched) license tag or documentation that the bear has been reported through the department's automated harvest reporting system as required by this section shall be forfeited to the Commonwealth to be disposed of as provided by law.

4VAC15-50-91. Reporting bear and tooth submission by persons exempt from license requirements or holding a license authorization number.

A. Upon killing a bear, any person (i) exempt from license requirements as prescribed in § 29.1-301 of the Code of Virginia, (ii) issued a complimentary license as prescribed in § 29.1-339 of the Code of Virginia, (iii) holding a permanent license issued pursuant to § 29.1-301 E of the

Code of Virginia, or (iv) the holder of a Virginia license authorization number issued by a telephone or electronic media agent pursuant to § 29.1-327 B of the Code of Virginia shall, upon vehicle transport of the carcass or at the conclusion of legal hunting hours, whichever occurs first, and without unnecessary delay, report the kill through the department's automated harvest reporting system. At such time, the person reporting the carcass shall be given a confirmation number from the automated reporting system. After the kill is reported using the automated harvest reporting system, the successful hunter shall immediately create written documentation including the successful hunter's full name, the date the animal was killed, and the confirmation number. This written documentation must be kept in possession with the carcass until the carcass is processed. If the automated harvest reported carcass is transferred to the possession of another individual, the written documentation must be transferred with the careass to the individual and kept in possession with the careass until the careass is processed. If the careass is left unattended, this written documentation must be securely attached to the carcass. Processed carcass parts of a black bear killed legally in Virginia may be transported; however, upon request of any authorized law enforcement officer, sufficient verbal or written information necessary to properly establish legal possession must be furnished immediately.

B. A premolar tooth must be removed by the hunter immediately after reporting the kill through the department's automated harvest reporting system. The premolar shall be placed in an envelope furnished by the department and labeled with the hunter's full name, check confirmation number, date of kill, and the sex of the harvested bear. This envelope with premolar and accompanying information must be mailed or delivered to the department no later than 14 days after the close of the bear harvest season.

C. It shall be unlawful for any person to destroy the identity of the sex of any bear killed until the bear is reported as required by this section. Successful bear hunters are allowed to dismember the carcass to pack it out from the place of kill as long as they do not destroy the identity of the sex and all the parts of the carcass are present when the bear is reported through the automated harvest reporting system. Any bear that has not been reported through the department's automated harvest reporting system as required by this section, found in the possession of any person exempt from the license requirements or holding a license authorization number shall be forfeited to the Commonwealth to be disposed of as provided by law.

4VAC15-70-70. Checking requirements.

Any hunter or trapper who kills a bobcat shall report the kill within 24 hours through the department's automated harvest reporting system. At such time, the person reporting the kill will be furnished with a confirmation number. The hunter or trapper shall immediately record this confirmation number in a location where it can later be retrieved to prove compliance with checking requirements or to request a department seal. Any bobcat received by a taxidermist for mounting or tanning shall have written documentation securely attached to the carcass that includes the full name of the hunter or trapper, date of kill, and the harvest confirmation number.

4VAC15-90-231. Validating tags and reporting deer by licensee or permittee.

A. Any person killing a deer shall, before removing the carcass from the place of kill, validate an appropriate tag on his special license for hunting deer and turkey, bonus deer permit, or special

permit by completely removing the designated notch area from the tag or by electronically notching a tag and reporting the deer using the department's mobile harvest reporting application. Place of kill shall be defined as the location where the animal is first reduced to possession. It shall be unlawful for any person to validate (notch) a deer tag from any special license for hunting deer and turkey, bonus deer permit, or special permit prior to the killing of a deer. A deer tag that is mistakenly validated (notched) prior to the killing of a deer must be immediately voided by the licensee or permittee by writing in ink the word "VOID" on the line provided on the license tag. All electronically notched tags are permanent and cannot be voided. B. Upon killing a deer and validating (notching) a license tag, bonus deer permit or special permit, as provided in subsection A of this section, the licensee or permittee shall, upon vehicle transport of the carcass or at the conclusion of legal hunting hours, whichever occurs first, and without unnecessary delay, report the kill through the department's automated harvest reporting system. At such time, the person reporting the carcass will be given a confirmation number. The successful hunter shall then immediately record the confirmation number in ink on the line provided on the tag that was validated (notched) in the field. I

C. After the kill is reported, no written documentation is required as long as the hunter who killed the animal is in possession of the carcass. If the reported carcass is left unattended or transferred to the possession of another individual, written documentation that includes the successful hunter's full name, the date the animal was killed, and the confirmation number must be created and kept in possession with the carcass until the carcass is processed. If the carcass is left unattended, this written documentation must be securely attached to the carcass.

D. It shall be unlawful for any person to destroy the identity of the sex of any deer killed unless and until the license tag, bonus deer permit, or special permit is validated (notched) and reported as required by this section. Successful deer hunters are allowed to dismember the carcass to pack it out from the place of kill, after an appropriate license tag has been validated (notched) as required in subsection A of this section, as long as they do not destroy the identity of the sex and all the parts of the carcass are present when the deer is reported.

E. Processed carcass parts of a deer killed legally in Virginia may be transported. However, upon request of any authorized law-enforcement officer, sufficient verbal or written information necessary to properly establish legal possession must be furnished immediately.

F. Any deer found in the possession of any person without a validated (notched) license tag or documentation that the deer has been reported as required by this section shall be forfeited to the Commonwealth to be disposed of as provided by law.

G. Upon killing a deer within an area designated by the department for deer disease management and on days designated by the department, the licensee or permittee shall present the carcass, or submit carcass parts or samples as directed by the department, to a location designated by the department for the purposes of disease surveillance or biological monitoring.

4VAC15-90-241. Reporting deer by persons exempt from license requirement or holding a license authorization number.

A. Upon killing a deer, any person (i) exempt from license requirement as prescribed in § 29.1-301 of the Code of Virginia, (ii) issued a complimentary license as prescribed in § 29.1-339 of the Code of Virginia, (iii) holding a permanent license issued pursuant to § 29.1-301 E of the Code of Virginia, or (iv) holding a Virginia license authorization number issued by a telephone or electronic media agent pursuant to § 29.1-327 B of the Code of Virginia shall, upon vehicle

transport of the carcass or at the conclusion of legal hunting hours, whichever occurs first, and without unnecessary delay, report the kill through the department's automated harvest reporting system. At such time, the person reporting the carcass shall be given a confirmation number. The successful hunter shall immediately create written documentation including the successful hunter's full name, the date the animal was killed, and the confirmation number. This written documentation must be kept in possession with the carcass until the carcass is processed. If the carcass is transferred to the possession of another individual, the written documentation must be transferred with the carcass to the individual and kept in possession with the carcass until the carcass is processed. If the carcass is left unattended, this written documentation must be securely attached to the carcass.

B. It shall be unlawful for any person to destroy the identity (sex) of any deer killed until the deer is reported as required by this section. Successful deer hunters are allowed to dismember the carcass to pack it out from the place of kill as long as they do not destroy the identity of the sex and all the parts of the carcass are present when the deer is reported.

C. Processed carcass parts of a deer killed legally in Virginia may be transported; however, upon request of any authorized law-enforcement officer, sufficient verbal or written information necessary to properly establish legal possession must be furnished immediately.

D. Any deer that has not been reported as required by this section found in the possession of any person exempt from license requirements or holding a license authorization number shall be forfeited to the Commonwealth to be disposed of as provided by law.

E. Upon killing a deer within an area designated by the department for deer disease management and on days designated by the department, the hunter shall present the careass at or submit careass parts or samples as directed by the department to a location designated by the department for the purposes of deer disease surveillance or biological monitoring.

4VAC15-240-81. Validating tags and reporting turkey by licensee.

A. Any person killing a turkey shall, before removing the carcass from the place of kill, validate an appropriate tag on his special license for hunting deer and turkey by completely removing the designated notch area from the tag or by electronically notching a tag and reporting the turkey using the department's mobile harvest reporting application. Place of kill shall be defined as the location where the animal is first reduced to possession. It shall be unlawful for any person to validate (notch) a turkey tag from any special license for hunting deer and turkey prior to the killing of a turkey. A turkey tag that is mistakenly validated (notched) prior to the killing of a turkey must be immediately voided by the licensee by writing, in ink, the word "VOID" on the line provided on the tag. All electronically notched tags are permanent and cannot be voided. B. Upon killing a turkey and validating (notching) a license tag, as provided above, the licensee shall, upon vehicle transport of the carcass or at the conclusion of legal hunting hours, whichever occurs first, and without unnecessary delay, report the kill through the department's automated harvest reporting system. The person reporting the careass will be given a confirmation number from the automated harvest reporting system. The successful hunter shall then immediately record the confirmation number, in ink, on the line provided on the license tag that was validated (notched) in the field. If reported using the automated harvest reporting system, no check card is required as long as the hunter who killed the turkey is in possession of the carcass. If the automated harvest reported careass is left unattended or transferred to the possession of another individual, written documentation including the successful hunter's full name, the date the turkey

was killed, and the confirmation number must be created and kept in possession with the carcass until the carcass is processed. If the carcass is left unattended, this written documentation must be securely attached to the carcass.

C. It shall be unlawful for any person to destroy the identity of the sex of any turkey killed unless and until the license tag is validated (notched) and reported by using the automated harvest reporting system as required by this section. Any turkey found in the possession of any person without a validated (notched) license tag or documentation that the turkey has been reported by using the automated harvest reporting system as required by this section shall be forfeited to the Commonwealth to be disposed of as provided by law.

4VAC15-240-91. Reporting turkey by persons exempt from license requirement or holding a license authorization number.

