

Voluntary Chronic Wasting Disease Testing in Disease Management Area 2

Hunters who are successful on any day of the deer hunting season in Arlington, Culpeper, Fairfax, Fauquier, Loudoun, Madison, Page, Orange, Prince William, and Rappahannock counties are encouraged to voluntarily get their deer tested for chronic wasting disease (CWD) by bringing it to a CWD deer head drop site or by utilizing a processor approved for CWD sampling.

Instructions for Voluntary Submissions of Deer Heads for CWD Testing

1. Bring the head and at least 4 inches of neck to a CWD deer head drop site. (Heads with the antlers and/or skull plate removed can still be tested.)
2. Heads should be as fresh as possible (i.e., submitted within a few days after death and kept cold prior to submission).
3. If you plan to mount the head, submit the head and 4 inches of neck *after* caping.
4. Fill out the data card per instructions posted at the CWD deer head drop site.