A. Upon killing a turkey, any person exempt from the license requirement as described in § 29.1-301 of the Code of Virginia, or issued a complimentary license as prescribed in § 29.1-339, or the holder of a permanent license issued pursuant to § 29.1-301 E, or the holder of a Virginia license authorization number issued by a telephone or electronic media agent pursuant to § 29.1-327 B shall, upon vehicle transport of the carcass or at the conclusion of legal hunting hours, whichever comes first, and without unnecessary delay, report his kill through the department's automated harvest reporting system. The person reporting the careass shall be given a confirmation number from the automated harvest reporting system. No check card is required as long as the hunter who killed the turkey is in possession of the carcass. If the automated harvest reported carcass is left unattended or transferred to the possession of another individual, written documentation including the successful hunter's full name, the date the turkey was killed, and the confirmation number must be created and kept in possession with the carcass until the carcass is processed. If the automated harvest reported carcass is transferred to the possession of another individual, the written documentation must be transferred with the carcass to the individual and kept in possession with the careass until the careass is processed. If the careass is left unattended, this written documentation must be securely attached to the carcass.

B. It shall be unlawful for any person to destroy the identity of the sex of any turkey killed until the turkey is reported by using the automated harvest reporting system as required by this section. Any turkey that has not been reported by using the automated harvest reporting system as required by this section found in the possession of any person exempt from license requirements or holding a license authorization number shall be forfeited to the Commonwealth to be disposed of as provided by law.

Rationale:

This recommendation will remove redundancies in regulation concerning validating tags and reporting the harvests of bears, deer, elk, turkeys, and bobcats. This new regulation, which also incorporates the prohibition on providing false information when reporting game harvests, would replace the following 8 regulations: 4 VAC 15-40-300, 4 VAC 15-50-81, 4 VAC 15-50-91, 4 VAC 15-70-70, 4 VAC 15-90-231, 4 VAC 15-90-241, 4 VAC 15-240-81, 4 VAC 15-240-91. The new reporting requirement for gray fox harvest is designed to obtain better information for managing this species in the future. Population trend information for gray foxes suggests that populations have been slowly declining for the past 20 years.

4VAC15-90-500

Game: Deer: Elk hunting outside the Elk Management Zone.

Summary:

The recommendation is to replace the reference to the regulation 4VAC15-90-231. Validating tags and reporting deer by licensee or permittee and 4VAC15-90-241. Reporting deer by persons exempt from license requirement or holding a license authorization number to the new recommended regulation that combines validating tags and reporting the harvests of certain game and furbearing species 4VAC15-40-290.

Recommended language of amendment:

4VAC15-90-500. Elk hunting outside the Elk Management Zone.

- A. Open season. Except as otherwise provided by 4VAC15-90-510, it shall be lawful to hunt elk of either sex during (i) the general firearms deer seasons as prescribed by 4VAC15-90-10 and 4VAC15-90-23, (ii) the special archery seasons as prescribed by 4VAC15-90-70, and (iii) the special muzzleloading seasons as prescribed by 4VAC15-90-80 with bag limits as prescribed in 4VAC15-90-90.
- B. Upon killing an elk. Any licensed or permitted hunter shall validate a tag on that hunter's special license for hunting deer and turkey or bonus deer permit and check the elk in accordance with 4VAC15-90-231 4VAC15-40-290. Upon receiving a confirmation number, the hunter must call the department to schedule an inspection of the carcass and the site of kill for the collection of biological samples.
- C. Checking elk by persons exempt from license requirements or holding a license authorization number. Upon killing an elk, any person (i) exempt from license requirement as prescribed in § 29.1-301 of the Code of Virginia, (ii) issued a complimentary license as prescribed in § 29.1-339 of the Code of Virginia, (iii) holding a permanent license issued pursuant to § 29.1-301 E, or (iv) holding a Virginia license authorization number issued by a telephone or electronic media agent pursuant to § 29.1-327 B of the Code of Virginia shall check the elk in accordance with 4VAC15-90-241 4VAC15-40-290. Upon receiving a confirmation number, the hunter must call the department to schedule an inspection of the carcass and the site of kill for the collection of biological samples.

Rationale:

This recommendation updates the reference to the new regulation that is being recommended for validating tags and reporting the harvests of certain game and furbearing species.

4VAC15-90-510

Game: Deer: Elk hunting within the Elk Management Zone.

Summary:

The recommendation is to replace the reference to the regulation 4VAC15-90-231. Validating tags and reporting deer by licensee or permittee to the new recommended regulation that combines validating tags and reporting the harvests of certain game and furbearing species 4VAC15-40-290.

Recommended language of amendment:

4VAC15-90-510. Elk hunting within the Elk Management Zone.

- A. It shall be lawful to hunt elk within the Elk Management Zone from the second Saturday in October through the following Friday, both dates inclusive.
- B. The seasonal bag limit for elk shall be one per season as prescribed on the special elk hunting license. The department shall determine the number and type of special elk hunting licenses distributed within a season and license year.
- C. Except as provided in 4VAC15-90-540 or 4VAC15-90-550 individuals selected to purchase a special elk hunting license shall not be eligible to receive a subsequent special elk hunting license for a period of three years.
- D. All licensed elk hunters and persons accompanying elk hunters are required to wear or display a blaze color as described in § 29.1-530.1 of the Code of Virginia.
- E. Upon killing an elk, any licensed hunter shall validate the tag on the hunter's special elk hunting license and report the elk in accordance with procedures outlined in 4VAC15-90-231 4VAC15-40-290. Upon receiving a confirmation number, the hunter must call the department to schedule an inspection of the carcass and the site of kill for the collection of biological samples.

Rationale:

This recommendation updates the reference to a new regulation that is being recommended for validation of tags and reporting of certain game and furbearing species.

Furbearer & Small Game Regulations

4VAC15-110-20

Game: Fox: Part II: Hunting with guns.

Summary:

The recommendation is to establish separate hunting seasons for red fox and gray fox, maintaining the current season for red fox and establishing a season for gray fox in 4VAC15-110-25.

Recommended language of amendment:

4VAC15-110-20. Hunting with firearms. Open season for red fox.

Except as otherwise provided by local legislation and with the specific exceptions provided in the sections appearing in this chapter, it shall be lawful to hunt <u>red</u> foxes with firearms from November 1 through the last day in February, both dates inclusive.

Rationale:

Population trend information for gray foxes suggest that populations have been slowly declining for the past 20 years. In areas where populations are currently at low levels, harvest by humans may be suppressing population growth or contributing towards further declines. Since most gray foxes are harvested by hunters (versus trappers), this proposal is intended to provide a meaningful reduction in hunter harvest that may have positive population impacts. Hunter survey information suggests that most hunters who kill a gray fox do so opportunistically while hunting other species. By eliminating hunter harvest of gray foxes during the months of November and December when most hunters are afield (during deer seasons), gray fox populations may benefit.

4VAC15-110-25 (New)

Game: Fox: Part II: Hunting with guns.

Summary:

The recommendation is to establish a gray fox hunting season from January 1 through the last day of February.

Recommended language of amendment:

4VAC15-110-25. Hunting with firearms. Open season for gray fox.

Except as otherwise provided and with the specific exceptions provided in the sections appearing this chapter, it shall be lawful to hunt gray foxes with firearms from January 1 through the last day in February, both dates inclusive.

Rationale:

Population trend information for gray foxes suggest that populations have been slowly declining for the past 20 years. In areas where populations are currently at low levels, harvest by humans may be suppressing population growth or contributing towards further declines. Since most gray foxes are harvested by hunters (versus trappers), this proposal is intended to provide a meaningful reduction in hunter harvest that may have positive population impacts. Hunter survey information suggests that most hunters who kill a gray fox do so opportunistically while hunting other species. By eliminating hunter harvest of gray foxes during the months of November and December when most hunters are afield (during deer seasons), gray fox populations may benefit.

4VAC15-110-35 (New)

Game: Fox: Part II: Hunting with guns.

Summary:

The recommendation is to establish a daily bag limit for hunting gray fox.

Recommended language of amendment:

4VAC15-110-35. Bag limit.

The bag limit for hunting gray fox shall be one per hunting party, individual or organized, taken between noon of one day and noon the following day.

Rationale:

Population trend information for gray foxes suggest that populations have been slowly declining for the past 20 years. In areas where populations are currently at low levels, harvest by humans may be suppressing population growth or contributing towards further declines. Since most gray foxes are harvested by hunters (versus trappers), this proposal is intended to provide a meaningful reduction in hunter harvest that may have positive population impacts. Although the average number of gray foxes killed per hunter per day is usually low, the potential exists to kill multiple animals per day, especially when using electronic calls. Gray foxes are very susceptible to harvest with electronic calls and are much more likely to approach within close gunshot range than red foxes. Significant numbers of gray foxes could be killed in a short period of time where populations exist. This proposal would be expected to reduce gray fox harvest and the potential for removing too many foxes from disjunct habitat patches that may not be easily recolonized.

4VAC15-110-80

Game: Fox: Part IV: Miscellaneous.

Summary:

The recommendation is to add a damage or threat to human health or safety requirement to the current provision that allows landowners to kill or have killed gray foxes on their own land at any time.

Recommended language of amendment:

4VAC15-110-80. Killing by landowner.

A landowner may kill or have killed <u>red</u> foxes at any time on his <u>or her</u> own land. <u>Provided</u> <u>further that a landowner may kill or have killed gray foxes at any time on his or her own land, but only when they are causing damage to crops or property, or are posing a threat to human health or safety.</u>

Rationale:

Population trend information for gray foxes suggests that populations have been slowly declining for the past 20 years. In areas where populations are currently at low levels, harvest by humans may be suppressing population growth or contributing towards further declines. The regulation as it currently exists provides a continuous open season for hunting and trapping both red and gray foxes on private lands, with no requirement of damage or a human health/safety issue. This proposal will reduce the number of gray foxes killed outside of the hunting season when no damage or human health issues exist. Compared to red foxes, gray foxes are involved in relatively few agricultural damage or nuisance issues. The current provision that allows landowners to kill or have killed red foxes will remain unchanged.

4VAC15-230-60

Game: Fox Squirrel: Open season; first Saturday in September through January 31.

Summary:

The recommendation is to add Henry County to the list of counties open for hunting fox squirrels.

Recommended language of the amendment:

4VAC15-230-60. Fox squirrel, open season; first Saturday in September through January 31.

It shall be lawful to hunt fox squirrel from the first Saturday in September through January 31, both dates inclusive, in the counties of Albemarle, Alleghany, Augusta, Bath, Bedford, Bland, Botetourt, Buchanan, Carroll, Clarke, Craig, Culpeper, Dickenson, Fauquier, Floyd, Franklin, Frederick, Giles, Grayson, Greene, Henry, Highland, Lee, Loudon, Madison, Montgomery, Orange, Page, Patrick, Prince William, Pulaski, Rappahannock, Roanoke, Rockbridge, Rockingham, Russell, Scott, Shenandoah, Smyth, Tazewell, Washington, Warren, Wise and Wythe.

Rationale:

The counties bordering Henry County to the west (Patrick) and to the north (Franklin) have been open for fox squirrel hunting since 2009. Sightings of fox squirrels have increased in Henry County based on a three-year fox squirrel sighting survey conducted by DWR and observational information from landowners, squirrel hunters and others. Opening the season should have no adverse effect on Henry County's fox squirrel population while providing additional fox squirrel hunting opportunity.

Waterfowl & Waterfowl Blind Regulations

4 VAC 15-260-85 (New)

Game: Waterfowl and Waterfowl Blinds: Non-riparian stationary blinds adjacent to certain department-owned properties.

Summary:

The recommendation is to prohibit non-riparian stationary blinds on the public waters adjacent to any department Wildlife Management Area or Wildlife Conservation Site. This will provide more equitable public waterfowl hunting opportunities on the public waters within and adjacent to these properties.

Recommended language of amendment:

<u>4 VAC 15-260-85. Non-riparian stationary blinds adjacent to certain department-owned properties.</u>

A. Non-riparian stationary waterfowl blinds shall not be erected or licensed on the shores or in the public waters adjacent to any department Wildlife Management Area or Wildlife Conservation Site, unless otherwise specified in code or regulation.

B. Floating waterfowl blinds shall be permitted on the public waters adjacent to any department Wildlife Management Area or Wildlife Conservation Site, unless otherwise specified in code or regulation. Additionally, as permitted in Section §29.1-351 of the Code of Virginia, the distance restrictions set forth in Licenses for Waterfowl Blinds and for Hunting Waterfowl, sections §§ 29.1-340 to 29.1-351.1 of the Code of Virginia shall not apply to floating waterfowl blinds being used on the public waters adjacent to any department Wildlife Management Areas or Wildlife Conservation Sites.

C. For purposes of this regulation, adjacent waters are defined as all water from mean low tide to 600 yards offshore.

D. Any person who holds a 2022-23 non-riparian stationary waterfowl blind licenses in the areas specified in Section A is permitted to renew their license for each of their blinds for the 2023-24 and 2024-25 waterfowl hunting seasons. In any case, licenses for these blinds will expire no later than August 15, 2024. Per §29.1-347, blind structures must be removed when the license expires or when the license holder no longer intends to use the blind, whichever occurs first.

E. This section shall not abridge the privileges prescribed for landowners and their lessees and permittees in §§ 29.1-344 and 29.1-347 of the Code of Virginia.

E. This regulation shall not apply to the blinds and public waters in the City of Virginia Beach.

4VAC15-260-60. Blinds adjacent to Chickahominy Wildlife Management Area.

No license shall be issued for stationary waterfowl blinds on Morris Creek and the Chickahominy River in Charles City County adjacent to the Chickahominy Wildlife Management Area.

4VAC15-260-70. Blinds on Game Farm Marsh Wildlife Management Area.

No stationary waterfowl blinds shall be licensed, and no stationary or floating blind license shall be required for hunting waterfowl on the Game Farm Marsh Wildlife Management Area, or in, or on, the public waters of the Chickahominy River, north of the New Kent Charles City County line adjacent thereto; provided, however, that this section shall not abridge the privileges prescribed for landowners, and their lessees and permittees, in §§ 29.1-344 and 29.1-347 of the Code of Virginia.

4VAC15-260-75. Blinds adjacent to the Ware Creek Wildlife Management Area.

Except for blinds built or maintained by the department, no stationary waterfowl blinds shall be licensed on the public waters of Philbates and Ware Creeks, or on the York River within 1000 yards of the Ware Creek Wildlife Management Area. Waterfowl hunting within 500 yards of the wildlife management area property will be permitted only at locations and during times designated by the department. However, this section shall not abridge the privileges prescribed for landowners and their lessees and permittees in §§ 29.1–344 and 29.1–347 of the Code of Virginia.

4VAC15-260-80. Blinds adjacent to Ragged Island Wildlife Management Area.

No license shall be issued for stationary waterfowl blinds in the adjacent waters to mid-channel of Kings Creek and Ragged Island Creek or in the adjacent waters of the James River and Batten Bay within 1000 yards of the Ragged Island Wildlife Management Area in Isle of Wight County.

Rationale:

Non-riparian stationary blinds in waters adjacent to public lands prevent float blind hunting within 500 yards in all directions (a 1000-yard diameter), significantly reducing public waterfowl hunting opportunity in these public waters. This recommendation provides more equitable opportunity and uniformity in the use of the public waters for waterfowl hunting off the shores of department Wildlife Management Areas and Wildlife Conservation Sites. It would also improve the Department's ability to manage hunter access on these properties.

The recommendation provides uniformity in regulatory structure and would apply to new department Wildlife Management Areas and Wildlife Conservation Sites. A number of existing WMAs have waterfowl blind regulations established when those properties were acquired, but minor regulation differences create confusion among waterfowl hunters. These existing regulations could be repealed (4VAC15-260-60, 4VAC15-260-70, 4VAC15-260-75, and 4VAC15-260-80 for Game Farm Marsh, Chickahominy, Ware Creek, and Ragged Island WMAs), standardizing and simplifying waterfowl blind regulations across all department properties.

There is roughly 50 miles of shoreline around current DWR properties that could provide more equitable public hunting opportunities if this recommendation were adopted.

Currently, there are currently 5 to 7 non-riparian blind licenses in areas adjacent to existing DWR properties. This recommendation would allow those licensees to retain their license for one additional waterfowl hunting season (the 2023-2024 season) prior to having those licenses expire.

4VAC15-260-86 (New)

Game: Waterfowl and Waterfowl Blinds: Non-riparian stationary blinds adjacent to select National Wildlife Refuges.

Summary:

The recommendation is to prohibit non-riparian stationary blinds adjacent to select National Wildlife Refuges managed by the U.S. Fish and Wildlife Service. This will provide more equitable public waterfowl hunting opportunity adjacent to these properties.

Recommended language of amendment:

<u>4 VAC 15-260-86.</u> Non-riparian stationary blinds adjacent to select National Wildlife Refuges.

A. Non-riparian stationary waterfowl blinds shall not be licensed or erected on the shores of or in the public waters adjacent to designated National Wildlife Refuges (identified below), unless otherwise specified in code or regulation.

- 1. James River NWR
- 2. Plum Tree Island NWR
- 3. Occoquan Bay NWR
- 4. Featherstone NWR

B. Floating waterfowl blinds shall be permitted on the public waters adjacent to the specified refuges, unless otherwise specified in code or regulation. Additionally, as permitted in Section §29.1-351 of the Code of Virginia, the distance restrictions set forth in Licenses for Waterfowl Blinds and for Hunting Waterfowl, sections §§ 29.1-340 to 29.1-351.1 of the Code of Virginia shall not apply to floating waterfowl blinds being used on the public waters adjacent to the specified refuges.

C. For purposes of this regulation, adjacent waters are defined as all water from mean low tide to 600 yards offshore.

D. Any person who holds a 2022-23 non-riparian stationary waterfowl blind licenses in the areas specified in Section A is permitted to renew their license for each of their blinds for the 2023-24 and 2024-25 waterfowl hunting seasons. In any case, licenses for these blinds will expire no later than August 15, 2025. Per §29.1-347, blind structures must be removed when the license expires or when the license holder no longer intends to use the blind, whichever occurs first.

E. This section shall not abridge the privileges prescribed for landowners and their lessees and permittees in §§ 29.1-344 and 29.1-347-of the Code of Virginia.

Rationale:

Non-riparian stationary blinds in waters adjacent to public lands prevent float blind hunting within 500 yards in all directions (a 1000-yard diameter). This significantly reduces public waterfowl hunting opportunity in these public waters. The USFWS has recently attempted to open additional lands for public waterfowl hunting, but non-riparian blinds in those areas have restricted their ability to provide these opportunities. This recommendation provides more equitable opportunity and uniformity in the use of the public waters for waterfowl hunting off the shores of these selected National Wildlife Refuges. Additionally, this recommendation would improve the ability of the U.S. Fish and Wildlife Service and the Department to manage hunter access on these properties.

There is roughly 18 miles of shoreline around these National Wildlife Refuge properties that could provide more equitable public hunting opportunities if this recommendation were adopted. Approximately 40 non-riparian blind licenses are located along the shoreline adjacent to the specified refuges. This recommendation would allow those licensees to retain their license for two additional waterfowl hunting seasons (the 2023-2024 and 2024-2025 seasons) prior to having those licenses expire.

4VAC15-260-120

Game: Waterfowl and Waterfowl Blinds: Special sea duck season area.

Summary:

This recommendation eliminates the requirement that Virginia's "Special Sea Duck Area" only exists when federal migratory waterfowl regulations allow a "Special Sea Duck Hunting Season". It would also revise the Special Sea Duck Area description to clarify where it is legal to pursue crippled sea ducks (and other waterfowl) under power.

Recommended language of amendment:

4VAC15-260-120. Special sea duck season area.

Whenever federal migratory waterfowl regulations permit a special season for taking scoter, eider and long-tailed (formerly old-squaw) ducks within an area designated as a special sea duck hunting area under regulations adopted by the board, such The special sea duck hunting area shall be designated and delineated as follows: Those waters at a distance greater than 800 yards from any shore, island or emergent vegetation in the following area: The ocean waters of Virginia, the tidal waters of Northampton and Accomack counties up to the first highway bridge, and the Chesapeake Bay and each of its tributaries up to the first highway bridge. Back Bay and its tributaries are not included in the special sea duck hunting area.

Rationale:

Sea ducks were once considered "underharvested", and federal regulations allowed them to be hunted during the regular duck season, and also during an extended "Special Sea Duck Season". This extended season had to be conducted in a state specified "Special Sea Duck Hunting Area". One unique aspect of this federal "Special Sea Duck Season" was that crippled sea ducks could be pursued while a boat was under power, which is illegal for all other waterfowl hunting seasons. Sea ducks can dive and swim underwater for several minutes, so this provision was allowed as a conservation measure to help retrieve crippled birds which would otherwise be lost.

Sea duck numbers have declined, and federal migratory waterfowl regulations have recently eliminated the "Special Sea Duck Season". However, sea ducks can still be taken during the regular duck hunting season. In addition, "Special Sea Duck Areas" have been retained under federal regulations as a conservation measure for recovering crippled birds.

Under the current regulation in Virginia, the Special Sea Duck Area is only applicable when federal regulations permit a Special Sea Duck Hunting Season. Therefore, the Special Sea Duck Hunting Area in Virginia is no longer applicable, and the ability to pursue crippled birds under power is no longer available. This recommendation will remove the nexus to the federal regulation and establish a separate Special Sea Duck Area. It will also revise the area description to clarify where crippled waterfowl could be retrieved while a boat is under power.

VIRGINIA DEPARTMENT OF WILDLIFE RESOURCES BOATING DIVISION BOATING REGULATION STAFF PROPOSALS 2023

Virginia Administrative Code

4VAC15-390. Watercraft: Safe and Reasonable Operation of Vessels Chapter 420. Watercraft: Navigation Lights and Shapes

Summary: The proposed amendment comes as a result of a change to the Inland Navigation Rules found in 33 CFR, Chapter 1, Subchapter E, Part 83 through 86 and as established by the U.S. Coast Guard which is where our Virginia Administrative Code requirements are derived from. Because of a previous field preemption that was inserted and subsequently removed it was discovered that by incorporating the CFR by reference, it would mitigate any issues of confusion between the two and would simply allow officers to enforce the CFR by reference.

Rationale: This change will make the regulations easier to understand and enforce, it would mitigate the need for wording changes when or if the CFR changes, and it would remove 22 regulations sections from the Administrative Code under 4VAC15-390 and 420 as per the Governor's initiative to reduce regulations.

4VAC15-390. Watercraft: Safe and Reasonable Operation of Vessels

4VAC15-390-10. Applicability.

The following sections in this chapter apply to the operation and sound signals of "vessels" as defined in § 29.1-700 of the Code of Virginia on the Waters of the Commonwealth, both public and private. Vessels complying with the international rules of navigation Inland Navigation Rules found in 33 CFR, Chapter 1, Subchapter E, Part 83 (DHS Delegation No. 017000170.1, Revision No. 01.2. September 6, 2022) and Part 84 through 86 (DHS Delegation No. 00170.1. July 2, 2104) and as established by the U.S. Coast Guard are considered to be in compliance with the requirements of this chapter.

Statutory Authority

§§ 29.1-501, 29.1-502, 29.1-701, and 29.1-735 of the Code of Virginia.

Historical Notes

Derived from VR325-04-3 § 1, eff. July 1, 1973; amended, Virginia Register Volume 19, Issue 5, eff. January 1, 2003.

4VAC15-390-11 through 70. Watercraft: Safe and Reasonable Operation of Vessels

Repeal the following seven (7) sections:

Section 11 Definitions

Section 20 Motorboats approaching head and head

Section 30 Motorboats crossing

Section 40 Overtaking another vessel

Section 50 Responsibility between vessels

Section 60 Sailing vessels approaching one another

Section 70 Duty of vessel required to keep out of way; duty of other vessel

4VAC15-390. Watercraft: Safe and Reasonable Operation of Vessels

4VAC15-390-80. Operators to give right-of-way and reduce speed.

Every motorboat, when approaching or passing within 200 feet of any law-enforcement vessel or emergency services vessel that is displaying flashing blue, or red, or public safety lights shall slow to no wake speed so that the effect of the wake does not disturb the activities of law-enforcement personnel or emergency services personnel. Where the operator of a motorboat fails to comply with the provisions of this section and such failure endangers the life or limb of any person or endangers or damages vessels, the operator shall be guilty of a Class 3 misdemeanor. Upon conviction, the operator shall additionally be required to complete and pass a National Association of State Boating Law Administrators approved safe boating course as required in § 29.1-746 of the Code of Virginia.

Statutory Authority

§§ 29.1-701 and 29.1-735 of the Code of Virginia.

Historical Notes

Derived from Virginia Register Volume 39, Issue 9, eff. January 1, 2023.

4VAC15-390-85 through 140. Watercraft: Safe and Reasonable Operation of Vessels

Section 85 Operators to give right-of-way and reduce speed (no amendments)

Repeal the following five (5) regulation sections:

Section 90 Duty where operator's vision obscured.

Section 100 Operation in narrow channel

Section 110 Departure from regulations to avoid immediate danger

Section 120 Regulations not to exonerate operator from neglect

Section 130 Standard whistle and horn signals

4VAC15-390-150 and 160. Watercraft: Safe and Reasonable Operation of Vessels

Section 140 Riding on decks and gunwales (no amendments)

Section 150 Safe speed (no amendments)

Section 160 Penalties (no amendments)

Chapter 420. Watercraft: Navigation Lights and Shapes

4VAC15-420-10. Application. (PROPOSED)

The navigation lights requirements in this chapter shall be complied with in all weather and from sunset to sunrise on The Waters of the Commonwealth. During such times no other lights shall be exhibited, except such lights as cannot be mistaken for the lights specified in this chapter or do not impair their visibility or distinctive character or interfere with the keeping of a proper lookout. The lights prescribed by this chapter shall, if carried, also be exhibited from sunrise to sunset in restricted visibility and may be exhibited in all other circumstances when it is deemed necessary. The lights specified in this chapter shall comply with the Inland Navigation Rules found in 33 CFR, Chapter 1, Subchapter E, Part 83(DHS Delegation No. 017000170.1, Revision No. 01.2. September 6, 2022) and Part 84 through 86 (DHS Delegation No. 00170.1. July 2, 2104) and as established by the U.S. Coast Guard U.S. Coast Guard specifications.

Statutory Authority §§ 29.1-501, 29.1-502, 29.1-701, and 29.1-735 of the Code of Virginia. Historical Notes
Derived from Virginia Register Volume 19, Issue 5, eff. January 1, 2003.

Chapter 420. Watercraft: Navigation Lights and Shapes

4VAC15-420-20 through 110. Watercraft: Navigation Lights and Shapes

Repeal the following ten (10) regulation sections:

Section 20 Definitions

Section 30 Visibility of lights

Section 40 Power-driven vessels underway

Section 50 Towing and pushing

Section 60 Sailing vessels underway and vessels under oars

Section 70 Vessels fishing with apparatus that restricts maneuverability

Section 80 Vessels not under command or restricted in their ability to maneuver

Section 90 Pilot vessels

Section 100 Anchored vessels and vessels aground

Section 110 Seaplanes

4VAC15-420. Watercraft: Navigation Lights and Shapes

Section 120 Penalties (no amendments)

VCP Rollcall

January 2023 / Edition #24

Colonel's Message:

Welcome to 2023! I recently did my first and possibly last video message for everyone in the Law Enforcement Division (link). This year marks the 120th year since our Virginia Conservation Law Enforcement Profession was established in 1903 and we who have worn the GW/CPO Badge and our Law Enforcement Support Staff have done an outstanding job of protecting our natural resources and wildlife as well as being there for those in the outdoors in their greatest time of need. Your efforts make a difference!

I used this video message to continue our discussions on Organizational Excellence that we started in the Officer In-service Sessions last fall. I had three main related topics that we need to build on as we move forward – **Recognition**, **Engagement and Relevancy**.

I also used this opportunity to implement our new <u>Outstanding Accomplishment Spot</u> <u>Recognition Program</u> along with the 27 recipients for each one of those months since I have been promoted to Colonel (see award section for a list of recipients #1 to #27). I look forward to having a one-on-one lunch with each of you during the course of this year.

Colonel John J. Cobb / Chief of Law Enforcement

Proactive Initiatives:

Outstanding Accomplishment Spot Recognition

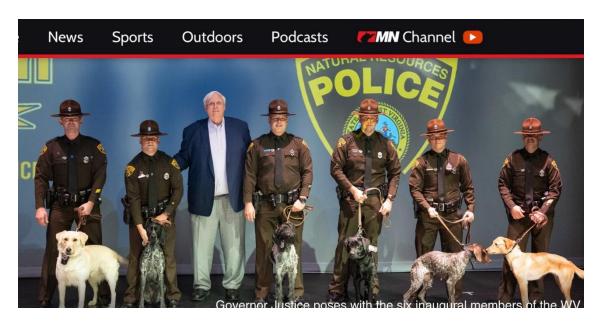

(Monthly Sequentially Numbered Colonel's Challenge Coin)

- This unique <u>Colonel's Challenge Coin</u> was created to recognize Conservation Police Officers / Law Division Staff Members who perform an outstanding accomplishment. This spot recognition is generally given monthly to an individual / team lead as a result of a significant achievement and/or milestone for the Law Enforcement Division. In addition to receiving a sequentially numbered <u>Colonel's Challenge Coin</u> in a custom acrylic coin holder along with a Certificate of Appreciation. The presentation of this honor will also include an invitation for an informal conversation over lunch with the Colonel.
- This spot recognition will generally focus on a recent specific event / action often related to the key topics of Leadership, Professionalism and Excellence. This honor shall ultimately be chosen by the Colonel with input from Senior Command Staff and although not required, anyone in the agency can utilize the nomination form (VCP-178) to highlight the outstanding work of any member within the Law Enforcement Division. A record of recipients along with their assigned coin numbers will be maintained by the Office of Professional Standards. While it is possible to receive this honor more than once, no one can receive this honor twice within a 12-month period.

First Sergeant James Hale received Colonel's Challenge Coin #27 for the Month of January 2023, due to his outstanding efforts with the Game Warden Experience - Trapping

WV Natural Resource Police Inaugural K9 Program (to be trained by our K9 Officers)

Office of Professional Standards:

- UPDATE Professional Standards Major Robinson
 - Next OPS Advisory Council Meeting, February 15, 2023, at DWR HQ
 - Supervisor In-Service March 6-10, 2023, Henrico, VA
 - Next DWR Board Meetings, March 15-16, 2023
 - Next VCP Recognition/Awards Event, March 15, 2023, Henrico, VA

The ability of the police to perform their duties depends on public approval of police actions. Sir Robert Peel- 1829

Stay Safe out there!

Recruitment / Retention Initiatives

The hiring process for the 12th Academy Class has concluded. On January 25th, there will be 28 new officers joining the DWR Team! They are coming to us with a variety of previous experiences and are all excited to be starting their new careers as conservation police officers. They have 6 months of Basic Academy Training ahead of them. Their training curriculum will cover approximately 1400 training objectives and prepare them for their field assignments. This will be DWR's largest Basic Training Academy to date. To help with the large group, Officer First Class Amanda Nevel has been selected for a temporary HQ assignment as the Academy Training Officer. She will be assisting the Academy staff during the Academy training period. Please join us in welcoming them aboard!

Law Enforcement Internship Program

 Please join me in Welcoming Matthew Plotner. Matthew is a Senior Criminal Justice major at Marry Baldwin College. He will be working with Captain Ham in the Region 4 Verona Office.

Training (Basic and In-service) / Training Offered to Other Agencies

- Officer Water Survival (OWS) Course Feb 6 and 7 The next session of the OWS
 Course will be held at a facility in Northern VA and will include officers from DWR
 and Prince William County PD and other partner agencies. This course will be
 offered multiple times in the next two years to provide the opportunity for all of
 DWR's officers to attend.
- 2022 Supervisor/Managers In-service The Bi-annual training for our law enforcement supervisors and managers will be delivered March 6-10, 2022.
- Game Warden Experience Series:

Game Warden Experience - Trapping This advanced training was held in Southwest Virginia from January 11-15. The attending officers received hands-on instruction in various trapping techniques. As you can see in the pictures below, the officers successfully learned trap placement and furbearer handling. Thank you to the volunteer instructors from the Virginia Trappers Association and DWR staff who made this training a success!

Game Warden Experience - Waterfowl This advanced training will be held on the Eastern Shore February 14-16 and will be provide hands-on training and focus on waterfowl identification and enforcement techniques.

 Annual Firearms Qualification - April 17-21 - The annual firearms qualification will be held at VSP's Blackstone facility April 17-21. The range date will include the qualification for all issued firearms including the G45, G43X, and M4 rifle. Officers are reminded that the Division has a corporate membership to Green Top's Shooting range in Glen Allen. Please contact Sgt. Kopelove for more information.

- Training Calendar
- Citizen Feedback / Employee Suggestion Program (E.S.P.)
 - E.S.P. Project List and Completion Tracker
 - Have a suggestion? Submit <u>VCP-180</u> to <u>LawESP@dwr.virginia.gov</u>
- Administrative Investigation/Compliance/Staff Inspections:
 - IAPro—We are starting the new year with full implementation of IAPro as the recordkeeping system for complaint processing, recognition, commendations, and awards. We will also be exploring new ways to use the system.
- Leadership Development Program
 - The LDP application process has closed. We will be notifying applicants of their acceptance and will have the first session on February 8 and 9th. Thank you to all that applied.

Peer Support

- According to the nonprofit organization Blue HELP, 154 officers died by suicide in 2022 and 4 so far in 2023. Though many agencies do not report this number Blue Help collects data throughout the nation to present an accurate representation of the number of lives lost. "Suicide should be pursued as relentlessly as any other cop killer; together, publicly and, with unabating courage." Karen Solomon The Co-Founder of Blue Help. The following article discusses the FATAL 10 in Law Enforcement.
- Article: Silent No More: The FATAL 10 of Law Enforcement Suicide
- If you are having thoughts of suicide, please contact one of our peer support members. Additionally, there are many resources online for example 1stHelp.
- Want to talk to a Peer Team Member? Contact Information

Support Services:

- Support Services Major Blackwell
 - Happy New Year "Hard Chargers"! I hope that all are of good health and spirits. In the world of Support Services, we are plugging right along. Support Services is kicking off the new year with several areas of focus, all aimed to increase the divisions efficiency through purpose driven actions.
 - A snapshot of some of the areas of focus are Fleet Management, Reports and Law Enforcement Records, Training Opportunities / Staff Development, and

Inner Agency Networking. It is my hope that the success of these undertakings will show its value over time and has a positive effect on the daily duties of all.

- Now, for the six-month employment update. Yep, as of January 10th, I have been employed with the DWR Law Enforcement Division for six months. Holy Smoke! As they say time fly's when you ae having fun. I have enjoyed the ride thus far, and I am looking forward to what's around the corner (which will be pied and possibly a sneak peek executed). You tactical door banging Rambo's know what I'm talking about. I am still in the settling phase as several additions have been made to the Support Services outfit in a short amount of time. All good though! It has yielded the opportunity to learn a little more, and the opportunity to work with some phenomenal individuals which translate to one heck of a team (the opposite of the Oakland Raiders UUUUUUGH!).
- To recap we picked up the Permits Section (Randy Francis, Janita Royal & Shirl Dressler), Communications Manager Nancy Moyer, Communication Officers Terri Roberts and Aurora Trick (Trick will be joining the "Green Side"), FOIA Compliance Officer Jessica Schiarelli and yet to be introduced Randy Kingston, the new Fleet Coordinator. They all joined the All-Star Cast consisting of "The Great and Powerful Oz of IT Robert Schmidt, "I'm just saying" Karen Winn in Records Management, Paul Kugelman, AKA "TRIP" holding it down as the Legal Compliance Officer. Boom!
- Before signing off, I would like to express my sincere gratitude for the hard work and dedication displayed over the past six months by all, I want to send a special thanks to Ms. Kim McCarthy and Ms. Katrina Morris. Simply put these ladies ROCK on so many levels. Well ladies and gents that's all that I have this go around. Stay Safe!

Division Budget Update

February will be the month where we build the budget for the Division for FY24.
 Please make sure that all your needs and wants to have been communicated to your regional lieutenants.

Communications Center

- On December 10th the Communications Center welcomed 2 new employees.
 Aurora Trick and Terri Roberts both are working hard with their training and are excited to be here
- Hey guys!
 My name is Aurora Trick, and I am one of the new Dispatchers! Background: I was a 911 Dispatcher for a little over 4 years. I started my career in the City of Fredericksburg in 2018 until 2020 then moved to James City County where I

worked form 2020 until December 2022. I have always wanted to work in a field where I know I am helping someone every day. In my free time my Fiancé and I go fishing weather it's in a small lake in New Kent or going to the Outer Banks inshore fishing. Along with fishing I enjoy working out with my CrossFit family in Newport News. I have always had a passion for the outdoors and will do whatever I can to get some time outside. I look forward to working with each and every one of you.

• My name is Terri Roberts, and I am a mom of 6 sons and a grandmother of 5 grandsons and 1 granddaughter! I was born and raised in this area and have lived here except when I served in the Army; and lived in Germany. I like fishing, especially salmon fishing in Alaska! I don't eat venison (yet??) and my spirit animal is a Hippo! When not hanging out with my grandchildren, I like to paint rocks, hike and generally be outside in the sunshine. I come from the medical and pet retail fields and look forward to learning new things in DWR!

Legal Articles of Interest

- The Court of Appeals of Virginia recently issued an unpublished opinion addressing whether drugs found during what officers described as a protective sweep violated the Fourth Amendment.
- In reaching its ruling, the Court of Appeals noted that an officer may conduct a protective sweep only where the search is for weapons, where that search is in the area where the suspect may gain immediate control of a weapon, and where the officer possesses a reasonable belief that a suspect is dangerous. This belief must be based on the facts confronting the officer at the time.
- In this case, the trial court found that the officers lacked factual basis to believe that the suspect was dangerous and, consequently, the basis for conducting a protective sweep was absent. Thus, the sweep violated the suspect's Fourth Amendment rights.
- Additionally, in searching the passenger compartment of a vehicle, the officers stopped the sweep for weapons once they had found narcotics. Presumably, all of the compartments had not been searched for weapons when the officers completed the sweep, but the record is unclear on this point.
- In Commonwealth v. Hendrick, Record No. 1504-22-2 (Dec. 29, 2022), the Court of Appeals affirmed the trial court's decision to suppress the narcotics found during the sweep because the sweep went beyond what the Fourth Amendment permits.
- The trial court determined that the officers had PC to stop the defendant's vehicle because he ran a stop sign. The trial court also found that the stop occurred in a high-crime area, but the officers were not responding to any call or otherwise actively investigating criminal activity. The suspect was not known to the officers. The trial court also found that the officers had observed the suspect leaning over his steering wheel and reaching towards the floorboard while the

officers were approaching the vehicle; he was sitting upright with his hands visible when they reached the vehicle. The evidence included body cam footage from the officers. The suspect was cooperative and followed the officers' instructions when asked to step out of the vehicle and did not resist when one of the officers cuffed him. The suspect did not seem nervous. The officers did not find any weapons on the suspect's person when patted down. During questioning, the suspect informed officers that he "had just come home from a gun charge," which dispatch confirmed and informed the officers that the suspect "was probably armed."

The officers then commenced a protective sweep of the vehicle. One of the officers asked the suspect why he was reaching down as they were approaching. The suspect explained that he was fixing his boot. During the "sweep," one of the officers found a small baggie of narcotics under the steering column. The officers concluded the sweep at that time.

In reaching its decision, the Court of Appeals explained that the U.S. Supreme Court, in Terry v. Ohio, 291 U.S. 1 (1968), permitted a protective search in the absence of PC when an officer possesses an articulable suspicion that an individual is armed and dangerous. The Supreme Court, in Michigan v. Long, 462 U.S. 1032 (1983), extended this protective search to include passenger compartments of vehicle.

In commenting on the totality of the evidence, the Court of Appeals said, "Taken together, these facts and circumstances do not indicate that when the officers stopped [the suspect], they possessed anything more than a mere 'hunch' that he might be dangerous and have a weapon in his vehicle that he could use to threaten their safety."

Fleet Management

- Mr. Randy Kingston is our new Fleet Coordinator. A formal Introduction will be made in next month's Roll Call.
- We are still working to upfit the four vehicles that have been delivered. According to Ford there are an additional 16 here, and another 24 on the train enroute. Major Shuler and I spent the day pounding the pavement to identify some additional upfitting resources, and BOOM we did. If the stars align, and I don't get any taller we may be in good shape. More to follow and talks continue.

❖ FOIA

- December FOIA Recap
- 28 FOIA requests
- 7 Law Enforcement related requests
- 4 Case reports
- 3 Search LE records for criminal history

Please continue to refer constituents to me, the FOIA email account (FOIA@dwr.virginia.gov) or FOIA voicemail line (804-367-0077) when requesting copies of records. We are working on getting business cards made containing FOIA contact information that you can hand out while in the field. If you have any questions or concerns, please do not hesitate to contact me at Jessica.schiarelli@dwr.virginia.gov or 804-347-1194

❖ IT Systems

- Configuration of Field Ops have begun and should be going into initial testing soon and then deployment within the next month.
- Need Help Call a member of the <u>IT Cadre</u> to set-up either individual assistance or a small group training session
- If you have IT questions, sent them to LawITCadre@dwr.virginia.gov mailbox

Law Enforcement Operations:

UPDATE - Operations Major Shuler

I cannot believe that we are already in 2023. Each year that passes seems to have picked up some steam from the one prior. For most of you, I am sure you are glad that the traditional general firearms season is in the rearview mirror, and you can start to look towards spring turkey, anadromous fish, more trout, boat work, etc. There is never a shortage of work! I wanted to take this opportunity to highlight some excellent cases that were made during the hunting season. I realize that these are the tip of the spear and there are many others that are mentioning as well; these are just a few that I presented to the Board Law Committee on January 18th.

Eastern Shore early migratory bird season patrols

- CPOs conduct numerous patrols and surveillance stakeouts to detect waterfowl violations.
- CPOs observe three groups of hunters illegally using powered motorboats to take waterfowl in an unethical and illegal manner, federal charges placed against each hunter.
- CPOs were assisted by a USFWS FWO (uniformed officer)

City of Suffolk illegal harvest of bears

- On November 4, officers received a call about trespassing hunters on private property near the Dismal Swamp NWR. Upon investigation, CPOs learned of 3 bear that were killed illegally. CPOs working jointly with USFWS agents and have conducted interviews of 10 people involved.
- Multiple violations for trespassing to hunt, fail to tag bears after harvest, no hunting licenses and exceeding the bag limit of bear were found. Charges were placed.

o Exceed Limit of Wood Ducks

 Sergeant Brandon Harris and Officer Jared Howell encountered hunters who had exceeded their limit and harvested too many wood ducks, and hunting with an unplugged shotgun.

Exceed Limit of Mallards

 Sergeant Brandon Harris encountered four hunters who had exceeded their limit and harvested too many mallard ducks, and one who did not have required licenses.

Crime line Call Leads to Charges

As a result of a Crime Line call, Sergeant Matthew Arnold and Officer First Class Corey Gardner responded to a hunting from the public roadway complaint. Their investigation resulted in charges being placed for trespassing, hunting during closed season, shooting from a vehicle, illegally killing a deer, among others. They also were able to clear several other open investigations.

o Felon Possessing Firearm While Trapping

 Master Officer Jason Harris and Senior Officer Ben Boyette encountered a trapper with a firearm who was checking his traps on National Forest Lands.
 During the interaction, the officers discovered that his traps were not labeled as required by law and that the trapper was a convicted felon.

o Albemarle Co. Search Warrant leads to arrest

- CPOs and DWR Special Agents executed a search warrant at the residence of convicted felon whose hunting privileges had been revoked and suspect had been actively hunting and recently killed several deer
- The suspect was arrested for possession of ammunition by a felon as well as possession of narcotics, and other wildlife violation charges are pending.

o Search Warrant Leads to Numerous Violations

- In early November 2022, CPO Pritt received information that a Covington resident was in possession of a small antlered deer decaying on his property in a hand cart.
- The suspect was familiar to officers as he had previous wildlife violations and was a suspect in the illegal harvesting of ginseng. CPO Pritt was also in communication with West Virginia DNR officers about illegal activities in their state.
- As a result of the search, 4 illegally harvested deer were located, over 3 pounds of ginseng, 19 grams of methamphetamine, 7 ounces of marijuana, 56 ecstasy pills, 14 grams of mushrooms, 237 assorted prescription pills/tablets, 18 firearms, 4325 rounds of ammunition, 2 crossbows and 291 dollars related to drug trafficking were seized.

o K9 Officer Braziel and Grace Investigate Bear Case

CPO Braziel, and K9 Grace, responded to a possible illegal bear kill in Suffolk during harsh weather conditions (17 degrees with 35mph winds). K9 Grace was able to back track the hunters and found the kill location in the Great Dismal Swamp where dogs had treed the bear. CPOs and Federal Officers have conducted interviews and found 9-10 hunters involved in this illegal hunt. Numerous state and federal charges are pending.

Stolen Vessel Investigation Leads to Numerous Indictments

In September 2022, Special Agent Paul Inge received information about a stolen boat that had been sold to an unknowing party in Buckingham County. This led to an arrest warrant and a search warrant being issued for the suspect's home. During this search, evidence of narcotics (methamphetamine, prescription drugs and marijuana) distribution, counterfeit inspection sticker manufacturing and distribution, firearms violations and counterfeit currency manufacturing were located. This investigation has resulted in 97 pending indictments.

General Information

- Officer Safety: This is why we emphasize proper and complete searches of arrestees in Officer Survival
- On behalf of the Officer Survival Cadre, I wanted to share this article and video with the field force. This is a reminder of the importance of conducting complete and thorough searches of your arrestees. Search 2 or 3 times if you feel the need to and search them again if you receive them from another officer because you don't know how good of a search that officer did.
 - ➤ I have my own story on this ref. a knife still in possession of an ECO who was tased, taken into custody, searched, and transported by another deputy with a knife still in the pocket of the ECO. The knife came out during my "watch" shift of the ECO at the hospital! Not good.
 - As always, stay safe out there. see below... Master Officer Owen Heine

Lest We Forget...

Wreath at plane crash site on the 50th anniversary of this tragic incident where Allen Flippo and Donald Gentry paid the ultimate sacrifice as public servants and protectors of wildlife

Personnel:

- Officer Commendation of the Month
 - Goes to Officer First Class Phillip Pruitt, Master Officer Michael Entsminger,
 Officer Jasemine Brown, and Sergeant Kenneth Williams

This Citizen Feedback Submission read, "I am writing this to commend several of your officers for a professional, and quick resolution of a problem myself and neighbors have been dealing with for the last 5 years. I am a property owner in the Buckhorn subdivision in Alleghany County. There is a camp near mine that has been a nuisance for a while, road hunting, spotlighting, and trespassing on my and others properties. I contacted CPO Phillip Pruitt last week and met with him last Thursday and explained my dilemma. We visited for over an hour, and he listened to my concerns. On Saturday, he, along with CPO's Michael Entsminger, Jasemine Brown, And Sergeant Kenneth Williams went to the camp and encountered several individuals. The outcome was more than satisfactory, as CPO Pruitt advised me there was a lot more going on there than he thought, and took enforcement action. This was the best outcome, as these individuals had become more brazen over the years, and I feared there would have been a confrontation in the near future.

The professionalism of your officers, and their dedication to enforce the law in a timely manner is greatly appreciated. I Know there is a negative light on Law Enforcement right now in our communities, but your officers went above and beyond, and acted with the best interests of all involved and shined a good light on your agency. Again, I would like this to serve as a job well done to you and your officers."

Sincerely and respectfully,

Brian D Decker

Master Police Officer

Marine Patrol/Dive Team

Special Operations

Virginia Beach Police Department

Awards & Honors

On Saturday, January 14, 2023, Senior Conservation Police Officer Dan Smith was formally recognized by the Virginia Chapter of the National Wild Turkey Federation at their annual banquet in Roanoke, Virginia. CPO Smith was awarded the Conservation Officer of the Year award for his efforts in conservation of the wild turkey as well as the preservation of turkey hunting heritage. Senior Officer Smith is the Virginia State Chapter national nominee and will be representing Virginia at the NWTF national convention in Nashville, Tennessee in February.

VCP Rollcall

February 2023 / Edition #25

Colonel's Message:

I recently had the privilege and honor to welcome our 12th VCP Basic Academy, which represents our largest basic class ever with 28 recruits. I used this opportunity to talk about them entering a law enforcement family with passionate and dedicated officers and staff that have continue to carry forward an exceptional history and tradition as **Protectors of Wildlife and Natural Resources** for 120 years and counting. I also talked about our unique scope of work, significant accomplishments, special mission, core values, and vision to address the challenges that we will need them to meet in the future.

In terms of diversity, it appears that this recruit class has the greatest variety of work experiences that we have ever seen in one group. They are definitely a younger class as a whole and will have a lot of room to grow over the next six months. I am confident with our outstanding training staff, instructors, and field training officers that we will give them the knowledge and tools to be successful in this noble wildlife enforcement profession.

Colonel John J. Cobb / Chief of Law Enforcement

Proactive Initiatives:

General Assembly House Resolution

 Thanks to the outstanding lobbing efforts of our PBA Natural Resources Chapter and the Virginia Conservation Police Association, we received the following passed House Resolution to denote our 120th Anniversary Year of serving the Commonwealth as Game Wardens / Conservation Police Officers.

HOUSE RESOLUTION NO. 318

Offered February 13, 2023 / Patrons-- Kory and Carr

Commending the Virginia Conservation Police.

- WHEREAS, the Virginia Conservation Police, a unit of the Department of Wildlife Resources that
 has greatly served the Commonwealth by promoting the management of inland fisheries, wildlife,
 and recreational boating, celebrates its 120th anniversary in 2023; and
- WHEREAS, the Virginia Conservation Police was created on May 14, 1903, when the General Assembly enacted legislation during a special session to establish a statewide system of lawenforcement officers devoted specifically to wildlife crime; and
- WHEREAS, in the early days of the Virginia Conservation Police, officers, known then as game
 wardens, were political appointees serving at the pleasure of local officials in their areas of
 assignment; with minimal training, they learned what they could on the job and from local sheriffs
 and police departments; and
- WHEREAS, in 1916, the Department of Game and Inland Fisheries was created by the General Assembly with a mandate to manage the fisheries and wildlife resources of the Commonwealth, and the Virginia Conservation Police fell under its purview; in 2007, game wardens became conservation police officers and 13 years later the Department of Game and Inland Fisheries became the Department of Wildlife Resources; and
- WHEREAS, the Virginia Conservation Police patrols a vast and expansive jurisdiction to enforce
 the Commonwealth's laws regulating hunting, fishing, boating, and other wildlife matters and to
 ensure that both citizens and visitors in the Commonwealth safely and responsibly enjoy the area's
 exceptional natural resources; and
- WHEREAS, conservation police officers of the Virginia Conservation Police are fully certified
 through the Department of Criminal Justice Services, with authority to enforce all of the laws of the
 Commonwealth, and they also serve as deputy U.S. Fish and Wildlife Service special agents,
 enabling them to conduct investigations and cross state lines when violations of federal wildlife
 laws have occurred; and
- WHEREAS, members of the Virginia Conservation Police possess a unique array of skills that
 enable them to greatly assist other state and local agencies in a number of circumstances, from
 tracking suspects through difficult terrain to responding in the wake of a natural disaster; and
- WHEREAS, education and public outreach is a major component of the work of the Virginia
 Conservation Police, as the department places a strong emphasis on serving the community while working to fulfill its mission; now, therefore, be it
- RESOLVED by the House of Delegates, That the Virginia Conservation Police hereby be commended for its dedication and professionalism in protecting the Commonwealth's wildlife and natural resources on the occasion of its 120th anniversary; and, be it
- RESOLVED FURTHER, That the Clerk of the House of Delegates prepare a copy of this resolution for presentation to the Virginia Conservation Police as an expression of the House of Delegates' admiration for the department's history of contributions to the Commonwealth.

Proactive Initiatives (cont.):

- o Authorization for Plain Clothes CPOs to Fish Without License while On-Duty
 - Memo dated February 21, 2023 (see link)

Office of Professional Standards:

- UPDATE Professional Standards Major Robinson
 - Next Law Committee and DWR Board Meetings: March 15-16, 2023
 - 5th Annual VCP Awards Ceremony: March 15, 2023
 - Next O.P.S. Advisory Council meeting scheduled for April 2023

Famous Quote: "I've learned that people will forget what you said, people will forget what you did, but people will never forget how you made them feel." Maya Angelou

- Recruitment / Retention Initiatives
 - Anyone who is interested in joining the DWR team as a conservation police
 officer can receive information about the career, the hiring process, and the
 training academy by emailing recruiter@dwr.virginia.gov.
 - Prospective applicants can also visit the CPO Recruiting website by scanning the QR code below that will take them to https://dwr.virginia.gov/conservation-police/recruiting/.
 - There, prospective applicants can find updated information and answers to many frequently asked questions.

- February Recruiting Outreach Events
 - Sergeant Mike Hill conducted a Criminal Justice Career Fair at Old Dominion University in Norfolk, VA. He also conducted an in-person question and answer panel for program volunteers of the Harbor Links Scholar Program in Baltimore, MD.

- Training (Basic and In-service) / Training Offered to Other Agencies
 - 12th Academy Update- The class has had a busy first 5 weeks of training. They have completed American Red Cross First Aid and CPR training, a 2-week block of defensive tactics, and learned about how the department's different divisions work together.

- Supervisor/Manager In-service Training- October 2-5
- Annual Firearms Qualification- April 17-21- The annual firearms qualification will be held at VSP's Blackstone facility April 17-21. The range date will include the qualification for all issued firearms including the G45, G43X, and M4 rifle. Officers are reminded that the Division has a corporate membership to Green Top's Shooting range in Glen Allen. Please contact Sgt. Kopelove for more information

Risk Management

- This month I would like to focus on Not bringing Chaos into our interactions with the public. In the Calibre Press article below they provide a Raw Opinion of The Memphis Police, Tyre Nichols Incident that tragically ended with the death of Mr. Nichols. I am sure by now you have all seen this on the news or have viewed the body cam footage. The death of Tyre Nichols at the hands of police officers is appalling and indefensible. We can all learn something from every interaction whether it is performed to the utmost professional standards or when performed in violation of acceptable practices or established laws. In this article, the author writes "The Officers Brought the Chaos - No question that the officers brought the chaos, confusion, and fear into the initial interaction with their poor tactics and immediate unprofessional language and threats." One of the many takeaways I hope you can glean from the article is don't bring chaos into your interactions with the public. Though your intent may be to professionally enforce established laws and regulations bringing chaos into the incident will not benefit you or those you have taken an oath to serve and protect.

♦ UPDATE

- Good day folks. I hope that all is well on your end. I know that this should fall under the "Fleet Management" header, but what's life without a little adventure. With the assistance of Major Ryan Shuler, our purchase orders have been squared away (well as of this writing), and hopefully we will start receiving the additional vehicles in the next week or so.
- We have also received the green light to lease our next batch of vehicles. I truly believe that over the next couple of years we will see a huge improvement of our overall fleet. Also, please take a moment and check out the Fleet Management header for Mr. Randy Kingston's Introduction.

THE HUNT

- I had the opportunity to spend some time off the clock with "Dead Eye" Major Shuler. I was talked into participating in a quail / chukar hunt at Orapax Hunting Preserve. Well sports fans I didn't even know what a chukar looked like. I reluctantly agreed to go because I was told that "it's going to be a good time, man".
- My best friend, James Baldwin (Retired RPD Sergeant), set it all up and prior to taking to the field conducted a safety brief. Shortly after starting the hunt James's trusty dog, Bo, locks up on a point. Old "DE" steps up, bird flushes and boom. Yep, Ryan knocked it down, Bo retrieved it, and Jody is up.
- I will start this off by letting everyone know that I have some issues that I need to work through when it comes to our feathered friends. If truly interested in the issues stop by some time and we will talk it out. A short time later ole' Bo locks up on another point. I can't say that I was over the top excited. As I walked up James told me to start kicking around in the brush, so I did and nothing. I stop kicking and look back at James, and that's when it happened. The bird was right by my foot and launched straight up and hit me in my face as it took to the air like a great phoenix. I fired two rounds and I believe that I heard the chukar giggle as it continued its flight. Gang, I tell you, I found myself needing a hug.
- As the day progressed, I must admit, I started to have the time of my life. I sort of found my groove on a few birds and found myself being humbled a few more times throughout the hunt. The best part of the day was the opportunity to hang out with some great people, fire some rounds and figure out how to talk my wife into letting me buy a new gun. Boom! Getting a new gun!

Communications Center

- National Public Safety Telecommunications Week is held during the second week of April every year to honor telecommunications personnel for their commitment, service, and sacrifice. For those who do not know the story behind the week, let me explain why and how it came about.
- In 1981, Patricia Anderson of the Contra Costa County Sheriff's Office in California went to speak to the Sheriff about what happen one day during the recognition of administrative assistants' week. Since 1955 the work of administrative assistants (then called secretaries) was celebrated, and in 1981 the last week in April was dedicated to that purpose. Contra Costa County Sheriff Richard Rainey was determined to acknowledge his administrative staff that year by treating them all to lunch. Sheriff Rainey did not realize that administration's practice was to never let their phone lines go unanswered. After business hours, the secretarial and clerical lines were forwarded to dispatch to process (basically tell them to call back during business hours). Because these were administrative lines, it generally did not impact the dispatch center because the volume was very low.
- At 11:00 a.m., without thinking, the administration staff pushed all their calls to dispatch and left the building. Dispatch was caught completely by surprise when the phone volume suddenly jumped (while they were at minimums due to meal breaks). The supervisor called admin to find out what was going on, only to have the call rerouted back to dispatch! She then sent a dispatcher to the admin side of the office to tell them to turn off the auto forward feature. The dispatcher came back to report that there was no one in administration!
- At 1:00 p.m. the administrative staff came back to work and disconnected the auto forward phone feature. Although the supervisor chose to be annoyed quietly, Patricia Anderson, a long-time dispatcher, went to administration to give the Sheriff a piece of her mind. Sheriff Rainey apologized and promised Pat it would never happen again. Pat returned to dispatch and never said a word about her conversation with the Sheriff. Pat was a tenured dispatcher when Sheriff Rainey was hired as a deputy, and she was very well respected by senior sworn staff members.
- At 2:00 p.m. the same afternoon, Sheriff Rainey and Under Sheriff Warren Rupf walked into dispatch with a giant beautifully decorated cake that said, "Happy Dispatcher Week." With that very wise move, Sheriff Rainey, Under Sheriff Rupf, and Dispatcher Patricia Anderson started an initiative that culminated in what we now know as National Public Safety Telecommunicators Week.
- In 1994, President Bill Clinton signed Presidential Proclamation 6667, declaring the second week of April as National Public Telecommunicators Week. This week is a time to celebrate and thank telecommunicators across the Nation who serve our communities, citizens, and public safety personnel 24 hours a day, seven days a week.

This year Communications Week is April 9-15, if you get a chance stop by or call and thank your communications officers for the job of being that calm voice on the other side of the radio. Our Communications Officers do an amazing job all year and I am proud to manage such a great group of personnel that are dedicated and passionate about the profession they have chosen to pursue.

❖ Fleet Management – Randy Kingston

- I have been involved in the Fleet industry for the past ten years. I started as the Assistant Manager with Avis/Budget Car rentals at the Charlottesville Albermarle Airport. During my time there I assisted the Manager with a Fleet of 50+ plus daily. I then transitioned to the Virginia DMV which was my first state job in Virginia. This position was critical because it taught the technical skills needed to keep a vehicle compliant with the state as well what is needed for the DMV Fleet Management system. After that position I worked as the Planning and Deployment Team Lead with DGS Fleet Management. Now I am here with DWR Law Enforcement Division.
- Please join me in welcoming Randy to the DWR Law Enforcement Division.

❖ FOIA

- January FOIA Recap
- 53 FOIA requests
- 16 Law Enforcement related requests
- 9 Case reports
- 2 Search LE records for criminal history
- 1 crime data report
- 4 annual hound dog data

Please continue to refer constituents to me, the FOIA email account (<u>FOIA@dwr.virginia.gov</u>) or FOIA voicemail line (804-367-0077) when requesting copies of records.

IT Systems

- Need Help Call a member of the <u>IT Cadre</u> to set-up either individual assistance or a small group training session
- If you have IT questions, sent them to LawITCadre@dwr.virginia.gov mailbox

Law Enforcement Operations:

- UPDATE Operations Major Shuler
 - I would be remise if I did not again mention how impressed we are with the effort that was placed on waterfowl enforcement across the state this past

season. For a lot of you, waterfowl enforcement may not have been on the forefront of your enforcement efforts in the past, which is understandable. I hope that everyone that increased their focus this past year learned a little something new and will build on their successes next year. For those that have not had an opportunity to attend, I highly recommend the waterfowl enforcement Game Warden Experience that is planned and hosted by District 12 on the Chincoteague National Wildlife Refuge. They just completed the second one of these training sessions and they again received rave reviews. This year, in addition to just CPO's, we also had some federal wildlife officers and national park rangers attend. This is slowly becoming THE waterfowl enforcement training on the East Coast, which is a direct result of SGT Garvis and Master Officer Bratton's efforts.

Here is some feedback that we received:

- Per an email from Federal Wildlife Officer with the U.S. Fish and Wildlife Service: "The 2023 Virginia Department of Wildlife Resources "Game Warden Experience" was held at the Chincoteague National Wildlife Refuge on February 14th, 15th, and 16th. The "Game Warden Experience" is a DWR initiative to provide their current field officers with advanced training in enforcement techniques in many areas of enforcement. This particular "Game Warden Experience" was a three-day hyper focus on migratory waterfowl enforcement and included classroom instruction, violation demonstrations, hands on scenarios, Federal prosecution procedures, as well as question and answer conversations. The "Game Warden Experience" takes seasoned officers who have a few seasons under their belt and provides them instruction on developing more advanced, complex cases in the realm of migratory waterfowl enforcement. As we're all aware there are many threats to migratory waterfowl populations and many species are on the biological and enforcement radar as species of concern due to population decline. Collaborative trainings such as this are crucial in even and effective
- Trainings such as this highlight the importance of collectively coming together and the strong relationships that have been formed between the multiple agencies involved. This training was a collaboration of the Virginia DWR Conservation Police and Biological Division, USFWS Division of Refuge Law Enforcement and Office of Law Enforcement, USFWS Chincoteague NWR Management, Biology, and Visitor Services Divisions, the Assateague Island National Seashore National Park Service Law Enforcement Division, and The Department of Justice U.S. Attorney's Office for the Eastern District of Virginia. Thank you to those who came together and assisted in instruction as well as the behind the scenes planning and logistics. Also please forward to other command staff who allowed all to participate and express our appreciation. The event was well attended and beneficial for all involved."
- Followed by email from the National Park Service: "This was one of the best resource protection trainings I have been to in my 23+ year career as a Law

Enforcement Ranger. Instructors were first-class with real world experience & they demonstrated that with their knowledge of the law, enforcement techniques and the video footage from cases. Thank you for allowing us to be part of this training. Please keep us in mind for future training opportunities such as this. Thanks again."

CPO Notebook

Media Initiatives

The second annual Game Warden Waterfowl Experience is complete! 🧠 🤶 👮 💺

Sergeant Steve Garvis and Master CPO Brian Bratton hosted the second annual Game Warden Waterfowl Experience, which was held on the Chincoteague National Wildlife Refuge. DWR teamed up with U.S. Fish and Wildlife Service staff to provide training for CPOs, Federal Wildlife Officers and Federal Park Rangers. Those in attendance received classes on waterfowl laws, bird identification and enforcement techniques to preserve Virginia's wildlife for future generations.

Special guest Assistant US Attorney Dee Sterling, presented on federal judicial processes, court preparation, case managementand open field doctrine. In addition to time spent in the classroom, officers conducted scenarios and training on rallying, shooting after hours, over the limit and baiting. Well done! #vawildlife

Personnel:

- Officer Commendation of the Month
 - Goes to Water Survival Course Training Cadre (Senior CPO Justin Chambers, CPO First Class Roger Palmisano, Sergeant Mark Brewer, Sergeant Brandon Harris, Sergeant Joel Wiedel, and Master CPO Sarah Druy.
 - The Prince William County Police Marine Unit's Assistant Team Commander participated in the most recent Water Survival Training and wrote, in part, "I have been on the Marine Unit in Prince William County for about eleven years and have always pondered what would happen if I ended up in the water in full uniform. This course was eye opening and something I wish I would have

been able to attend before ever stopping on a boat as a law enforcement officer". Regarding the training cadre, he wrote "Each instructor presented with passion and diligence, ensuring that all participants fully understood the course objectives. It became very apparent early on that each instructor was passionate about their role and conducted themselves with the utmost professionalism. The Virginia Conservation Police should be extremely proud of these members as they truly represented the agency at the best level possible".

Awards & Honors

- The VCP Recognition and Engagement Program recognizes Officers and Law Enforcement Staff for their state public service and strides to acknowledge their outstanding contributions to the mission and goals of the Department of Wildlife Resources and to the citizens of the Commonwealth of Virginia.
- VCP Honors and Award Recipients:
- 2022 Virginia CPO of the Year OFC Amanda Nevel

Region 2 CPO of the Year - Sgt. Brandon Harris Region 3 CPO of the Year - OFC Joshua Guizar Region 4 CPO of the Year - MO Owen Heine Special Ops / K-9 Unit CPO of the Year - Senior SA Paul Inge

- 2022 Virginia Boating Officer of the Year OFC Tyler Routon Region 1 Boating Officer of the Year - MO Cameron Dobyns Region 3 Boating Officer of the Year - MO David Peake Region 4 Boating Officer of the Year - OFC William Bostic
- 2022 Communications Officer of the Year Donna Byrd
- 2023 O.P.S. Professionalism Decree OFC William Tim Bostic
- 2023 Colonel's Leadership Award Captain Randy Hickman
- We are looking forward to formally recognizing them at the VCP Awards
 Ceremony, which will be held in conjunction with our LDP Cohort 1
 Graduation on Wednesday, March 15 at the Lewis Ginter Botanical Gardens.
- Monthly Outstanding Accomplishment Spot Recognition (Colonel's Challenge Coin)
 Coin #28 Master Officer Jason Harris Outdoor Education

For hosting, along with various community partners, a deer processing workshop at the New River Wildlife Club in Grayson County. This workshop has been a popular offering in the past and this event was no different. Several participants from all over the state, with varying skill levels, learned proper deer skinning and processing techniques. This is one of many events offered throughout the year in Grayson County in conjunction with the New River Wildlife Club, Virginia DWR Outdoor Education, and Virginia DWR Complimentary Workforce Volunteers.
